Jung Quality Seeds

PERFECTED MASTADON
The Wonderful New Everbearing Strawberry
(See inside front cover)

J.W. Jung Seed Co., Quality Seed Growers
Randolph, Wisconsin

Best of all Lettuce

Christmas Kochia

Annual Chrysanthemums

Evening Primrose

Jung's Earliest Tree Tomato

Masterpiece Wax Beans

JUNG'S FREE SEED SPECIALTIES

The splendid vegetables and flowers offered below are special selections and are something we know will delight our customers. Many seedsmen charge 10c to 15c per pkt. for such seeds but as a special offer to our customers you may select 1 pkt. free for each 25c worth of seeds or plants ordered but not more than 6 pkts. to a customer. This offer does not apply on Farm Seeds or Collections on which our profit is very small. Free Seeds must be selected from varieties offered on this page only.

Jung's Earliest Tree Tomato

This splendid tomato is well suited for small gardens as the plants grow upright and do not require much room. Plants grow stiffly erect until they become overloaded with fruit. The tomatoes are of large size, always smooth and solid, very meaty and have no hard core. This seed is of our own growing and is sure to be early.

Christmas Kochia

This new variety should not be compared with the common Kochia which dried up early in the fall. The bushes are a mass of dense, live green during the summer while after frost they turn to a rosy red and are highly ornamental when most other shrubs and plants are dried up and the effect of this color against snow is a beautiful sight. In rich soil they will grow four ft. tall.

Annual Chrysanthemums

Easy grown annuals that produce some of the finest color combinations known in flowers. May be started indoors or sown out in the flower garden. As the flowers are borne on long stiff stems they make excellent bouquets. Blooms keep well in water for a long time.

Evening Primrose

Very handsome and interesting annuals. Plants grow 2 ft. tall and bloom profusely from July until Sept. The flowers remain closed during the heat of the day but upon the approach of evening you can enjoy a thrill by sitting in the garden and watching them open.

"How to Grow fine Vegetables and beautiful Flowers"

We are not satisfied to only sell you good seeds, we also want to see you have the finest garden in your neighborhood as that is the best "ad" we can have. At considerable expense we have gotten up complete cultural instructions for both Vegetables and Flowers which we send free when requested with every order. You will get much valuable information from these instructions.

Masterpiece Wax Bean

Although we are offering a very good selection of choice beans in our regular list we believe "Masterpiece" has even superior merits. This variety is free from rust and disease and produces handsome, long pods that are tender and stringless. The plants are strong growers, with large lustrous green leaves and bear an immense crop of the beautiful golden pods.

Jung's "Best of All" Lettuce

A fitting companion to our famous "All Cream" Lettuce which it resembles very much except that it does not have the pink or brown edges on the leaves. It can be relied upon to give you lettuce that you will relish whether sown early in the spring or during the summer as it is unsurpassed as a heat resister. The leaves are a handsome green, beautifully crumpled and are crisp, tender and sweet at all times.

Cupid Spencer Sweet Peas

You can now grow the large flowered sweet peas without "fussing" with brush or trellis by sowing these new dwarf varieties. Plants form a spreading row or bed 15 to 18 inches wide and will delight you with their abundance of large blossoms for a long time. May also be grown in pots for winter blooming. All colors that are sure to please.

"Perfected Mastadon" EVERBEARING STRAWBERRY

(See front cover)

This grand variety represents the greatest advance ever made in breeding Strawberry plants. By planting "Mastadon" you can have just as large a crop of strawberries in the summer and fall as during June. Has made the remarkable yield of 5600 qts. per acre and in size, quality and flavor is equal to the best. Unlike other Everbearers the plants of Mastadon are large, vigorous and deep rooted which enables it to produce such loads of large berries even under unfavorable conditions. Our plants are genuine stock and very strong: 25, for \$1.50; 50 for \$2.75; 100 for \$5.25; 1000 for \$38.00.

"The Products of Jung's Seeds are Unexcelled"

Randolph, Wis., Jan. 1, 1927.

To Our Friends and Customers:

To our many thousand customers who receive this catalog we need no introduction but to those who have not dealt with us before a few words about ourselves and our business policy may not be out of place.

From the very beginning our purpose has been to supply our customers with seeds of the highest quality at reasonable prices; we believed that "a satisfied customer is our best advertisement" and the truth of this is proved by the steady increase in the number of our customers.

In no other line of trade does the buyer place as much confidence in the firm with which he is dealing as in the purchasing of seeds, as no one can tell from the appearance of seed whether it will grow or what kind of a crop it will produce.

It's Easy to Order Jung's Seeds

With each catalog we enclose an order sheet and self-addressed envelope. Be sure to write your name and address on order sheet. After writing down the list of articles wanted place same together with remittance in the envelope. Remittance may be made by Money Order, Bank Draft or Check, amounts of 50c or less may be sent in clean postage stamps. You will be surprised how easy it is to make out your order and how soon the seeds will reach you after the order is sent in.

We Prepay Delivery Charges as Follows:

Except where noted we pay the postage on all seeds offered by the packet, ounce, quarter-pound, pound, half-pint, pint, and quart, also on all bulbs and plants offered in quantities up to 1,000. On plants in lots of 1,000 or more purchaser pays charges. On seeds offered on wholesale page, also farm seeds and potatoes in quantities of over 3 pounds we do not pay charges.

We Guarantee Safe Delivery

If any parcel of seeds, plants or bulbs reaches you in bad condition advise us at once and we will refill the order free of charge or refund your money. Also if any goods you receive from us are not satisfactory in every way they may be returned and your money will be refunded.

Orders are Filled Promptly

We usually fill orders the day they are received. This applies to orders for seeds that can be sent at any time during the winter. If the order includes potatoes, onion sets, plants etc., which cannot be safely sent in cold weather, we are obligated to hold the order until it is safe to ship.

Disclaimer

The J. W. Jung Seed Co. gives no warranty, express or implied, as to description, quality, productiveness or any other matter of any seeds, bulbs or plants it sells and will not be responsible for the crop.

Our Responsibility

You are absolutely safe in sending your order to us. Any seeds that are not satisfactory upon arrival may be returned and your money will be promptly refunded.

We refer you to any commercial agency, the Randolph State Bank and the postmaster at Randolph, Wisconsin

Although Reduced Our List is Complete

We have spent much time and gone to considerable expense in getting out a catalog that will contain but a limited number of varieties and still be complete. You will find that our list will meet every requirement as each item has been selected for its superior qualities.

Why You Should Make A Garden

Few things bring such large returns for time and money invested as a well-kept garden. You not only get your vegetables at low cost but you will also find that there is no comparison between vegetables crisp and fresh from the garden and those bought at the stores. To have real quality in vegetables they should be taken fresh from your garden.

That we are not betraying the confidence our customers place in us is best proved by the many unsolicited testimonials we receive, many of them are printed throughout this catalog and our only regret is that we do not have room to publish them all, nevertheless we assure you that they are highly appreciated even tho we cannot print them all.

We cannot close without thanking our customers from all parts of the World, for the largest business in our history with which you favored us in 1926 and also for the many orders of your friends which came with their own. It is the best evidence we have that "The Products of Jung's Seeds are Unexcelled" and we shall strive harder than ever in 1927 to supply you with the best Seeds and Plants it is possible to grow.

The Jung Business Policy

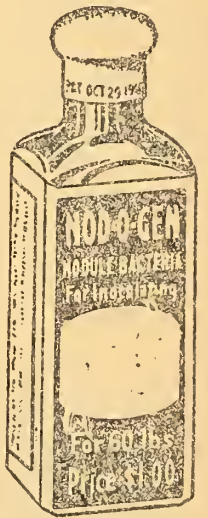

We are firm believers of the principle that no firm is or can be a success unless humanity or the country is better by its having existed. Our business is our pleasure, profit alone is not our only aim. We know that we cannot succeed unless we supply you seeds through the use of which our customers can raise better crops and beautify their home surroundings. Our greatest delight is to see planters raising better crops from Jung's Seeds and the ever increasing number of complimentary letters we receive from customers is the best proof that our work is not in vain. Our greatest asset is our satisfied customers and you may rest assured that we at all times use our greatest care to send out only the best quality seed it is possible to produce. Plant your garden with Jung Quality Seeds this year. We assure you of a bountiful crop.

Increase Your Crops of Beans, Peas and Sweet Peas by using "NOD-O-GEN"

This is a compound which when applied to the seed before planting promotes stronger healthier growth, hastens maturity, increases the crop, improves the quality and also enriches the soil. It is for legume plants such as Beans, Garden Peas and Sweet Peas. In the case of Sweet Peas larger and finer flowers will be had, and in Garden Peas and Beans your crop will be much heavier and of finer quality and you can pick more pods from each plant. NOD-O-GEN is easy to apply, full instructions on each bottle which contains sufficient compound to treat 5 to 10 lbs. of seed.

Always state whether wanted for Beans, Peas or Sweet Peas.

Each 25c.; 3 for 65c. postpaid.

This is a highly concentrated and well balanced fertilizer for pot or house plants, roses, ferns and also for outdoor flowers and shrubs. It increases the foliage and improves the color and size of blossoms. Odorless and harmless. PLANT PEP is sure to bring forth healthy plants and lots of flowers. 2 oz. pkt. makes 5 gal. 15c.; 8 oz. can makes 20 gal. 50c.

Jung's Wholesale Prices on Garden Seeds

As is the custom with most seedsmen we make special prices to market gardeners or those planters requiring seeds in large quantities. These seeds are of the highest quality being either grown by us or growers who have made a specialty of producing high grade pedigreed seeds. Quality considered we believe you will find our prices very reasonable. Remember it costs more to produce good seed but they are also worth more when the resulting crop is taken into consideration. Without good seed the best land and cultivation cannot yield you a profitable crop.

At the prices quoted on this page we do not pay shipping charges, please state on your order whether we should ship by freight or express.

Note--We cannot fill any order at these prices unless it amounts to \$3.00 or more.

NOTE--Half bushels may be ordered at bushel rates, half lbs. at lb. rates.

Mrs. Willis Maxwell, Kellettville, Pa.--Was very much pleased with the Wayhead Tomato; did not get the seed planted early but still had Tomatoes a long time before my neighbors.

D. M. Tierney, Olds, Alta, Canada.--Have great success growing garden from seeds I get from you, everything does fine even tho it is far North. Many praise my garden but I tell them half is due to JUNG'S seeds.

Mrs. E. Whitaker, Ludington, Mich.--In the years of planting your seeds have always found them all you claim them to be.

Mrs. Harry Ludwick, Annville, Pa.--Have been using JUNG'S seeds for 7 years now and want no others as long as I can get yours.

Mrs. John Beall, Silex, Mo.--The garden seed from you last year was most satisfactory, was especially pleased with the Cucumber, Japanese Onions and Jung's Wayhead Tomato.

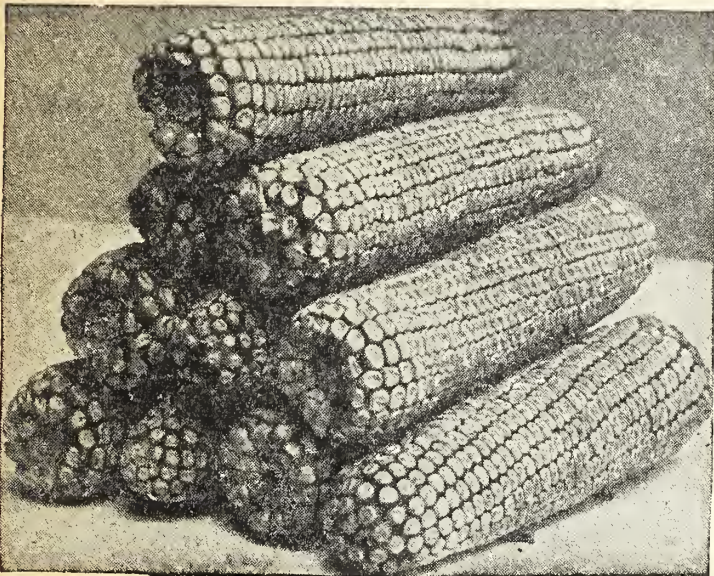

JUNG'S SELECT SEED CORN

As is well known the past fall was one of the worst ever known for the ripening and curing of seed corn and there is no longer any doubt about the fact that seed corn suitable for our Northern States is scarce and that the situation will become acute before planting time. Most of the corn would not cure in the fields and any corn that was not fire-dried before hard frosts is practically worthless for seed purposes. We make a specialty of Wis. Grown Seed Corn but the past year it was impossible to get enough Wis. grown seed and we have, therefore, been obliged to get additional supplies from other sections as near like Wis. as possible. We have some very nice Minn. grown seed corn which for general purposes will do

about as well as Wis. grown seed. in fact if we did not state that it was Minn. grown we doubt if you could tell it as the maturity will be about the same as Wis. We also have some Golden Glow that was grown in Northern Nebr. from Wis. seed, in many sections this is being used year after year and gives good results; it may be a few days longer in ripening but grows a larger stalk.

If you have not already secured your seed corn for your next spring's requirements by all means attend to this matter early as at planting time you may not be able to get seed corn that will grow.

The prices quoted are the prevailing values at the time this catalog goes to press, Jan. 1, 1927 and are subject to change.

GOLDEN GLOW—WIS. NO. 12

Golden Glow-Wis. No. 12

The Most Popular Corn in Wisconsin

A new early yellow dent for Central Wisconsin and similar latitudes. This is the corn many have been looking for. It is a little earlier than Silver King and Clark's Yellow Dent and yet large enough to make it a popular variety for general culture. It matures as far north as Central Wisconsin and yields big crops of large-sized ears. Golden Glow is a pure golden yellow dent corn, most attractive in color and appearance. Ears are fairly large, averaging about eight inches in length, symmetrical in shape, slightly tapering at the outer ends and are very free from a tendency to flintiness; stalks are large and strong with abundant foliage, making it a desirable fodder or silo variety. This is strictly a Wisconsin bred variety and was brought out by Prof. R. A. Moore, his idea being to produce an early variety with large ears and deep kernels and he succeeded well. It is a heavy yielder. Lb. 35c.; 3 lbs. 90c., postpaid. Not prepaid: Wis. Grown—Pk. \$2.00; bu. \$7.25; Minn. Grown—Pk. \$1.60; bu. \$6.25; Western Grown—This is seed taken from Wis. last spring and grown 1 year; many farmers are using it right along and getting good results. Pk. \$1.25; bu. \$4.50.

Silver King-Wis. No. 7

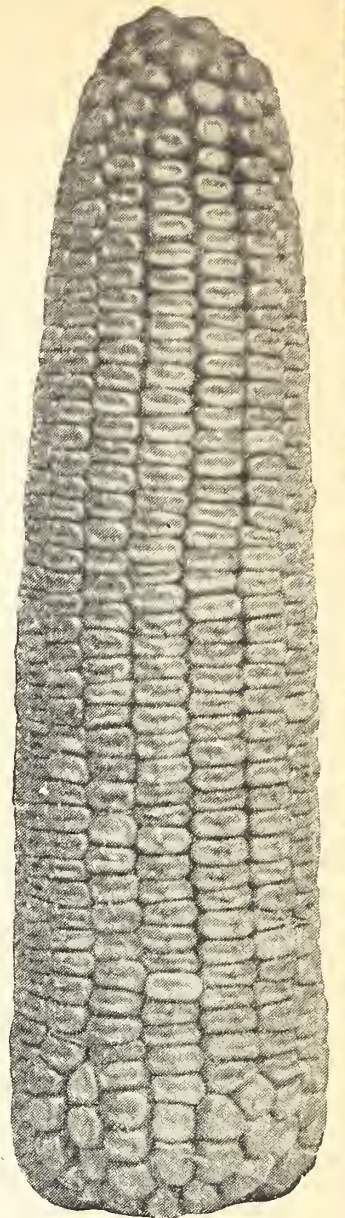

The Leading White Dent Corn in Wisconsin

Silver King leads the list today of all-around good varieties of corn adapted to the latitude of Southern Wisconsin. Equally valuable for Northern Iowa, Southern Minnesota, South Dakota, Northern Illinois, Ohio and Indiana, as well as for Wisconsin. Ears are just the right length, averaging 8 to 10 inches, always filled out clear to the tips, and are very uniform in size and type. The corn is pure snow-white in color, with good long kernels set compactly in straight rows. It is a strong grower, early enough to mature as far north as south-central Wisconsin, and is especially adapted to resist cold weather. The stalks are large and strong with abundant foliage, making it a very desirable silo or fodder variety. It has a decided double ear characteristic, one reason for its large yield records. We have some extra choice Minn. grown seed that will give you practically as good a crop as Wis. seed. Lb. 35c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$1.60; bu. \$6.25.

SEED CORN ON APPROVAL

All of our seed corn is carefully tested for germination before being sent out. Order your seed corn and after it arrives test it in any way you wish within 10 days after you receive it. If it is not satisfactory in every way return it at our expense and your money will be refunded. Could anything be more fair?

**Order Your Seed Corn
EARLY
and Save Disappointment**

WIS. NO. 25

Wis. No. 25 Extra Early Yellow Dent The Earliest Yellow Dent Corn

This variety was developed by the Wis. Agr. Exp. Assn. the idea being to produce a very early maturing corn suitable for the northern counties of Wis., Minn., and Mich. It was bred from a cross of Wis. No. 8 with a very early variety which Prof. Delwiche secured from Northern Mich. That it is a success is well proved by the excellent showing it has already made in the many northern counties of Wis. In appearance it is similar to Wis. No. 8 but matures about one week earlier. On the branch of the Wis. Exp. Station at Spooner, Wis., a remarkable yield of over 80 bu. per acre was made. If you wish a very early ripening corn do not fail to plant Wis. No. 25. Wis. Grown: Lb. 30c.; 3 lb. 80c.; postpaid. Not prepaid: Pk. \$2.10; bu. \$7.50.

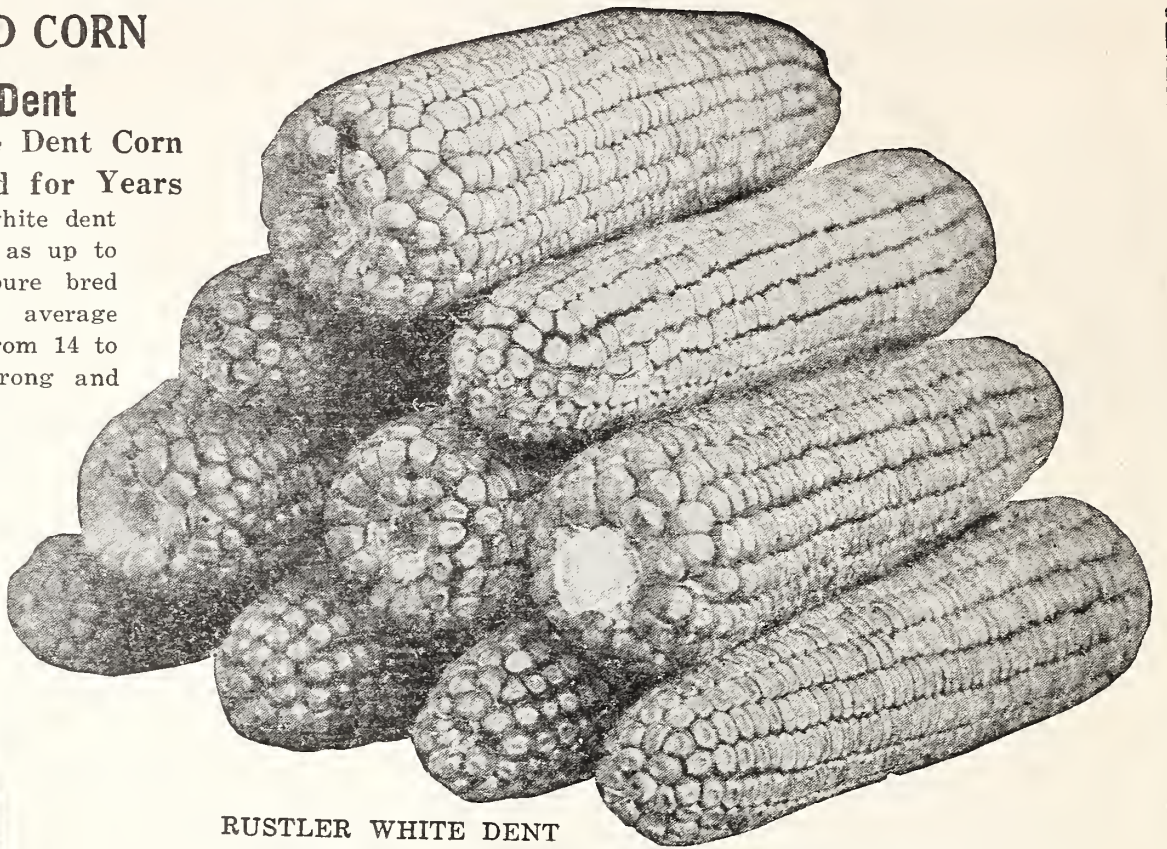

JUNG'S SELECT SEED CORN

Rustler Early White Dent

The Earliest Maturing White Dent Corn
Just What You Have Wanted for Years

This is an ideal early maturing white dent corn and will fill a long felt want as up to now Silver King was the only pure bred white variety we had. The ears average 7 to 9 inches in length and have from 14 to 18 rows of kernels. Stalks are strong and leafy, 7 to 9 ft. tall. If you wish a vigorous growing, heavy yielding early white dent you will make no mistake in planting Rustler White Dent. We have some very nice Minn. grown seed well matured and of strong germination. Lb. 30c; 3 lbs. 80c, postpaid. Not prepaid: Pk. \$1.75; bu. \$6.50.

RUSTLER WHITE DENT

Wis. No. 15-Improved Smut Nose Flint

Ears Often Over 15 Inches Long

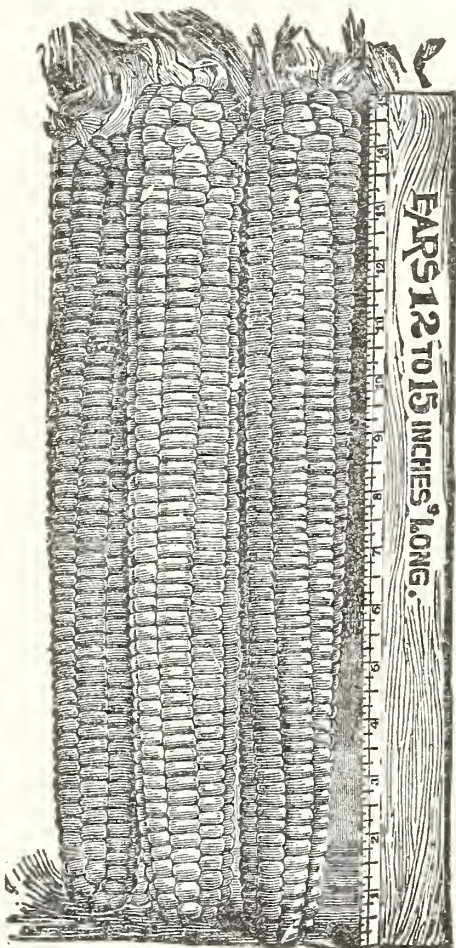

Extra Early. Enormously Productive

This variety was developed, improved and first sent out by the Wisconsin Agricultural Experiment Association. It is more prolific than any other flint corn and also has a stronger stalk, being especially well adapted to Wisconsin conditions. A peculiar characteristic is that instead of each kernel producing one stalk and many short suckers like most flints, this variety often produces 3 and 4 stalks from each kernel, each of which have a well developed ear, no short suckers at all. The ears are long, often 14 inches and have eight rows of large yellow kernels which shade to deep red towards the tip. The stalks grow from 6 to 7 feet tall and make excellent fodder. This also makes an excellent corn to plant for "hogging down" as it matures so early. We have an excellent lot of seed of our own growing which tests 98 per cent germination. Lb. 30c; 3 lbs. 80c, postpaid. Not prepaid: Pk. \$1.75; bu. \$6.00.

Wisconsin Giant Ensilage Corn

Tall Leafy Stalks, Giant Ears

Here is the corn for Wis. silos. Why plant southern ensilage corn that only produces stalks and leaves of little feeding value when you might just as well plant a corn that will give you the above and besides a very large developed ear that will make ensilage having real feeding value. This is a yellow dent corn and grows a very strong leafy stalk, 10 to 12 ft. on good soil, and produces ears larger than any Wis. Pedigree variety, it matures as early as Silver King and never fails to make the finest ensilage as the stalks are very leafy and juicy. It not only is the best ensilage corn for Wis. but is also very good as a general corn crop producing the most bu. per acre; the ears are so large that it does not take many to fill your basket. Order early if you wish to make sure of some of this great corn. Lb. 30c; 3 lbs. 70c, postpaid. Not prepaid: Pk. \$1.25; bu. \$4.50; 2½ bu. \$10.50.

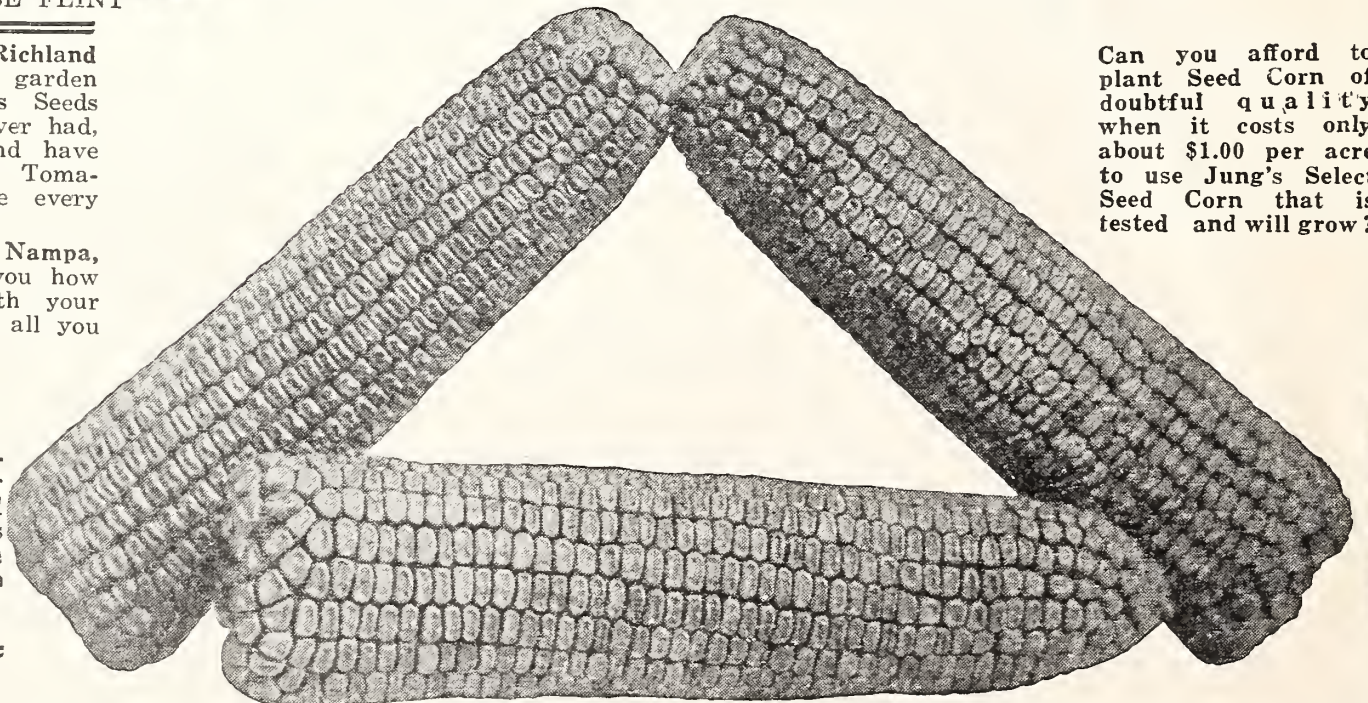

SMUT NOSE FLINT

Nellie G. Jackson, Richland Center, Wis.—My garden planted with Jung's Seeds is the best I have ever had, this is May 8th and have the most wonderful Tomato plants. I believe every seed grew.

Vincent Clayton, Nampa, Ida.—Want to tell you how pleased we are with your seeds; they sure are all you claim for them.

Mrs. Martin J. Farrell, Dalton, Wis.—We have sent to your company for several years for our seeds and have had the best of luck with same.

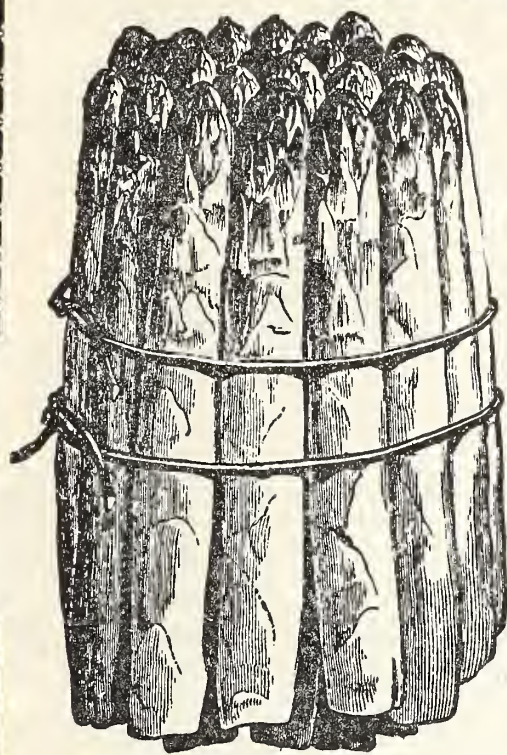

WIS. GIANT ENSILAGE

Can you afford to plant Seed Corn of doubtful quality when it costs only about \$1.00 per acre to use Jung's Select Seed Corn that is tested and will grow?

JUNG'S QUALITY SEEDS

In the following pages you will find a complete but carefully selected list of both new and standard varieties of seeds, varieties which have been carefully tested and which we can fully recommend. All of these seeds are grown from carefully selected stocks and great care has been used to keep them pure; all have been carefully tested for germination. We make quality the first consideration for we know that without good seeds you cannot raise a good crop. Quality considered you will find our prices very reasonable..

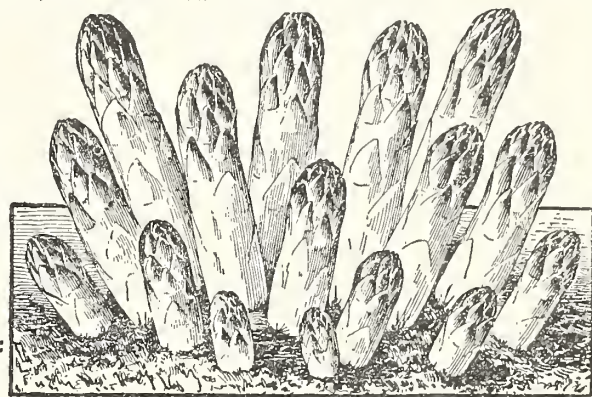

BARR'S MAMMOTH

The Great Washington Asparagus

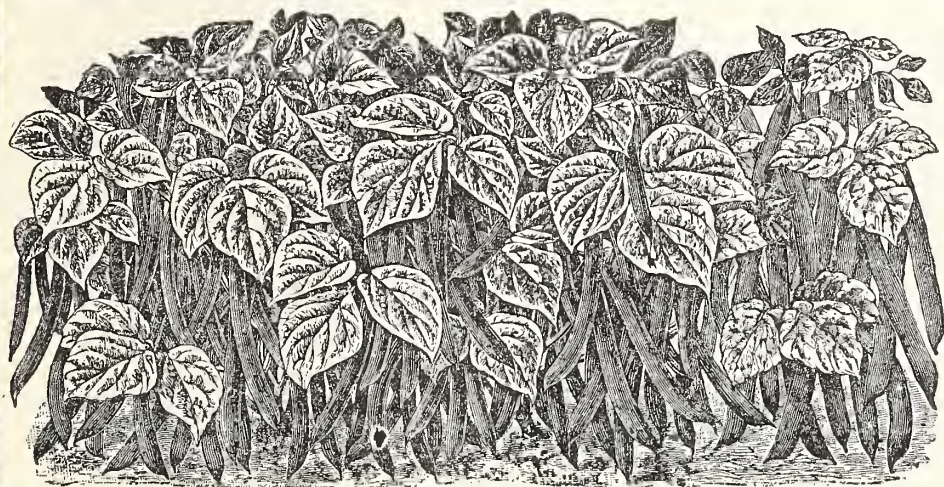

This new Asparagus has taken the country by storm as it is rust-proof and produces bigger stalks and larger crops than any other variety. This variety is the result of many years work by the U. S. Dept. of Agriculture and fortunate indeed is the gardener who will get started with it as it will surely displace all other varieties. The stalks grow to a very large size, yet they remain so crisp and tender that they may be eaten raw. Pkt. 10c.; oz. 25c.; $\frac{1}{4}$ lb. 85c.; lb. \$2.85.

Barr's Mammoth ASPARAGUS

This is an excellent variety. The stalks are of a green color, almost an inch in diameter from the bottom completely to the tip. They are of quick growth and free from woody fibre. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

WASHINGTON ASPARAGUS

GIANT STRINGLESS GREEN POD

TWO SPLENDID GREEN PODDED BUSH BEANS

Giant Stringless Green Pod

Here is an absolutely stringless giant podded bush bean. It combines extreme earliness, unusual hardiness and great productiveness. The handsome pods are 6 to 7 inches long, very brittle and stringless even when fully matured, deep green in color and of the finest quality. One of the best varieties for either market or the home garden. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

Extra Early Red Valentine

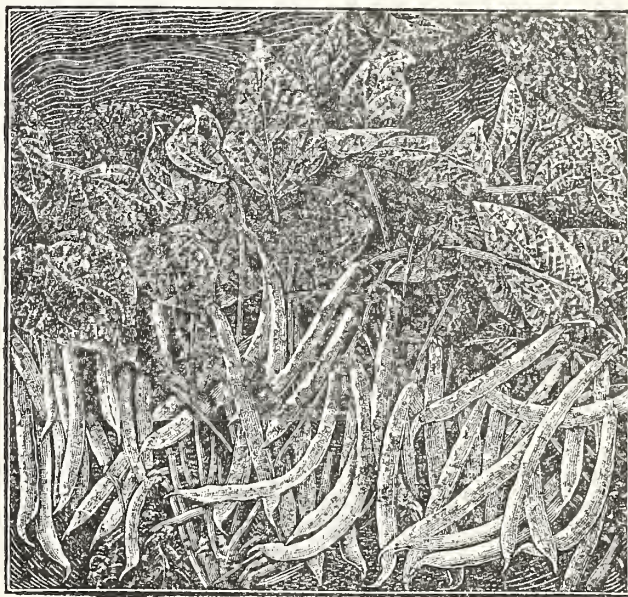

One of the most popular green-podded sorts for either home use or market, many prefer it to the wax or butter beans. Pods are four to five inches long, medium green in color, round and very fleshy, crisp and tender. Under adverse weather conditions we know of no other variety that is more sure to produce a crop. Our strain is extra select and far superior to the stock usually offered. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

EXTRA EARLY RED VALENTINE

BUSH BEANS

The Seed Beans we offer are practically all of our own growing. They were produced from select stock seed, were thoroughly rogued and hand picked. You will find that our Northern Grown heavier crops of pods than the ordinary commercial stocks.

REFUGEE BUTTER WAX

Refugee Butter Wax

One of the heaviest yielding wax Bush Beans, also one of the surest croppers. Many times when all other varieties were a failure, Refugee yielded a heavy crop. It is a very hardy variety, having withstood frosts which seriously checked other varieties. The bushes are literally covered with fine transparent yellow pods which are from 4 to 5 inches long, remarkably tender and brittle and it has no strings whatever. Plant it once and you will want it every year. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

WAX BUSH BEANS—Continued

Jung's Extra Early Wax

A splendid variety which combines extreme earliness, fine quality and hardiness. Bushes grow to good size and will produce a fine crop of pods under conditions that would ruin most other varieties. Pods are flat, 5 to 6 inches long, very fleshy and stringless. You will be delighted with this splendid bean. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

JUNG'S EXTRA EARLY WAX

Brittle Wax

The Earliest of all BUSH BEANS. Of such excellent quality that it might well be termed "best of all." The plants are very hardy and vigorous, of true bush growth, about fifteen inches high and heavily laden with the long, straight round and very solid pods, from five to seven inches long. The pods are of a rich golden color, very tender and entirely free from strings at all stages of its growth. It will stand longer than any other bean without becoming hard. The pods are unexcelled for snapshorts, having white seeds showing only a black dot at the eye. Any pods allowed to ripen will be readily saleable as winter beans. Include this great bean in your order. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

RUST PROOF GOLDEN WAX

JUNG'S FAIRFIELD WONDER WAX

Jung's Fairfield Wonder Wax

Without a doubt the finest Wax or Butter Bean ever introduced. It is with pleasure that we offer our customers this grand new Butter Bean, as we are sure it will please the most critical planters. This variety originated on our Fairfield Farm and is by far the finest wax bush bean we have ever seen. The bushes are unusually vigorous and free from disease. They grow from 15 to 20 inches high, have large foliage and bear an immense load of pods, which are from 6 to 9 inches long, one-half inch broad and have absolutely no strings whatever. The color is a rich lemon yellow. If you want the very best Butter Bean of them all try Jung's Fairfield Wonder Wax. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 40c.; qt. 70c.

Mrs. W. L. Crippen, Mauston, Wis.—Have noted that many write how good John Baer Tomato and All Cream Lettuce are, let them try JUNG'S Fairfield Wonder Wax Bean and they will find it in the same class, also Banana Squash, I have raised them 32 $\frac{1}{2}$ inches long. Six years of perfect satisfaction.

We consider this one of Miss B. Rehberg, Tomah, Wis.—Your seed and gladioli bulbs were the nicest I have ever had.

Elizabeth Wilhide, Westminster, Md.—Used your Dollar collection last year and they were wonderful so am sending again.

Pencil Pod Wax

We consider this one of the best Wax Beans yet introduced. It is very productive and of most excellent flavor. The pods are long, straight and round like a pencil, fleshy and of a bright yellow color; tender, brittle and absolutely stringless. The plants are of true bush growth. 15 inches high with abundant foliage. The magnificent pods are from 5 to 7 inches long. Pkt. 5c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

PENCIL POD WAX

BRITTLE WAX

INOCULATE
THIS SEED WITH
NOD-O-GEN

See Page 1

Rust-Proof Golden Wax

One of the Earliest and Most Prolific Wax Bush Beans. The bushes are strong, vigorous growers and bear an immense load of long, flat meaty pods which are of the most handsome appearance. Not only does this variety possess the merit of being rust-proof but it is also extra early. The pods are exceedingly crisp and tender and of a most delicious flavor. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

UNRIVALED BUTTER WAX

Unrivalled Wax Butter Bush Bean

The earliest of all Wax or Butter Beans. Creamy golden Pods, free from Rust. Handsome Appearance. Enormous Yields.

In our opinion this should be placed at the head of the list, we consider it to be unexcelled for earliness, quality and yield. The plant is a strong grower and well supplied with large, almost smooth lustrous green leaves. They bear enormous crops of beautiful transparent pale yellow pods; this color is maintained clear to the tips with no sign of green. Pod, are 6 to 8 in. long, very tender and entirely stringless. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

POLE BEANS

Improved Kentucky Wonder

Its wide popularity is well deserved as it is enormously productive. pods hanging in great clusters from top to bottom of poles. Pods are 9 to 10 inches long, entirely stringless and cook up rich and buttery. May be planted with corn. Pkt. 8c.; ½ pt. 20c.; pt. 35c.; qt. 60c.

Kentucky Wonder Wax

The merits of the old Kentucky Wonder Pole Bean are well known. This variety has all its superb qualities with the addition of a beautiful transparent yellow pod. It is a rampant grower, one plant filling a pole with vines densely loaded with a solid mass of pods, being from 6 to 8 inches in length, exceedingly tender and very fleshy. The pods are so plump and fleshy that frequently they are of greater thickness than width. Deliciously rich and buttery when cooked. Pkt. 8c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

Prolific Green Podded

The best green podded Pole Bean in cultivation. It is earlier than most varieties and covers a longer season of productiveness. The vines are vigorous growers, being loaded from Summer until frost. It is a very sure cropper even in unfavorable seasons producing large crops. The pods, borne in clusters averaging six to eight inches in length are uniformly straight, of a dark, rich green color and so meaty as to be nearly saddle-backed. The pods are entirely stringless, very tender and sweet and of a mild flavor. The dry beans are of a pearly whiteness. Pkt. 7c.; ½ pt. 20c.; pt. 35c.; qt. 65c.

Henderson's Early Leviathan Pole Lima

This is the very earliest. It will not only give pods earlier than any other strain but is also much more productive, both early and throughout the season. It is a strong grower, clinging well to the poles and is a sure cropper. The pods hang out from the foliage in large clusters and contain 3 to 5 large beans to a pod. It bears until frost. Pkt. 5c.; ½ pt. 20c.; pt. 30c.; qt. 60c.

Special Offer No. 1

You can assure yourself a continuous supply of crisp and tender beans by planting the following:

Fairfield Wonder Wax
Unrivalled Butter Wax
1 Pkt. of each for 25c.
½ Pt. of each for 85c.

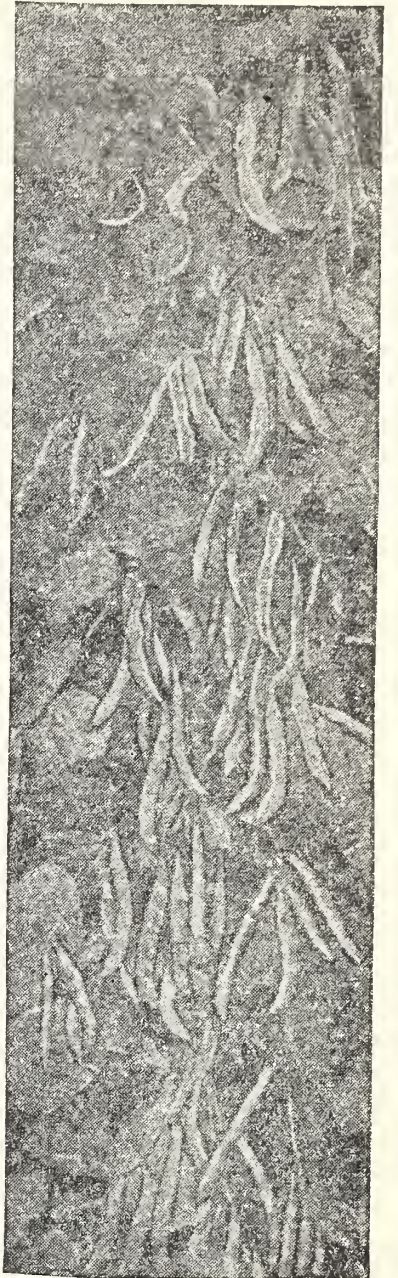

Extra Early Valentine
Imp. Kentucky Wonder
1 Pint of each for \$1.40
1 Qt. of each for \$2.50

FIELD BEANS

Snowflake or 1200 to 1

Ripens Early. Immense Yields. Handsome Appearance. Unequalled for Soups or Baking. We again sent out many hundred packets of this wonderful bean the past season and are delighted to hear of the excellent results our customers are having with it. This is decidedly one of the best Pea Beans to grow for either market or home use both on account of its great yield and handsome appearance. Its cooking and baking qualities are unsurpassed. Vines are very healthy, dwarf or bushy in growth and bear an immense number of pods which are well filled with the pearly white beans. Get at least a pint of these wonderful beans and grow enough for your winter use. Pkt. 7c.; ½ pt. 20c.; pt. 30c.; qt. 55c.

Mrs. Alfred Longtin, Tripoli, Wis.—We won prizes on Beans and Peas at our County Fair here, also on Cauliflower, Parsnips and Beets, so we boost Jung's seeds all we can in every way.

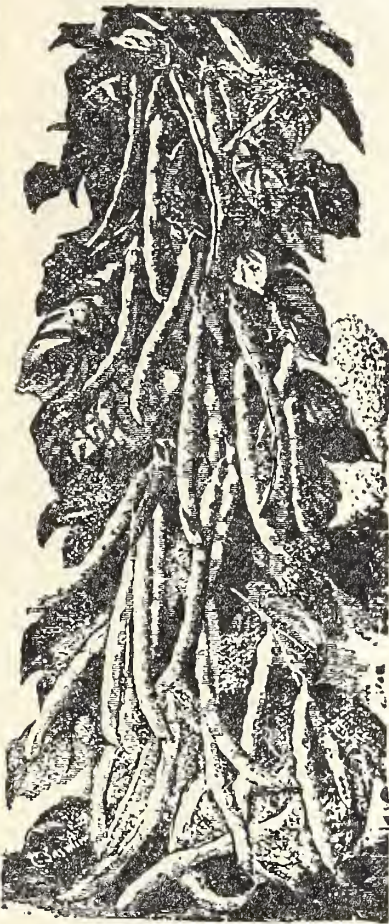

HENDERSON'S LEVIATHAN

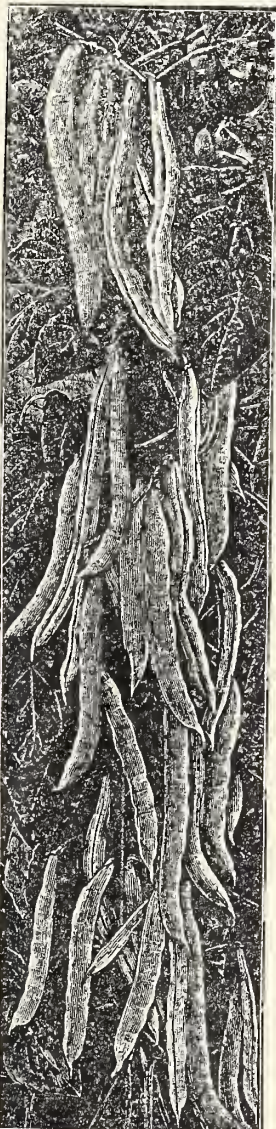

Jacob Bong, Waunakee, Wis.—Your seeds were the best we ever had, had good luck with all of them.

SNOWFLAKE OR 1200 TO 1

IMP. KEN. WONDER

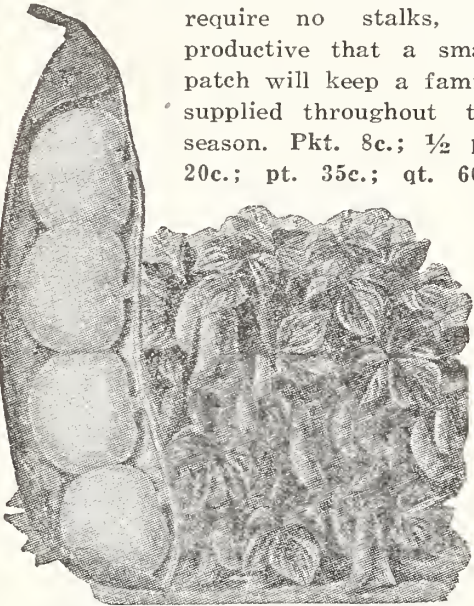

KY. WONDER WAX

Henderson's or "Baby" BUSH LIMA BEAN

The earliest of all Lima Beans, by planting this variety gardeners in the northern States can enjoy Limas from their own gardens. It is at least two weeks earlier than any of the climbing Limas and can be had ready for use by July 20, from then until frost; they will yield enormous crops of pods. Bushes grow about 18 inches high and

require no stalks, so productive that a small patch will keep a family supplied throughout the season. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

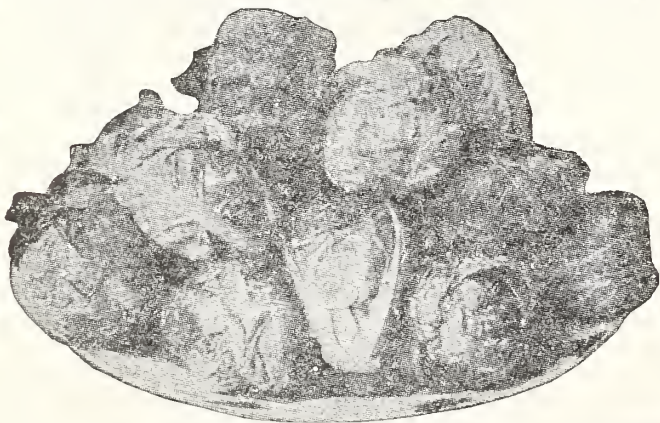

HENDERSON'S BUSH LIMA

CRESS Fine Curled

An annual, making a good salad. Leaves are finely cut and feathery like a good parsley. It is dwarf and compact in growth. Very ornamental, of quick growth, crisp and refreshing. Pkt. 5c.; oz. 10c.

COLLARDS-True Georgia

A tall loose form of Cabbage grown in the South as a substitute for cabbage and extensively used here for stock feeding. It continues in growth and is usable all winter. Hardier, easier to grow and can be grown in poorer soil than cabbage. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

BRUSSELS SPROUTS

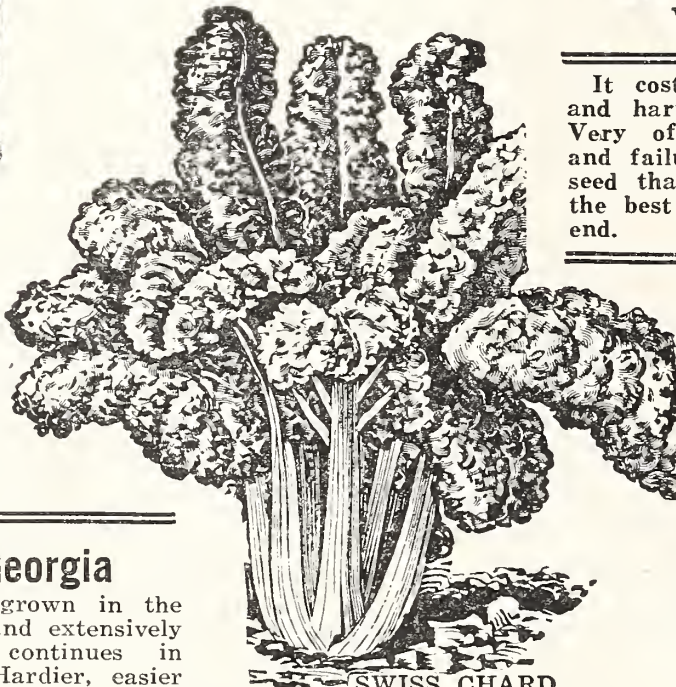

BRUSSELS SPROUTS Long Island Improved

The Sprouts resemble miniature cabbages growing closely on the stalk of the plant. They are more tender and delicious than any cabbage. Hard frosts do not injure sprouts but improve them and they are left in the garden until desired for cooking. Strip off the outer covering of the Sprouts and cook them whole. They are a delicacy not surpassed by the finest cauliflower. Pkt. 5c.; oz. 15c.

Wonder Bush Lima BEANS

A great improvement on Burpee's Bush Lima as it is earlier and more productive, the pods are borne more to the center of the plant. This is a great advantage as the pods are held up from the ground. The bushes grow 18 to 24 inches tall and require no stakes or poles. Pods are truly mammoth in size and borne in clusters of from 5 to 8 pods and contain from 4 to 6 of the large luscious beans. There is nothing quite so delicious in the vegetable line as nice fresh Lima Beans. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

D. E. Keller, Florence, Mo.—We have good luck with all your seed, this is the third year we order and wish you success.

SWISS CHARD

BORECOLE or KALE Dwarf Curled

Useful for furnishing greens or boiling, during the early fall, winter and spring months. The leaves are very curly, bright green, tender and delicate in flavor. The plants are hardy and the quality is improved by freezing. Pkt. 5c.; oz. 10c.

ENDIVE

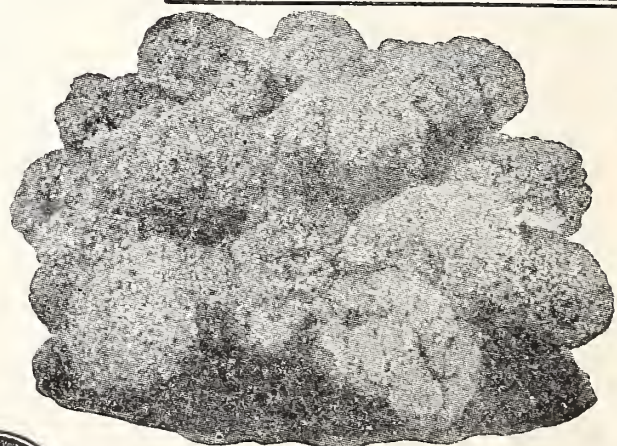

WONDER BUSH LIMA

It costs just as much to plant, cultivate and harvest a poor crop as a good one. Very often the difference between success and failure of a crop is entirely due to the seed that is planted. It always pays to use the best seeds, they are the cheapest in the end.

SWISS CHARD Lucullus

Plants grow two feet high and consist when fully developed of about a dozen, creamy white, attractive curled leaves. The leaves are carried on broad thick stalks about 12 inches long. The leaves may be cooked in the same manner as Spinach. Pkt. 5c.; oz. 10c.

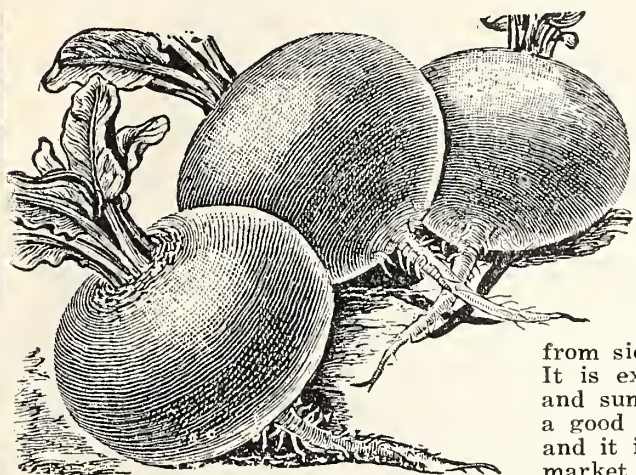

Mrs. Charles Wolford, Richmond, Ind.—Must say your seeds are the best and far ahead of seeds from other places; your Northern Grown seed is far earlier than others. Shrubbery and seeds all grew and the Peas are the largest we ever raised.

BORECOLE OR KALE

ENDIVE Green Curled

Mostly sown in June or July for fall use; plant in rows about one foot apart, thin out to 8 inches apart and when well along blanch by tying the tops together. Green Curled is a hardy variety, the most desirable for home use or market garden. Deep green leaves beautifully cut and curled; easily blanched and becomes crisp, tender and very fine flavored. Pkt. 5c.; oz. 15c.; 2 oz. 25c.

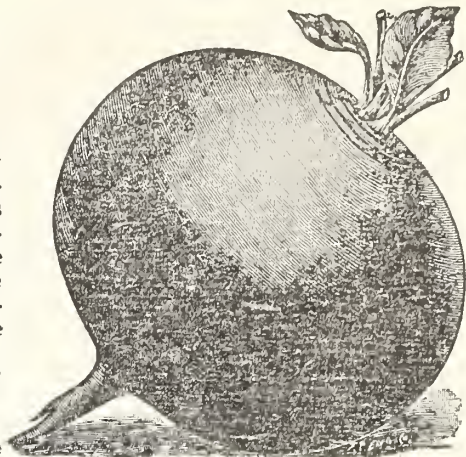

DETROIT DARK RED

BEETS

Select Detroit Dark Red

Detroit Dark Red beet has long been regarded as the standard of excellence. It is very, early, nearly as early as Egyptian and greatly surpasses that variety in flavor. The color is rich, dark red and the shape is globular. It is fine-grained in texture and has a small top. It is free from side or fibrous roots, being always smooth. It is excellent for forcing; for a main spring and summer crop or for use in winter as it is a good keeper. It cooks sweet, tender and crisp and it is in every way a standard sort for the market or home gardener. Has made a good crop in seven weeks from sowing. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

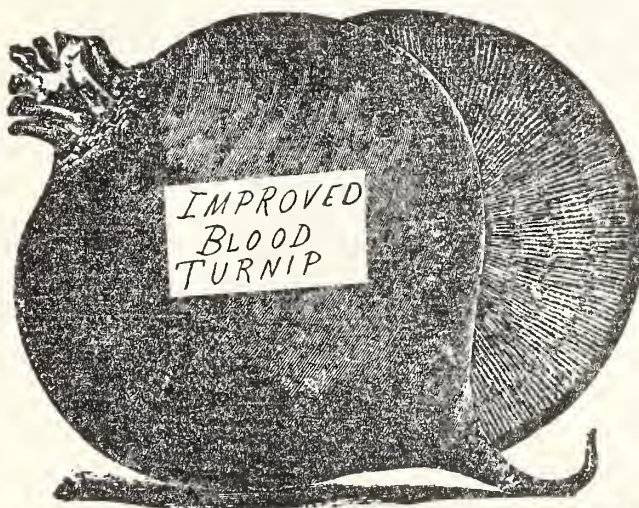

FIREBALL

Fireball

Excellent for the Home Garden or Canning. This early globe-shaped beet of excellent quality is especially esteemed on account of its dark red color, which extends entirely through the beet and without the light colored ring seen in some varieties. The medium sized beets are smooth and handsome and are now being largely used for canning as well as for the home garden or market. It retains its good quality even after it gets large, and is an excellent variety on this account for fall use as well as for spring. Maturing in about 50 days. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

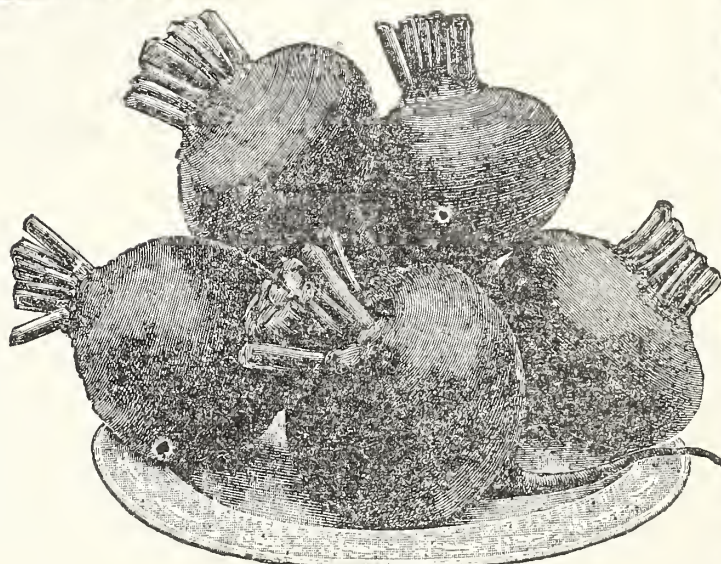

Improved Blood Turnip

Extremely Early, Deep Red, Tender and Sweet. This wonderful early beet is the result of reselecting and improving and is now so perfected that we believe it is one of the earliest and best turnip shaped beets grown. It is much earlier than Crosby's Egyptian, maturing in about 40 days, of perfect shape and beautiful, deep red color. The tops are not quite as large as Crosby's Egyptian, which permits close planting and is excellent for bunching; a desirable early sort for the home garden as well as for market. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 35c.

Early Model

This splendid variety has attained perfection for table use. It is extremely early, of perfect globe shape and of finest quality. It is a fine selection of blood red beet, extremely smooth and of symmetrical growth, fine rich color and desirable shape. The roots of Early Model are of good size and run uniformly perfect; almost round, with small, dark crimson-colored leaves and a slim tap-root. It makes a rapid growth and matures very early. In quality and color it is peerless; very fine grained, tender and sweet, never woody or stringy. The tops are small, making it a good forcing variety. It retains its choice quality and freedom from woodiness until the Beets have reached their full size. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

EARLY MODEL

Clyde Platz, Bremen, Ind.—Used your garden and flower seed last year and wish to say there is none better at any price; everything grew to such large size. Everlasting flower grew 4 feet high with scores of blossoms some two inches in diameter, also grew Giant Zinnias 8 $\frac{1}{2}$ inches across, everyone admired our garden from your seeds.

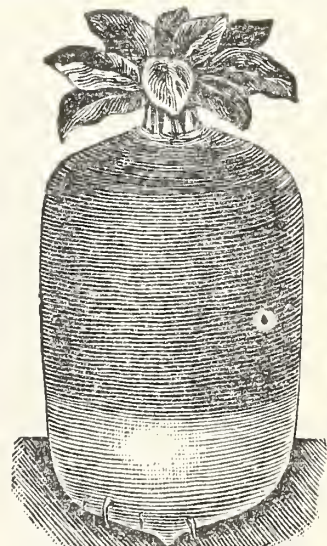

MANGELS

Mammoth Long Red

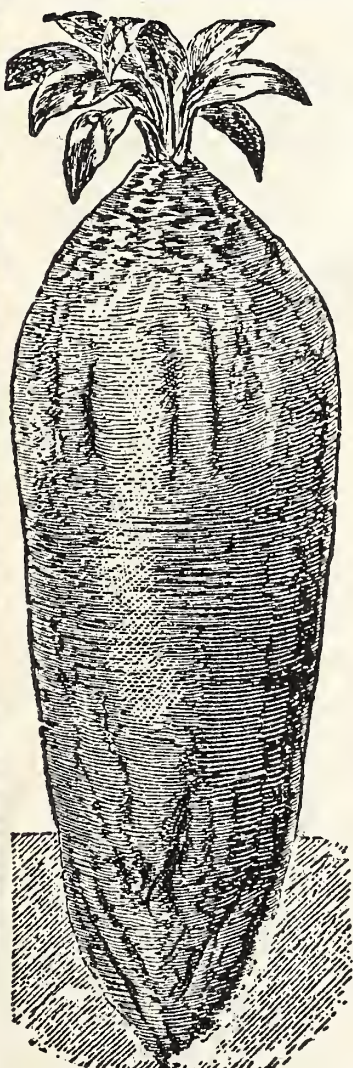

The heaviest cropper. This mangel is enormously, wonderfully productive. The flesh is red, of very fine texture and quality containing less water and more sugar than any other Mangel, except it be the Half Long Sugar making it the most nutritious and milk producing. Sheep and other stock thrive better when fed on it, picking out pieces of it in preference to others. Oz. 8c.; 2 oz. 15c.; $\frac{1}{4}$ lb. 20c.; $\frac{1}{2}$ lb. 35c.; lb. 65c.

Golden Tankard

A smooth, yellow-fleshed Mangel; roots are of large diameter, tapering quickly to the bottom which is quite broad with only a small taproot. It grows largely above the soil and is easily harvested. It yields an enormous crop on good soil and can be closely grown in rows. No root crop is a better paying investment for farmers to grow than Mangels. Oz. 8c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

GOLDEN TANKARD

MAMMOTH LONG RED

SUGAR BEET-Klein Wanzleben

This Beet is the result of years of methodical and persevering selection. It gives better results than any other variety. It is extremely rich in sugar, thousands of analysis showing that the average percentage of sugar obtained from this variety is about eighteen and its average yield may be stated as from 15 to 16 tons per acre but crops of 25 to 40 tons per acre have been obtained off it. Flesh finely grained and very sweet. Pkt. 5c.; oz. 8c.; $\frac{1}{4}$ lb. 25c.

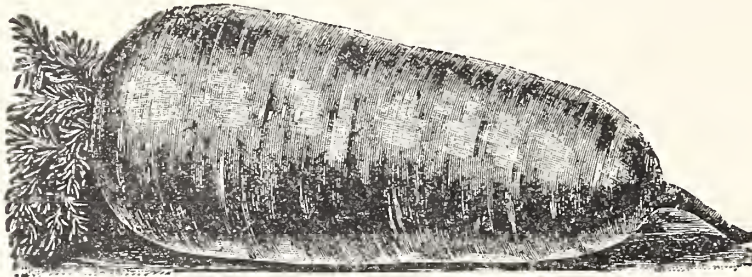

**KLEIN
WANZLEBEN
SUGAR BEET**

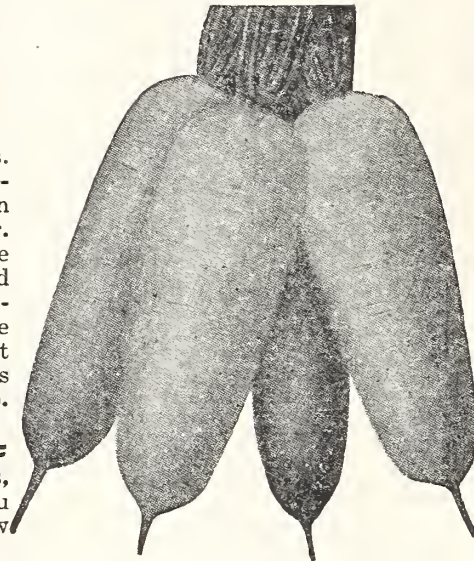

Chantenay

This variety is desirable in all respects. It is stump-rooted and therefore very easily dug. Roots are very smooth, fine in texture and of a beautiful orange color. For table use it is considered to be the best of all, both on account of shape and quality. It is a heavy cropper and undoubtedly one of the best for both the market and private garden while its great productiveness makes it very desirable as a field sort. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.35.

Mrs. Anton O. Olson, Black River Falls, Wis.—Your seeds are always what you claim them to be, have grown them now 11 years.
Mrs. W. F. Davenport, Fallon, Nevada.—The carrots from your seed last year were the finest we ever raised.

CARROTS

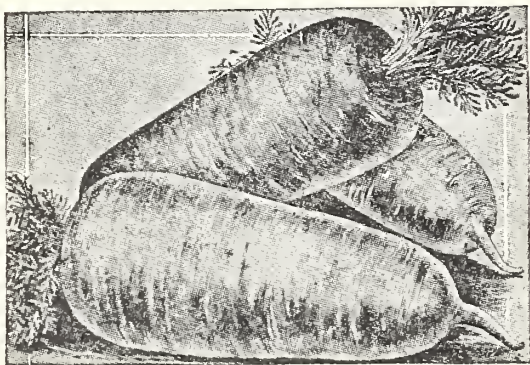

CHANTENAY

JUNG'S EARLY MARKET

Danvers Half Long

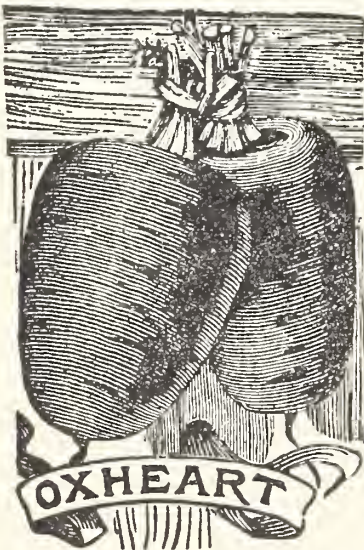

A magnificent carrot for general culture; indeed by many considered the best of all. It is very thick through, about 5 inches long, stump rooted, often attaining a weight of 5 pounds. Flesh is a rich orange in color, very tender and sweet. We recommend this variety for both home and market gardens; especially for hard or stiff soils where longer varieties will not thrive. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.35.

DANVERS HALF LONG

Oxheart

A handsome half-long cylindrical, stump-rooted carrot of good size and of a rich orange color. It grows to a large size, is smooth and the flesh very close in texture with little core and a small taproot. It is a good carrot for all soils and under good cultivation it has yielded 20 to 25 tons per acre. It is very easily harvested. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.25.

OXHEART

STOCK or FIELD CARROT-Large White Belgian

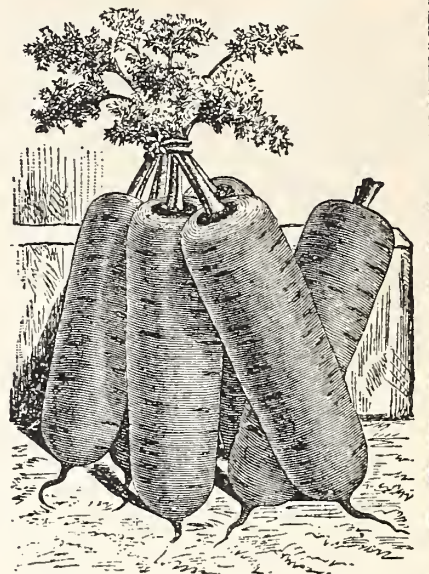

This is the largest yielding stock carrot grown. Nearly half its length grows above the ground making them very easy to harvest. Carrots are often 18 inches long and 4 to 5 inches in diameter. Yields of 15 tons per acre are nothing unusual. Excellent for either cows or horses. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 70c.

A Well Kept Garden Pays Big Dividends

Few things will pay greater returns on time and money invested than a well kept garden. The cost of the seeds is not great compared and there is no comparison between vegetables fresh from your own garden and those bought on the market. Some flowers among your vegetables will add cheer to your garden and give you flowers for your table from summer until hard frosts.

Paul A. Sieg, Wallingford, Conn.—Your Oxheart and Danvers Half Long Carrot seed was the best we ever used. Last year we made 100 Dollars on 50c worth of seed.

SEEDS FREE!
SEE INSIDE FRONT COVER

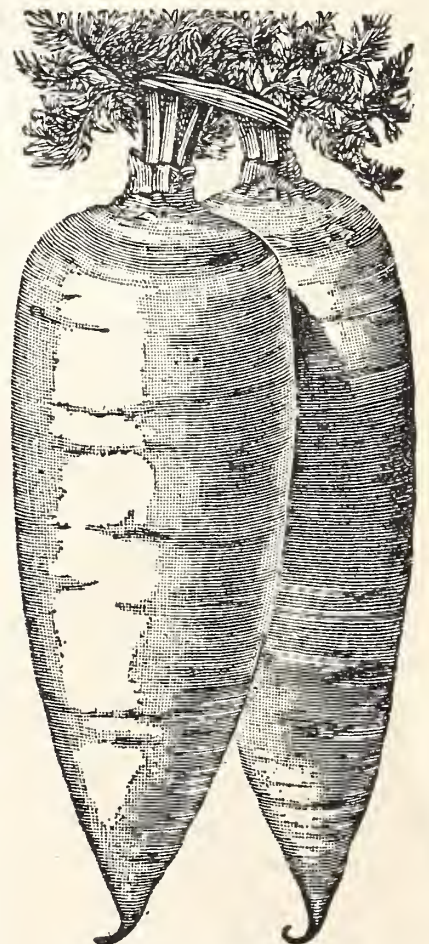

JUNG'S FIRST OF ALL

Jung's First of All

A remarkably handsome Carrot that is ready for use before any other variety. Roots grow 3 to 4 inches long and present a fine appearance when bunched for market. Flesh is deep orange colored, tender and sweet, fine grained and never coarse or woody. Does well in almost any kind of soil. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

Jung' Early Market

A handsome half-long variety the shape of which is well shown in the illustration. They average 6 inches in length by $1\frac{1}{2}$ inches in diameter and are ready for use quite early. The skin is very smooth and clean and of rich orange color. The flesh is of fine texture, free from all stringiness while the core is very small, having no pithy or woody fibre. Our sales of this grand Carrot are increasing every year. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.40.

LARGE WHITE BELGIAN

Edith Casbone, Milford, Mass.—Have used your seed for past 2 years and have had real success with all of them; was so pleased with your Carrots.

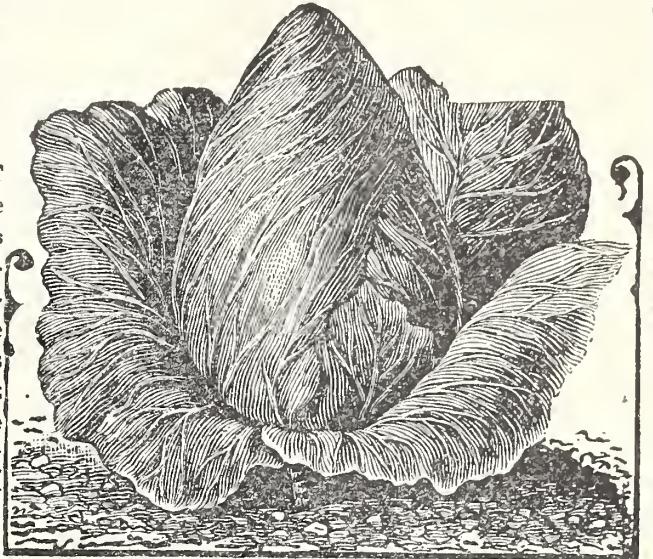

EXTRA EARLY EXPRESS

CABBAGE

Extra Early Express

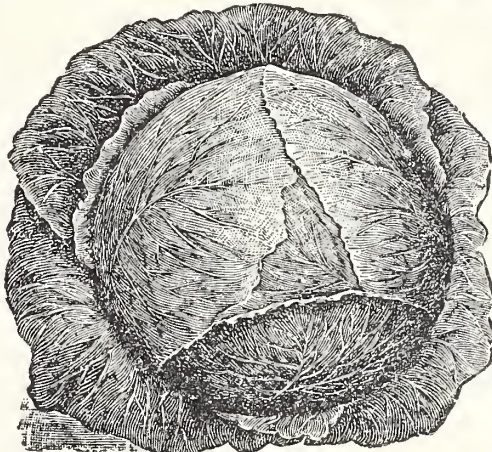

POSITIVELY THE EARLIEST CABBAGE ON EARTH. There are few loose leaves and it forms a head of good size and fine quality. It can be planted close, always yields a large crop. A fine variety for shipping, as the heads remain solid for a long time. It is a beautiful appearing cabbage being of fine color and general uniformity. Also called "Lightning" and other fancy names by some seedmen. Pkt. 8c.; $\frac{1}{2}$ oz. 20c.; oz. 30c.; $\frac{1}{4}$ lb. 90c.

EARLY JERSEY WAKEFIELD

Allhead Early

This variety has proved itself to be adaptable to a wide range of both soil and climate and is well worthy of recognition as a standard American sort. It is the earliest of all large cabbage and considerably larger than any other early summer cabbage. The deep flat heads are remarkably solid and the most uniform in color, shape and size of any variety. Good quality and tenderness are marked features. It is suitable for growth in spring and early summer or for use as a winter sort. The heads grow so compact that fully one thousand more heads than is usual with large cabbage can be grown to the acre. Seeds sown in July and plants set in August will produce good heads for wintering. It is a money maker for gardeners. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 65c.

ALLHEAD EARLY

Select Early Jersey Wakefield

The standard pointed-headed Cabbage throughout the United States. The heads are uniformly hard and solid and are pyramidal in form, generally pointed at the end with but few outside leaves. The outside leaves are usually thick and heavy and it is thereby enabled to withstand more cold weather without injury when carried through the winter. Having but few outside leaves it may be planted close so that more heads can be grown to the acre than with other sorts. It is exceedingly tender, fine grained and as a cropper no early cabbage can approach it. Size is ideal for marketing. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 65c.

Mrs. J. H. Smith, South English, Iowa.—We like your seed fine, had cabbage long before any of my neighbors last year and the Copenhagen Market is hard to beat.

Mrs. John Fahje, Chokio Minn.—Was very well pleased with your seeds, we had cabbage in spite of the dry summer where nobody else had many.

Special Offer No. 2

For a good supply of fine cabbage plant the following varieties:

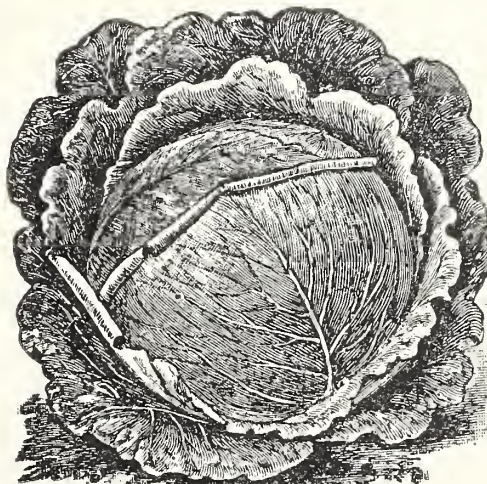

Early Jersey Wakefield
Allhead Early
Surehead
Danish Ballhead

1 Pkt. of each for 25c.
 $\frac{1}{2}$ oz. of each for 60c.

The cabbage seed we are offering was grown with exceptional care. The plants were grown from selected stock and the heads were all carefully inspected before being set out. Our packets of Cabbage each contain enough seed to produce 500 plants.

Surehead

Sureness in heading and regularity in growth have placed this at the top of the list, and we have no fear in using words of praise too high for its merits. It forms large, hard, solid, flattened heads, uniform in shape and color and of handsome appearance. It has a very short stem and is a compact grower. It is as natural for this cabbage to form a head as to form leaves and reports of 99 marketable heads from 100 plants are of frequent occurrence. Nobody will be disappointed in our strain. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

DANISH BALLHEAD

Danish Ballhead

A Grand Hard Headed Cabbage

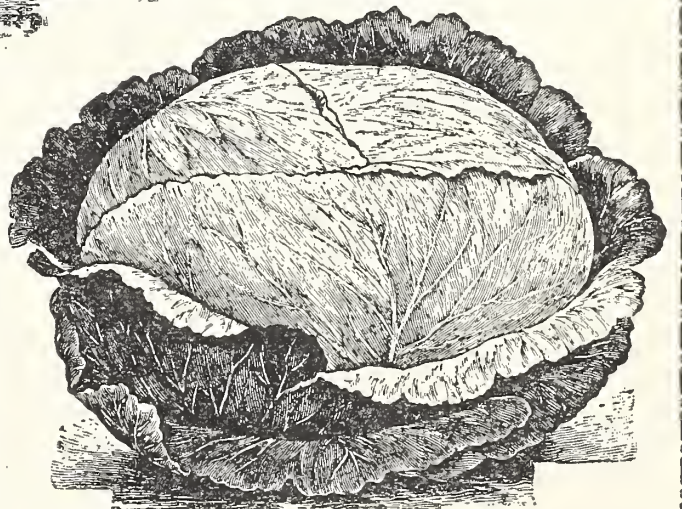

This type of winter cabbage has become very popular of late years on account of its **UNEQUALED KEEPING QUALITIES** as well as for the great **SOLIDITY** and **WEIGHT** of the heads. It is strong and vigorous in growth and produces large, round, compact heads, exceedingly hard and solid weighing when trimmed fully one-fourth more than any other cabbage of equal size. For boiling, slaw, sauerkraut, etc., it is unequalled being crisp, tender and sweet. It seems to grow well in all soils and under most conditions, withstanding hot, dry weather and does not rot from the effects of wet seasons, neither do the heads burst. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 75c.

SUREHEAD

Select Flat Dutch

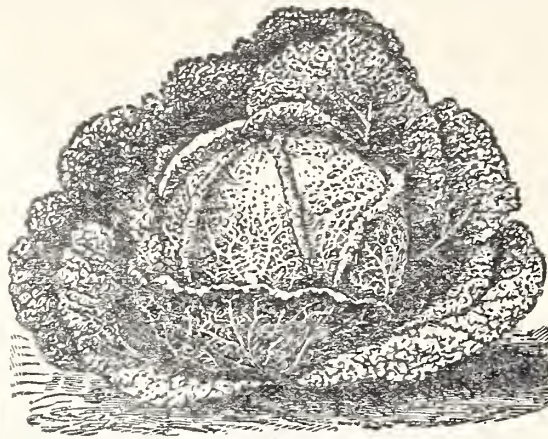

It makes a large, round, firm head, uniform in shape and color which seldom bursts or rots. Sureness in heading and regularity in growth has made this one of the most popular standard sort for winter keeping. The quality, either for slicing, for kraut or for general table use is superb. It is a very fine strain of late cabbage and can be profitably grown anywhere in this country; it is a splendid sort for general use giving unbounded satisfaction. Pkt. 5c.; $\frac{1}{2}$ oz. 12c.; oz. 20c.; $\frac{1}{4}$ lb. 65c.

SELECT FLAT DUTCH

How to Grow the Finest Vegetables and Flowers

is the title of a booklet containing complete and simple instructions on growing all the different vegetables and flowers. These instructions were written by J. W. Jung from experience gained by actually growing vegetables and flowers. You will get much valuable information therein. A copy will be sent free, if requested with every order of 25c or more.

PERFECTION SAVOY

CABBAGE—Continued

Red Drumhead

This is the well known Standard Cabbage. Heads are of large size, slightly rounded and from seven to eight inches in diameter. A valuable variety for pickling; very sweet, tender and of excellent quality. Pkt. 5c.; oz. 20c.; $\frac{1}{4}$ lb. 70c.

Perfection Savoy

This is the hardest heading and best all-round SAVOY. Plants are of strong growth, having only a moderate amount of outer foliage growing closely around the solid heads. It is very sweet and crisp and always tender. The heads are beautifully blanchd and of the finest flavor. Pkt. 5c.; oz. 30c.; $\frac{1}{4}$ lb. 60c.

Frost Proof Cabbage Plants

These hardy Cabbage plants are grown in the South from select seed and can be shipped anytime from Feb. 15th to May 30th. By using these plants you can have cabbage ready for market 2 to 3 weeks sooner than by using home grown plants. These plants are very hardy and will withstand severe frosts, they can be set out as early in the spring as the soil can be worked. The plants may look somewhat wilted when they reach you but regardless of appearance they will produce the earliest crops. We can supply the following: Early Jersey Wakefield, Succession and Early Flat Dutch. Price postage paid, 60c per 100; 500 for \$1.75; \$3.25 per 1000. We cannot fill orders for less than 100 plants of a variety.

FROST PROOF CABBAGE PLANTS

CAULIFLOWER

Jung's Pedigree Early Snowball See Color Pages

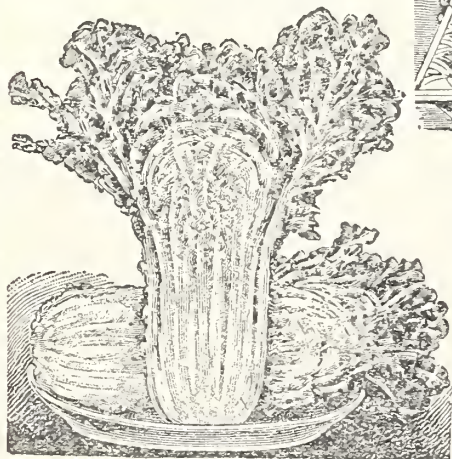

For earliness and reliability to produce a head of good size and rich, white curly appearance it is unexcelled. It forms snow white heads, six to ten inches in diameter, of good quality. The heads are so solid, compact and deep, they will outweigh those of any other strain. There is a great difference in the strain of this variety offered but our stock is the very best. Pkt. 15c.; $\frac{1}{4}$ oz. 75c.; $\frac{1}{2}$ oz. \$1.40; oz. \$2.25.

Dry Weather or Danish Giant

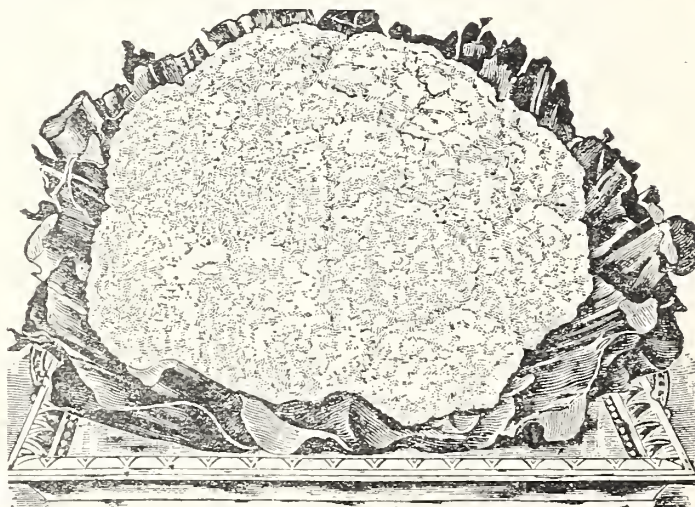

Especially adapted to resist drought. Reaches perfection when ordinary sorts fail. Preeminently the best early variety for market gardeners in sections which are not especially adapted for cauliflower. Plants are of vigorous growth, producing heads of snowy whiteness and fine quality. It has heavy foliage and is not liable to rot in hot weather. It is in all respects a first class cauliflower but is particularly adapted to dry situations and to resisting the effect of drought. It also does well in wet or moist situations, producing heads equal to the best. Pkt. 12c.; $\frac{1}{4}$ oz. 75c.; $\frac{1}{2}$ oz. \$1.25; oz. \$2.00.

Autumn Giant

This is a large variety with fine well proportioned heads. The heads are so well protected by foliage as to remain fit for use a long time. Suitable for late planting. Quality excellent. Pkt. 10c.; $\frac{1}{2}$ oz. 40c.; oz. 75c.

CELERY CABBAGE

AUTUMN GIANT

CHINESE or CELERY CABBAGE

Until recently this new vegetable was unknown but as its good quality become known it is rapidly gaining popular favor. For best results the seed should be sown the latter part of July in rows 2 feet apart and thinned to stand 15 inches apart in the rows, then a most excellent vegetable can be grown. Develops quickly and as the weather gets colder it heads up nicely producing crisp, celery-like stalks, beautifully blanchd. It can be eaten raw, made into salads or cooked as cabbage or greens. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.

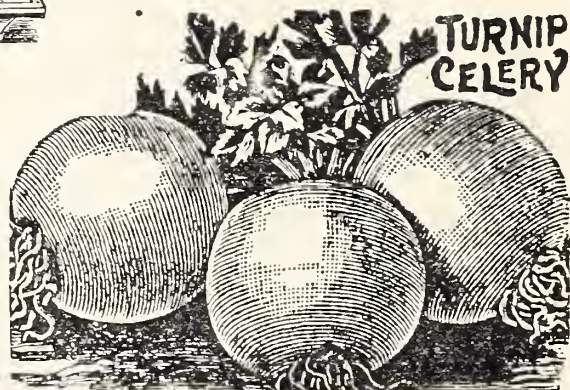

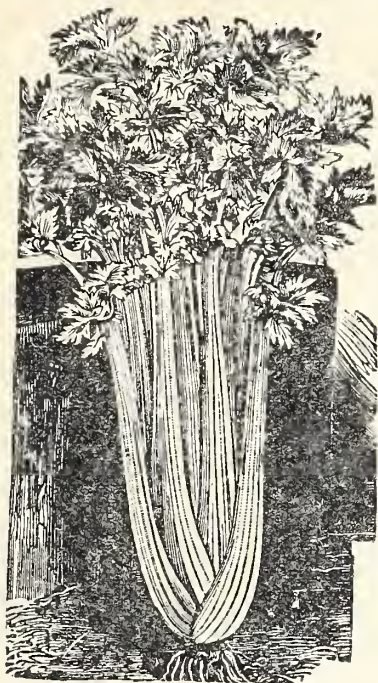

DRY WEATHER

Mrs. Wm. Jeffries, Clarksville, Ohio—This is the third year we are using JUNG'S seeds and have found them the best.

TURNIP CELERY

This is an excellent vegetable. It produces large turnip-shaped roots which keep well for winter use. It is highly esteemed either cooked in the same manner as other vegetables, for flavoring soups, or sliced and used as a salad. Pkt. 5c.; $\frac{1}{2}$ oz. 15c.; oz. 20c.

EMPEROR

New Celery "Emperor"

An excellent celery for fall and winter use, of true dwarf growth, having a very large heart, solid and of finest nut flavor. Being of dwarf growth, 15 to 18 inches tall, it is much easier to blanch than the taller varieties. The stalks are smooth, very thick, round and crisp, blanching to a light golden color. An especially good keeper. Pkt. 10c.; ½ oz. 25c.; oz. 45c.; ¼ lb. \$1.50.

EASY BLANCHING

Mrs. Wm. Pond, Kinsman, Ohio—All your seeds are good, the best I ever had, and the vine peach were very nice.

CELERY

Golden Self Blanching

The best of all self-blanching varieties. It is without doubt the most popular celery grown. The ribs are perfectly solid, crisp, brittle and of a delicious flavor which is not surpassed by any other variety while it has the decided merit of being self-blanching to a remarkable degree. It is extensively grown for market and private use, not only on account of its easy culture but for its superior quality. The hearts are large and hard and blanching to a beautiful golden yellow. When grown in moist soil the stalks are numerous and large in size. Pkt. 8c.; ½ oz. 25c.; oz. 45c.

WHITE PLUME

White Plume

This is the earliest and most easily blanched celery. The plants grow rapidly and blanch easily during the summer months. Later in the fall the central stalks and leaves are of pure snowy whiteness even without earthing up; but stalks should be gathered together and earthed up as in the other varieties so as to produce close attractive bunches. As for succulence, crispness and quality the White Plume is unequalled. Pkt. 5c.; ½ oz. 15c.; oz. 25c.

Easy Blanching

A new celery of special merit Strong and stocky in growth with light green foliage, showing a yellowish hue. The stalks are large and heavy, solid, crisp, tender and of a most delicious nut-like flavor. The creamy-yellow hearts are exceptionally large and firm and of handsome appearance. It is easily and quickly blanched. Due to the solidity of the stalks it is an excellent keeper and may therefore be grown for fall and winter use. Pkt. 10c.; ½ oz. 25c.; oz. 40c.

GOLDEN SELF BLANCHING

Golden Plume

(See Color Pages)

This is a fine new celery that we can recommend without reserve. This variety blanches easy and is blight-resistant. It has been especially selected for large solid hearts. Select Seed: Pkt. 12c.; ½ oz. 35c.; oz. 50c.; ¼ lb. \$1.75.

EGG PLANT

Black Beauty

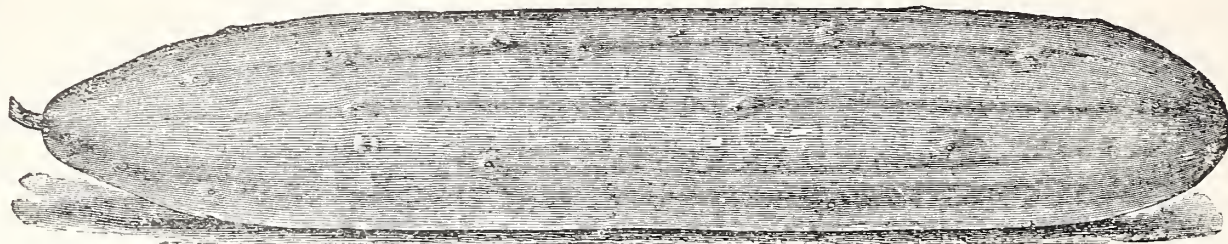

The earliest and best of all large fruited Egg Plants. It is an extra early variety with fruits of a beautiful jet color. The fruits set freely and develop quickly so that the crop can be gathered before there is any danger from frost. It is of dwarf growth and bears its fruits, which weigh from one to three pounds each close to the stem. The calyx is entirely free from spines and thorns. The intensely brilliant coloring is uniform over the whole fruit. The plants usually bear eight to ten immense fruits before being killed by frost. Pkt. 8c.; ½ oz. 25c.; oz. 40c.

VINE PEACH

Grows on a vine the same as a melon. The fruit has the size, shape and color of an orange. The flesh is snow white and makes excellent preserves or sweet pickles, may also be sliced and fried like egg plant. Vines are quite hardy and productive. Fruit will keep a long time after picking. Pkt. 5c.; 3 pkts. 10c.

CUCUMBERS

JUNG'S FAIRFIELD GIANT

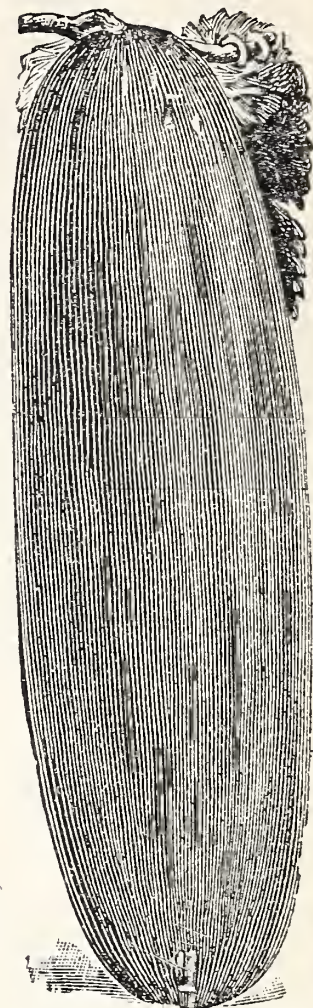

Jung's Fairfield Giant

The darkest green and most nearly seedless cucumber in cultivation. The vines are unusually vigorous in growth and produce an enormous crop of handsome fruits. They are quite smooth, of a deep green color and grow from 12 to 18 inches long, being one of the handsomest cucumbers grown. When the fruits are from 6 to 8 inches in length or just the right size for slicing, they are practically solid, there being hardly a trace of seed to be found. The pure white flesh is very firm, sweet and crisp and of the finest flavor. As shown in the illustration the fruits are very long and slim, which together with their deep green color will make them bring the top prices on all market. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 60c.

Chicago Pickling

The most popular and widely grown pickling variety. The fact that it is used by most of the large pickling factories is the best proof of its leadership in its class. The vines are very vigorous growers and will produce a large number of fruits if kept gathered before they become too large. Skin is extremely thin, tender and free from toughness when pickled. Quality excellent. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

FORDHOOK FAMOUS

White Wonder

A wonderfully good slicing cucumber. In color it is a beautiful pure snow white. Grows to good size, usually 8 to 10 inches long and is very uniform. In season almost the same as White Spine but keeps in eatable condition longer. Its smooth, clear surface makes this an ideal pickle. The firm, crisp flesh with its pleasing flavor is just right for slicing or in salads. WHITE Wonder furnishes you Quantity and Quality. A packet of seed yields Cucumbers in abundance for canning, pickling and slicing. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 50c.

WHITE WONDER

Special Offer No. 3

These five splendid cucumbers will supply you with an abundance of cucumbers for pickling and slicing:

Jung's Fairfield Giant

Davis Perfect

Chicago Pickling

White Wonder

Early Fortune

1 Pkt. of each for 25c.

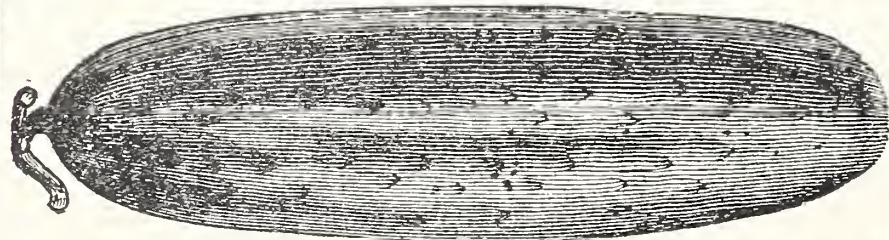

1 Oz. of each for 60c.

Fordhook Famous

The longest white spine, finest flavored of all Cucumbers. This is the handsomest of all long green cucumbers, always straight and well formed; they never turn yellow. Critical buyers are willing to pay an extra price on market for these unequalled fruits. The vines are of strong, vigorous growth with heavy foliage and set the extra large fruits freely throughout the season. The cucumbers are smooth and regular in form, averaging 12 to 14 inches in length and have a very thin and tender skin. The flesh is very thick, crisp and exceptionally mild in flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

DILL

This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

DAVIS PERFECT

Davis Perfect

A cucumber which for shape, quality, color and forcing indoors or growing outside is unexcelled. The type is perfectly fixed and has an ideal shape, slim and symmetrical. The eating qualities surpass all other varieties. The seeds that are contained in it when in slicing condition are so small and tender that they are unnoticed. The vines are very strong and rampant growers, the fruit resembles the hothouse product so closely that dealers cannot detect the difference. The most nearly perfect Cucumber yet introduced. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

EVERBEARING

Everbearing

This is a very early variety and extremely prolific. If the fruits are kept gathered, vines will continue in bearing throughout the season. The fruits of a rich, dark green color, average from 4 to 5 inches in length. Owing to its productiveness it is a fine variety to plant for producing small pickles. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

CUCUMBERS—Continued

Early Fortune

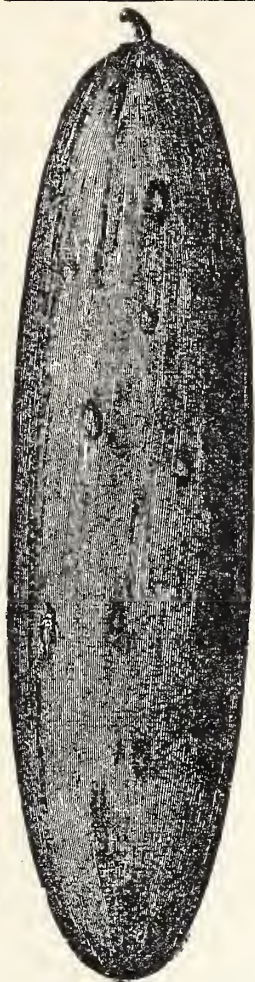

This variety is exceedingly productive and is distinguished by its vigorous growth and large healthy leaves, making it less susceptible to disease than other varieties. The fruits are very uniform in size and shape and rich dark green in color; this color does not fade when shipped a long distance. As a pickling variety **EARLY FORTUNE IS ONE OF THE BEST VARIETIES** as the fruits are so uniform. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Japanese Climbing

A fine cucumber for small gardens as you can grow them on a trellis or fence; also an excellent variety to grow like other varieties. Comes into bearing quickly and is very prolific, as many as 40 fruits having been grown on a single vine. Full grown, fruits will measure 12 to 16 inches long. Flesh is pure white, tender and of delicate flavor. When young the fruits make very attractive pickles. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

Extra Early White Spine

A dark green handsome Cucumber, often attaining a length of 12 inches and straight and attractive in shape. It makes a hard brittle pickle when small and a grand table variety when large. Excels in earliness often ready for slicing when other sorts are only pickles. Vines are vigorous growers and bear large crops. It makes a valuable variety to plant for early markets. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.

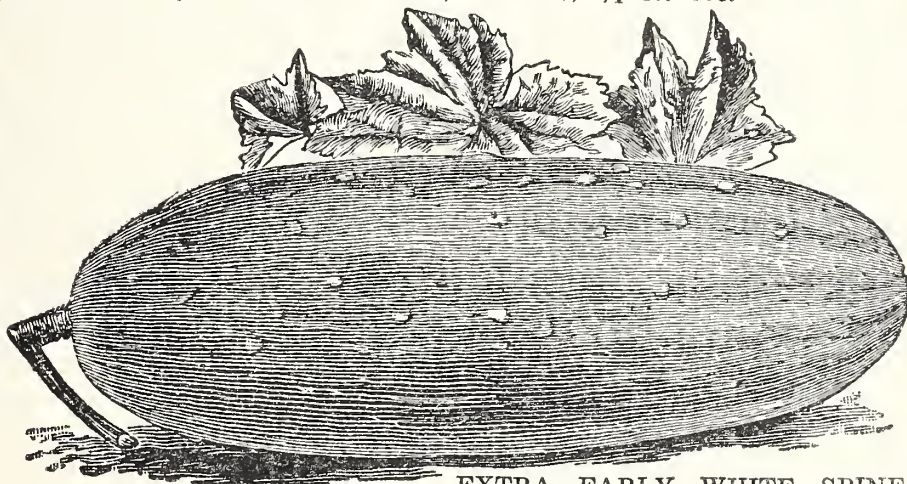

EARLY FORTUNE

Mrs. L. Fitzwater, Loveland, Ohio—Your seeds are good and always give satisfaction.

Mrs. J. H. Dillenbeck, Morrison, Ill.—I like your garden seed so much, they always thrive and give me a nice garden.

Mrs. Julius Moench, Audubon, Minn.—Bought all JUNG'S garden seeds last year and was very well pleased with them, in fact they were the best I have ever bought, so will always recommend your seeds.

EXTRA EARLY WHITE SPINE

There's Pleasure and Profit

in growing vegetables for your own use or to sell. There is no comparison in quality between vegetables fresh from the garden and those that have been on the market for several days.

KOHL RABI

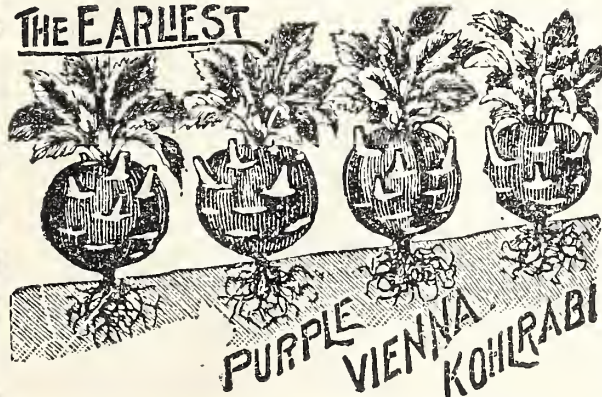

White Vienna

This variety is very early with distinct small tops. The bulbs are of medium size and very light green or almost white in color and are of the finest quality if used when about two inches in diameter. Pkt. 5c.; oz. 20c.

Early Purple Vienna

This vegetable is grown for its turnip-shaped bulb which is grown above the ground. Excellent for soups or cooked in the same manner as turnips. Grows to a large size and of juicy quality. Very early and of fine shape and delicate flavor. Pkt. 5c.; oz. 20c.

THE EARLIEST

WHITE VIENNA

GROUND CHERRY—True Yellow

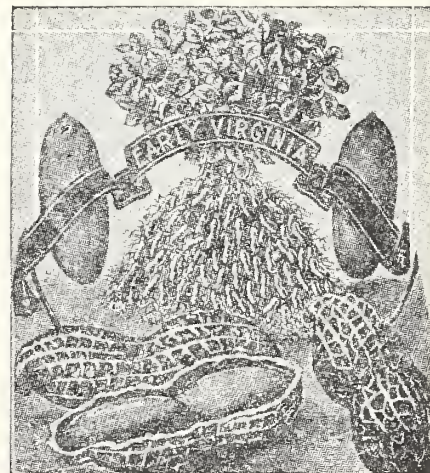

These plants are low and spreading and produce their luscious fruits in great abundance. Excellent for pies and makes delicious preserves as the fruit has a strawberry flavor. May also be dried in sugar like raisins and figs. Of easy culture and will succeed in most any garden. Pkt. 5c.; 3 pkts. 10c.

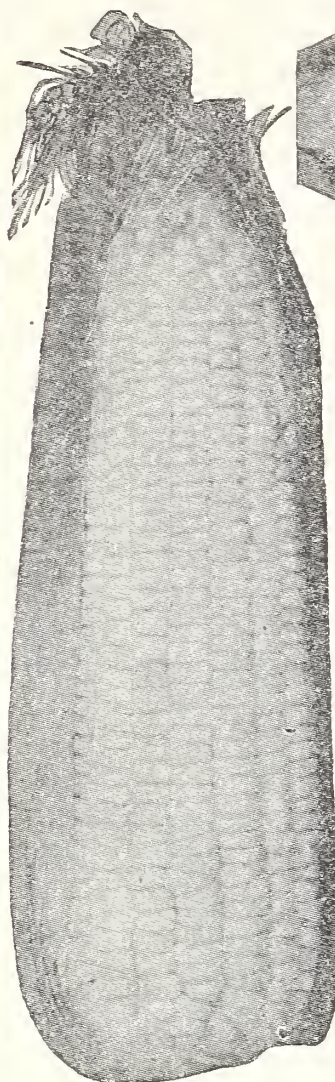

PEANUTS—Early Virginia

This splendid variety is very desirable because so early and prolific. It grows perfectly erect and seed planted early in May will ripen a crop in September and for this reason can be grown in the north. Let the boys and girls try them; it will give them lots of fun and provide peanuts for the winter. Full culture instructions on every package. Pkt. 5c.; pt. 25c.; qt. 45c.

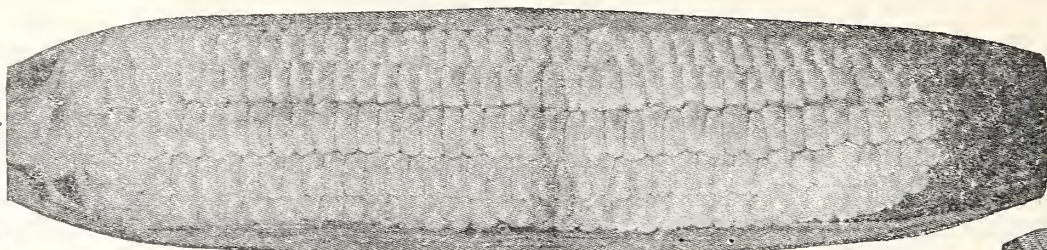

GROUND CHERRY

HOWLING MOB

JUNG'S EXTRA EARLY FORTUNE SWEET CORN

Our stocks of Sweet Corn are mostly of our own growing, and is of extra fancy quality and high germination. You will find that for earliness our northern grown seed is way ahead of western grown seed. If you want to be the first on the market with Sweet Corn plant some of this seed.

Jung's Extra Early Fortune

This variety originally came from Canada and at our Fairfield Farm trials it was the earliest of all. There is no product of the garden so eagerly waited for as the first sweet corn of the season. Early Fortune is the real tender, juicy sweet corn ready for use before the summer has really commenced. On account of its extreme earliness, Early Fortune is especially adapted for planting in northern latitudes and in high altitudes where other varieties fail entirely. The stalks do not grow very large but have two and often three unusually large ears. Ears are about seven inches long and well filled with sweet and tender grains. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 65c.

Jung's Extra Early Golden Bantam

The Best, the Largest of all Early Sweet Corns. Retaining Its Delicate Tenderness Even When a Little Old. This variety is pronounced the favorite because of its extreme early character, vigorous growth and surpassingly delicious flavor. It is the ideal garden Sweet Corn with the richest flavor of all. Besides being early it is very hardy and permits of the earliest planting. The stalks are dwarf in growth averaging four feet in height. The ears are from 5 to 7 inches long and the grain is a bright golden yellow color. In flavor it is exceptionally rich and sugary and by every one admitted to be the richest flavored Sweet Corn. The small stalks can be planted closely together. For productiveness and quality it leads all varieties. The seed we offer is a special stock of our own growing and for earliness, yield and sweetness is unexcelled. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

Howling Mob

The largest eared, sweetest flavored early variety in cultivation. This variety is of exceptional hardiness and productiveness. It produces ears of large size, combined with an unusual sweet flavor for so early a corn. The stalks are strong and vigorous, four to four and one-half feet high. The ears are seven to nine inches in length with 14 or more rows of medium sized pearly white grains. The grains are sweet and rich in flavor. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 50c.

Bantam Evergreen

This variety of golden or yellow Sweet Corn combines the size of the Evergreen ear with the color and quality of the Golden Bantam. In crossing these two excellent varieties none of the good qualities have been lost, rather it surpasses them in sweetness and tenderness. The ears are 7 to 9 inches long, well filled with deep kernels of rich yellow corn. It comes just right in season to follow the first early sorts. The larger ears and prolonged season make it the favorite both in the home garden and for fancy market trade. All lovers of Sweet Corn must at least give Bantam Evergreen a trial. Pkt. 8c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

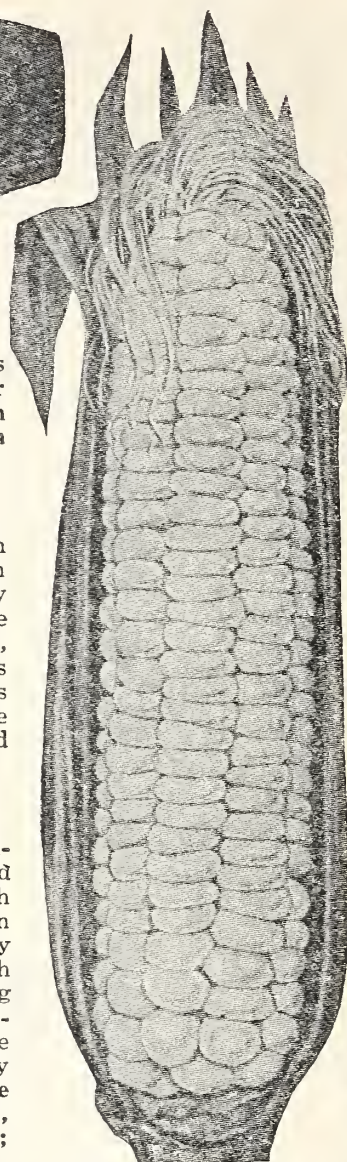

White Evergreen

The Leading Late Variety of Sweet Corn. The most valuable Sweet Corn ever produced. White Evergreen is much superior to Stowell's. It retains all the most desirable features with the added merits of pure whiteness in color, a more tender grain and distinctly sweeter flavor. The ears average very large and are well filled to the tips with the long sweet grains of pure whiteness and most delicious flavor. The stalks are very strong growers, from 6 to 7 feet high and sometimes bear three fine ears to a stalk. The ears contain 16 or more rows of deep grains which are protected by a thick heavy husk. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 55c.

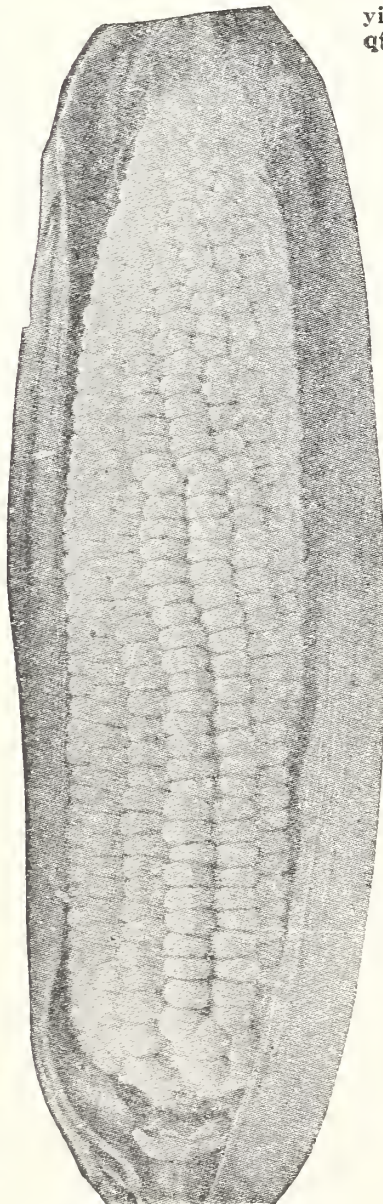

Speical Offer No. 4

The 5 splendid varieties of Sweet Corn listed above will supply your table with tender and delicious sweet corn throughout the season.

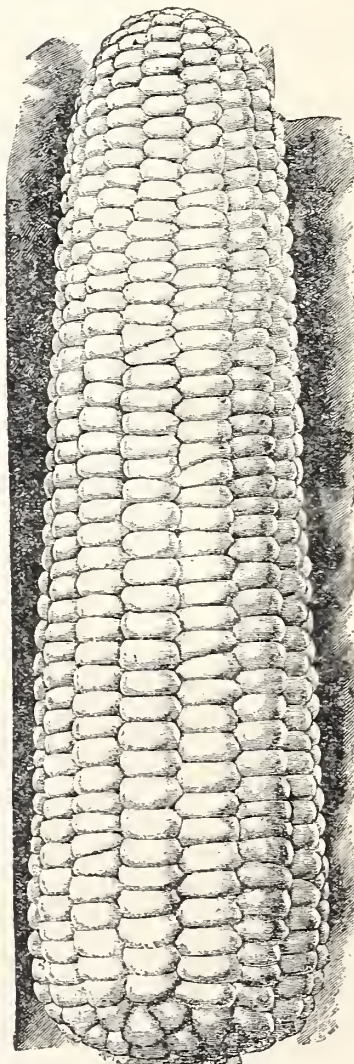

1 Pkt. of each variety for 30c. $\frac{1}{2}$ Pint of each for 90c.
1 Pint of each for \$1.50. 1 Quart of each for \$2.75.

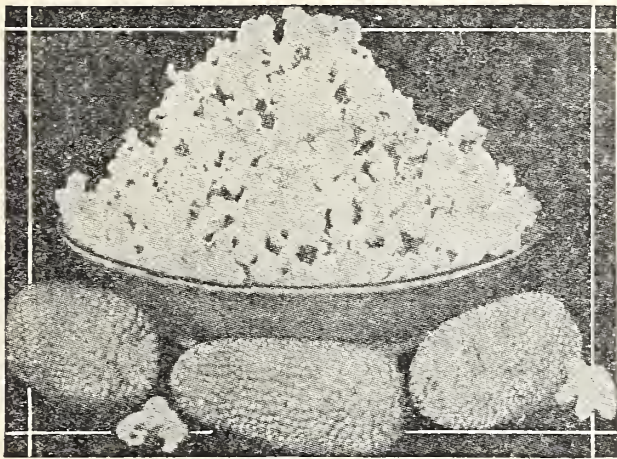

GOLDEN BANTAM

WHITE EVERGREEN

BANTAM EVERGREEN

BANTAM RICE

POP CORN

Bantam Rice

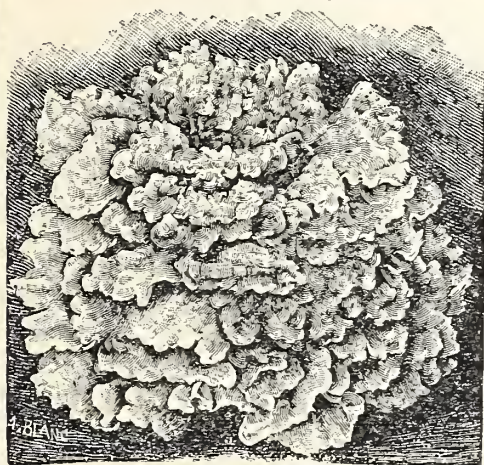

The Bantam Rice is a dwarf growing corn, a heavy yielder of attractive ears which are very thick and yield an unusually large quantity of shelled corn. The kernels are similar to the best strains of White Rice only they are longer and slimmer and pearly white in color. Its greatest merit, however lies in its superior popping qualities, there being hardly any hull or shell when popped. It is most tender and delicious as it fairly melts in your mouth. It combines both quality and quantity being a heavy yielder and superior to any other in quality. Try it once and you will not be without it again. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c.

Christ Jensen, Sturtevant, Wis.—Am sending my seed order as I have done for years, am always satisfied with your good seed.

LETTUCE

Jung's All Cream

This remarkable Lettuce does not head but makes a large loose bunch of leaves of superlative fine quality. The leaves grow upright, the upper part of the outer turning outward very gracefully and are handsomely wrinkled. The inside leaves are almost white and wonderfully crisp and tender. It grows quickly, is ready for use early and remains for weeks. It is the cream of all sorts and should be grown in every garden. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.

GRAND RAPIDS

Extra Select
Grand Rapids

A well known forcing variety. It makes large bunches of light green leaves with fringed edges. Its upright habit of growth permits close planting. It will make a quick growth under adverse conditions and is not subject to rot. Quality excellent. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 45c.

New Iceberg

The usual solidity of the heads is assured by the large white main ribs of the leaves, each of which curving strongly into the center acts like a truss making it impossible for the leaves to open outward and expose the center which is thoroughly blanched. It is quick growing and always crisp and tender, whether grown in early spring or in the hot days of summer. The heads are of good size...Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.

MAY KING

EARLIEST WAYAHEAD

Special Offer No. 5

In order to have a long supply of crisp, tender Lettuce, plant the following varieties and make a sowing once each week.

Earliest Wayahead	Jung's All Cream
Select Big Boston	New Iceberg
1 Pkt. of each for 25c.	1 Oz. of each for 65c

F. T. Deering, Aurora, Colo.—Last summer I gave a neighbor some Jung's All Cream Lettuce from my garden and they were so well pleased that they are enclosing a seed order with ours.

Mrs. W. W. Embry, Gays, Ill.—Was so well pleased with your seeds that I simply could not do without them, so send my new address.

Mrs. Donald McVicar, Nesbitt, Man. Can.—Your seeds all grew and had the nicest garden around here, had bushels of Tomatoes.

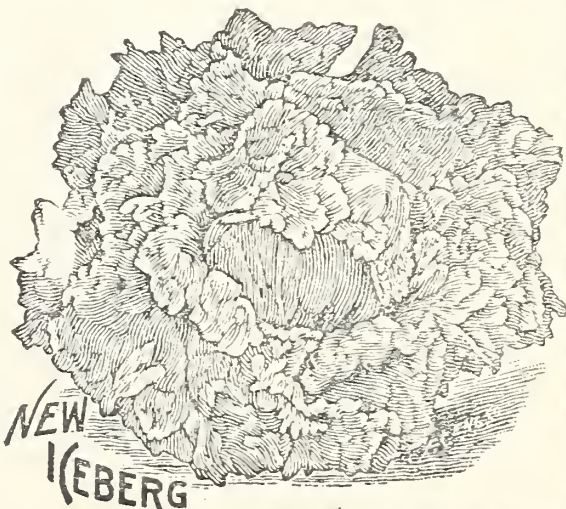

JUNG'S ALL CREAM

Earliest Wayahead

This is the quickest growing and most attractive extreme-early Lettuce producing handsome, solid heads fully one week earlier than Black Seeded Tennis Ball. Its earliness makes it the ideal variety for market gardeners as the early heads always bring the best price. Its quality is unsurpassed; the heads are very solid, have weighed 6 oz. when trimmed. The interior of the heads is blanched to a beautiful creamy color while the leaves are tender, juicy and sweet flavored. The quality of this variety is unequaled among the early sorts. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 45c.

May King

May King is not in the least affected by wet or cold weather but produces large, solid heads 10 to 14 days ahead of most other varieties. The plants grow from 6 to 7 inches in diameter with the outer leaves folding closely forming the plant into a solid head. The outer leaves are light green slightly tinged with brown; the inner leaves are light yellow and of a fine rich buttery flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

NEW
ICEBERG

DEACON

Deacon

This magnificent lettuce stands hot weather better than any of the rich butter varieties. Plants make firm heads nearly as large and almost as solid as a cabbage. The heads are light green outside, while the inner blanched portion is cream yellow and of a delicious rich buttery flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Mrs. H. T. Wheeler, Strawn, Kans.—Have used your seed for about 8 to 10 years and have better success with them than with any other that I have ever used.

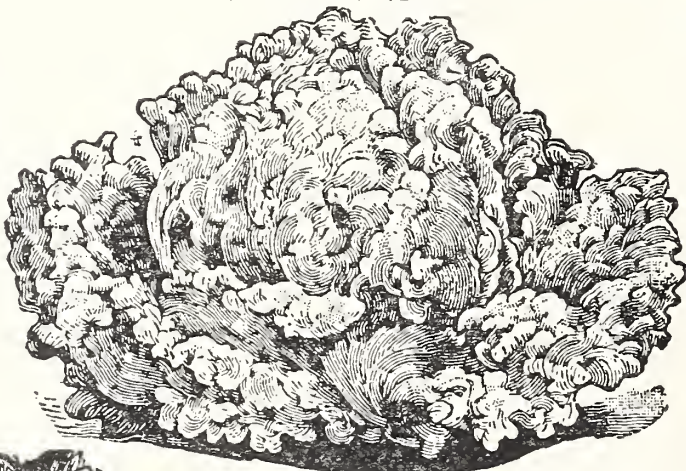

MUSTARD

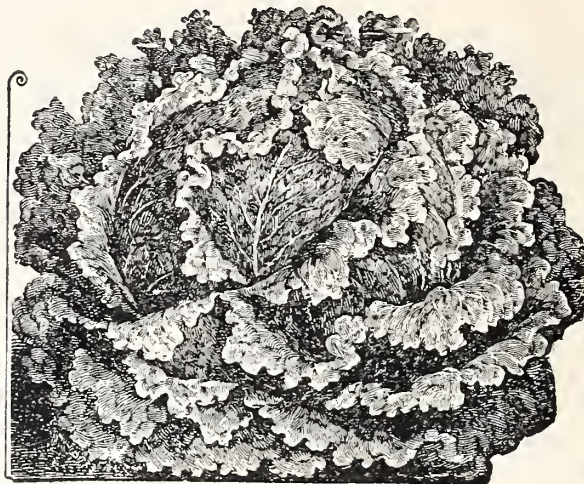

LETTUCE—Continued.

Select Big Boston

Extra Select Strain for Critical Planters. This market variety is very popular for outdoor culture and is also in demand as a compact, large heading sort for cold frames. The plants are large, very hardy and vigorous. The leaves are broad, comparatively smooth but wavy at the edge; they are bright light green, the head slightly tinged with reddish brown. The inner leaves blanch to an attractive greenish white, tinged with light yellow. It heads up under cold weather conditions better than any other variety and is grown very extensively in the south for shipping north in the winter. Pkt. 7c.; oz. 20c.; $\frac{1}{4}$ lb. 45c.

N. Y. or WONDERFUL

BIG BOSTON

New York or Wonderful

Recommended by critical market gardeners as the very best solid heading variety for Spring or summer months. It will not scald or burn and will make solid heads where all other sorts fail. Very crisp and tender. Produces immense heads as solid as a Cabbage. It blanches beautifully. Crisp, Tender and Delicious. Absolutely Free from Bitterness. The Largest Heading Lettuce of All. It frequently weighs two or three pounds. The head is very solid, of pleasing light green color. As an example of its "standing" properties perfect Lettuces were cut from the same bed for upwards of seven weeks. It is pronounced the finest in cultivation for exhibition purposes and for an outdoor all season variety it stands unrivaled. Pkt. 8c.; $\frac{1}{2}$ oz. 15c.; oz. 25c.; $\frac{1}{4}$ lb. 80c.

MUSTARD

Gigantic Thick Leaved

The leaves are large, light green with a tint of yellow, much crimped and frilled at edges. The plant is upright or slightly spreading in growth. This variety is highly esteemed in the South for the market as well as the home garden on account of its vigorous growth, hardiness and good quality. Pkt. 5c.; oz. 10c.

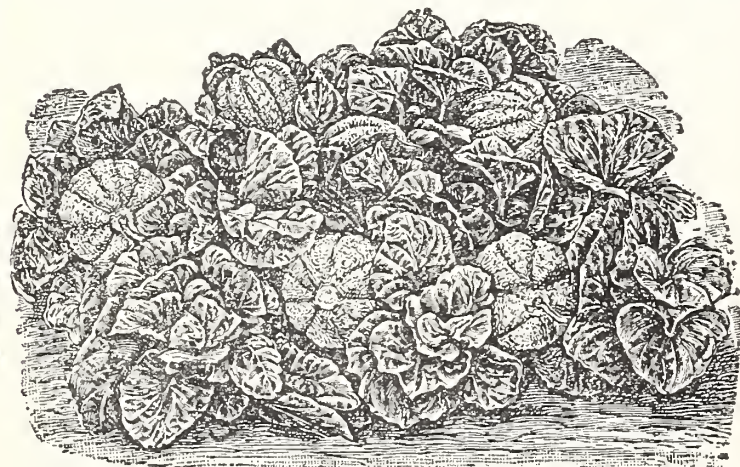

Mrs. C. E. Peterson, Superior, Wis.—Have a wonderful garden from your seeds, the lettuce can't be beat; in fact, it is all great and my neighbors want to know where I ever got such good seed and say it is the best garden they have seen. Count me your steady customer.

Montano Garcia, Oriental Negros, P. I.—Having planted your seeds for the last four years I am ready to say to the public that "The Products of JUNG'S Seeds are Unexcelled."

TWO FINE MELONS FOR SMALL GARDENS

Baby Delight or "Climbing" Water Melon

Persons having small gardens may have watermelons of their own growing as this melon will climb up a trellis or fence but may also be grown like other varieties. The vines are very vigorous in growth, the heavy foliage nearly concealing the fruit. The first melons ripen very early and the healthy vines keep on bearing heavily until end of the season. The melons weigh from 4 to 6 pounds, there are no misshapen melons on the vine, all running uniform and marketable. The rich carmine red flesh is always solid and of exceptionally sweet flavor. Pkt. 10c.; 3 pkts. 20c.; oz. 30c.; $\frac{1}{4}$ lb. \$1.00.

HENDERSON'S BUSH

A. B. Gilbert, Minneapolis, Minn.—Was well pleased with the seeds from you last year, the climbing Water Melon was a most agreeable surprise to me.

BABY DELIGHT

Henderson's Bush Musk Melon

The Melon for Small Gardens. Require Little Space

The vineless character of growth or "bush habit" of this fine melon is a distinct advantage as it can be grown even in small gardens where room is limited. The plants are very sturdy and vigorous, growing 18 to 24 inches long. The fruits average 4 to 5 inches in diameter and are produced in abundance. The flesh is very deep, edible to the rind, light green in color, lusciously sweet and juicy and of most gratifying flavor. Pkt. 10c.; 3 pkts. 25c.

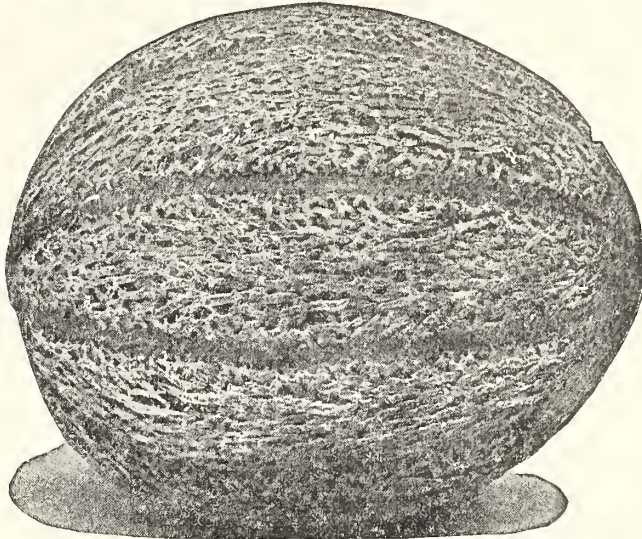

SPECIAL OFFER—1 Pkt. of each of the above fine Melons for 15c.

HEARTS OF GOLD

Extra Early Knight

Positively the earliest green-fleshed musk melon ever grown. Of medium size, weighing from 2½ to 4 pounds. The skin is green ribbed and netted, the flesh deep and thick and light green in color, inclining to yellow toward the center. In flavor it is exceedingly fine. A heavy cropper and absolutely the earliest of all muskmelons. We recommend it particularly to all whose profit depends upon being first in market, and their uniform size and shape combined with their delicious flavor, sell rapidly at high prices. If you want a firm, solid melon and the first on the market plant **EARLY KNIGHT**, Pkt. 7c.; oz. 15c.; ¼ lb. 45c.

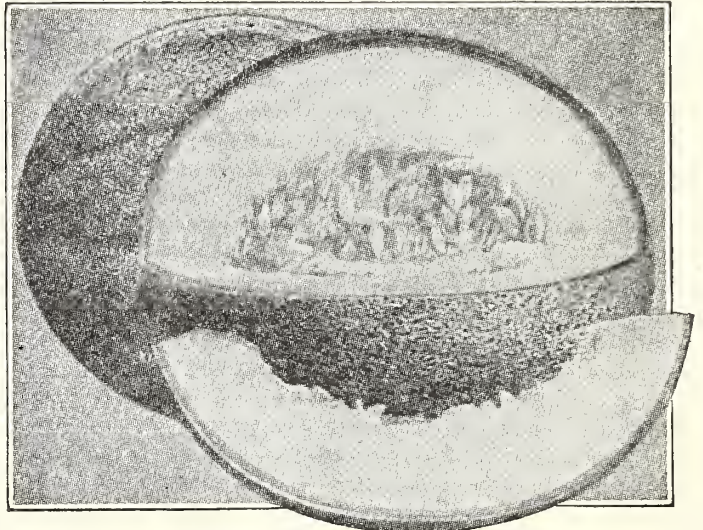

EXTRA EARLY KNIGHT

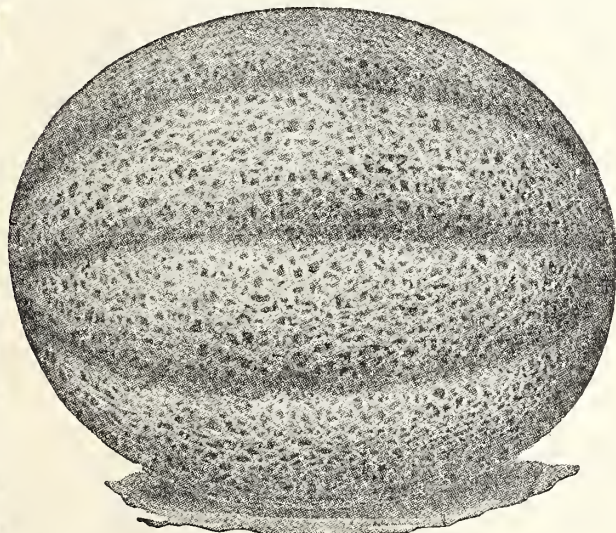

Jung's Select Extra Early Osage

An excellent main crop, medium to large, oval salmon-fleshed melon. The vines are vigorous and productive. The fruits are slightly oval, dark green, slightly ribbed and partly covered with shallow gray netting. The flesh is rich orange-salmon, very thick and fine grained and highly flavored. Of vigorous growth, the foliage is of such firm texture that the vines resist the attacks of insects and blight. It is very prolific for so large a variety, frequently producing as many as ten large melons to a vine. The seed cavity is so small there is no tendency towards cracking open at the blossom end. **Extra Select Seed:** Pkt. 7c.; oz. 15c.; ¼ lb. 40c.; lb. \$1.50.

Mrs. Erwin Hartman, Vicksburg, Mich.—Want to say a few words for your seeds but a few words won't do. They are the strongest seeds we have found. Last year our melons came up in one week where it always takes two of other seeds. We had a terrible sand storm which all but buried them but after 2 days we uncovered them and hoed them and had a fine crop of melons.

EXTRA EARLY OSAGE

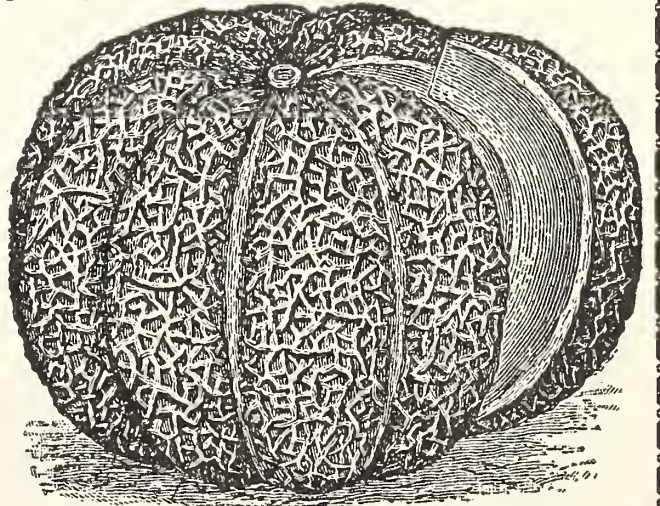

JUNG'S BIG PROFIT

Jung's Big Profit

Market gardeners who grow melons for profit will find this to be the best to be had in a melon of large size and superior quality. As shown in the illustration the melons are oval shape, skin light green with coarse netting. The flesh is deep orange colored, very thick, deliciously sweet and of superb flavor. The melons are large in size, averaging about 10 lbs. and ripen medium early for so large a melon. A valuable thing about this melon is that they will keep in good condition and improve in flavor for five or six days after picking. Pkt. 8c.; oz. 25c.; ¼ lb. 60c.; lb. \$2.00.

John R. Wilson, Tuscarawas, Ohio.—I have bought garden and flower seed from you for the last 12 years and have found them superior to the seed bought from any other firm.

NEW EARLY FORDHOOK

Mrs. George A. White, Hingham, Mass.—We had very good results from your seed last year and use your seed in preference to any we have bought before.

New Early Fordhook

The finest flavored and sweetest Musk Melon in cultivation. Fully equal to the Emerald Gem in flavor. So firm is the rough netted skin and so solid the thick salmon flesh that the melons carry to market even better than Emerald Gem. The flesh is very thick, of an attractive deep salmon color and surpassingly sweet to the very rind. The rind, although thin, is unusually firm so that the fruits carry well to market. It is most vigorous in growth. Very early and extremely prolific. Each vine sets from five to nine melons around the stem and frequently touch one another. The melons are very even in size, weighing from 1¼ to 2 pounds each. For handsome appearance, extreme earliness, great productiveness and superb quality it is unexcelled. Be sure to give **NEW FORDHOOK** a trial. Pkt. 7c.; oz. 15c.; ¼ lb. 45c.

MUSK MELONS—Continued

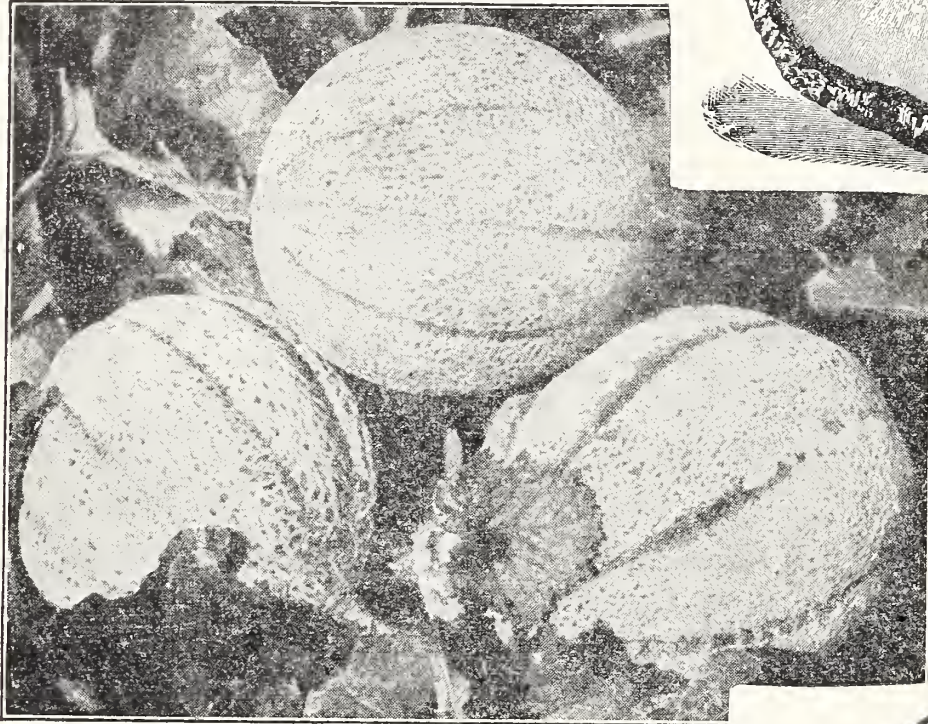

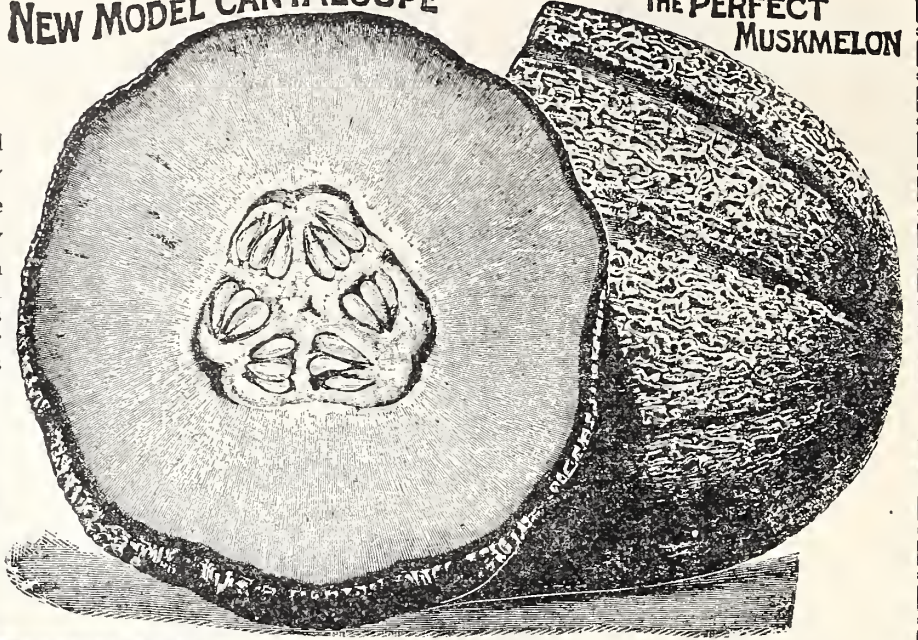

New Early Model

A PRODIGIOUS BEARER

Spicy, Green Flesh, Small Seed Cavity. The Model is an early cantaloupe, about twice the size of Rocky Ford and more productive. It is almost round, the flesh is thick and firm, green colored while in delicacy and flavor it is unexcelled. The flesh extends from the rind almost to center of the melon. The Model bears shipping well and can be carried to distant cities without injury. The average weight per melon is over two pounds. No one who wants extra good melons should fail to plant this variety. Pkt. 7c.; oz. 15c.; ¼ lb. 40c., postpaid.

NEW MODEL CANTALOUPE

THE PERFECT MUSKMELON

ROCKY FORD

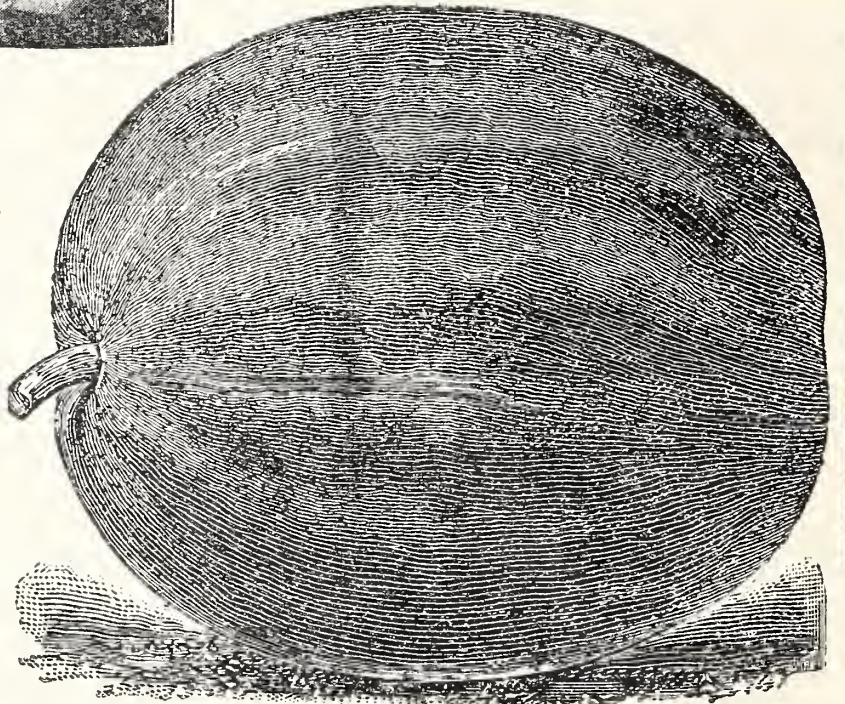

E. A. Milliken, Cedar Rapids, Iowa.—Your garden seeds are the best we have ever planted.

Mrs. J. H. Garrett, Dunbar, W. Va.—In the 6 years I have been using JUNG'S seeds have found them the best so am trying to get them into other homes. Thank you for your prompt service.

Rust-Proof Rocky Ford

SELECT STOCK

One of the most popular green flesh Musk Melons. In the hands of Rocky Ford growers it has made Colorado famous in eastern markets for melons of UNEQUALED QUALITY. The vines are exceedingly healthy and vigorous, bearing an enormous quantity of fruits during the entire season. The color of the skin is a rich greenish gold; the netting is prominent and light in color, appearing very attractive. The flesh is deep, ripening clear to the rind, very solid, yet thoroughly melting. It is very sweet and luscious in flavor. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

FORDHOOK EARLY

Fordhook Early

This is an extra early watermelon that is of good size and quality. The fruits are of large size, rather short and blocky in form with large diameters. Flesh is bright red, crisp, sweet and of splendid quality and continues to improve after ripening. The heart is large, there is no seed cavity and very few seeds. The vines are of strong vigorous growth setting large melons in good numbers. Skin is dark green with occasional faint stripes of light green. Pkt. 7c.; oz. 12c.; ¼ lb. 30c.

Mrs. D. J. Sterner, Montoursville, Pa.—We have used your seeds for 5 years and find they are best we can get, they are sure to grow.

WATER MELONS

Halbert Honey

The very finest melon in cultivation for home use or near-by markets. A melon that has no equal in beauty, quality and productiveness. The melons are smooth and regular in outline, 14 to 18 inches long and 6 to 8 inches in diameter. Color of the rind is a clear, glossy, deep green. The flesh is a beautiful crimson extending to within half an inch of the rind which is so tender that it will not stand shipping a long distance unless carefully handled. The first melons ripen early and the vines continue to develop fine fruit throughout the season. The sweet flesh melts away in your mouth like honey. Pkt. 5c.; oz. 12c.; ¼ lb. 30c.; lb. \$1.00.

HALBERT HONEY

WATER MELONS—Continued

Special Offer No. 6

If you wish to raise a fine lot of choice melons plant the following:

SELECT EARLY OSAGE
FORDHOOK EARLY
JUNG'S BIG PROFIT
HALBERT HONEY
KING WATERMELON

1 Pkt of each for 25c.

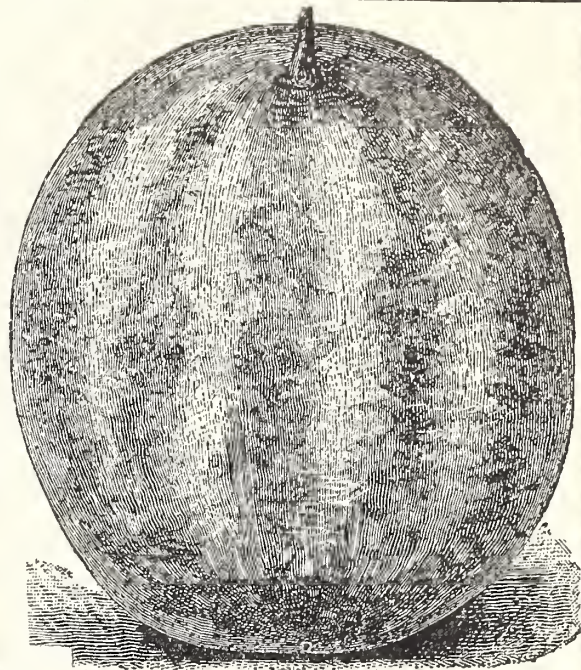

1 Ounce of each for 65c.

Mrs. A. J. Wiener, Cedar Falls, Iowa—Was very much pleased with last year's results, never had a better garden, your seeds all grow. I find it takes less of your seeds than any other.

Harris Earliest

The Best Shipper in the Early Class

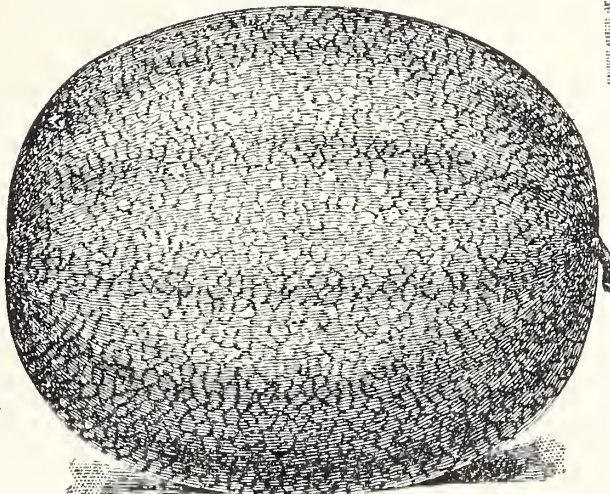

This is the sweetest early melon and the best shipping early melon. It is slightly oblong, broadly striped light and dark green. Flesh is bright red, sweet and crisp; seed black. The vines are vigorous and productive growing melons that weigh 15 to 20 pounds. Plant this strain for home gardens, ready for use before other melons begin to ripen. Maturing in 60 to 70 days it is just the kind for northern latitudes. Harris Earliest beats all competitors for early shipping and is first on the market. Pkt. 5c.; oz. 10c.; ¼ lb. 25c.

HARRIS EARLIEST

Sweet Heart

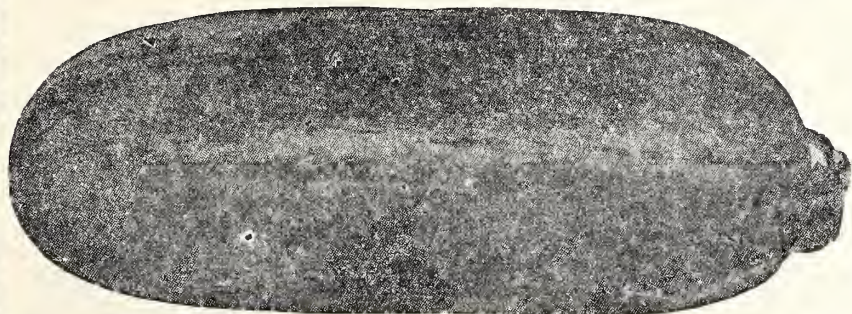

A large Melon nearly globular in shape but a little longer than thick. Fruits are large and skin a very pale green with distinct netted lines of a rich deep red, crisp and melting. Its excellent quality has made it a leading favorite on the market. The vines are vigorous and productive, ripening the fruits quite early. The handsome fruits bear shipping well. Pkt. 5c.; oz. 10c.; ¼ lb. 20c.

SWEET HEART.

CITRON or PRESERVING MELON

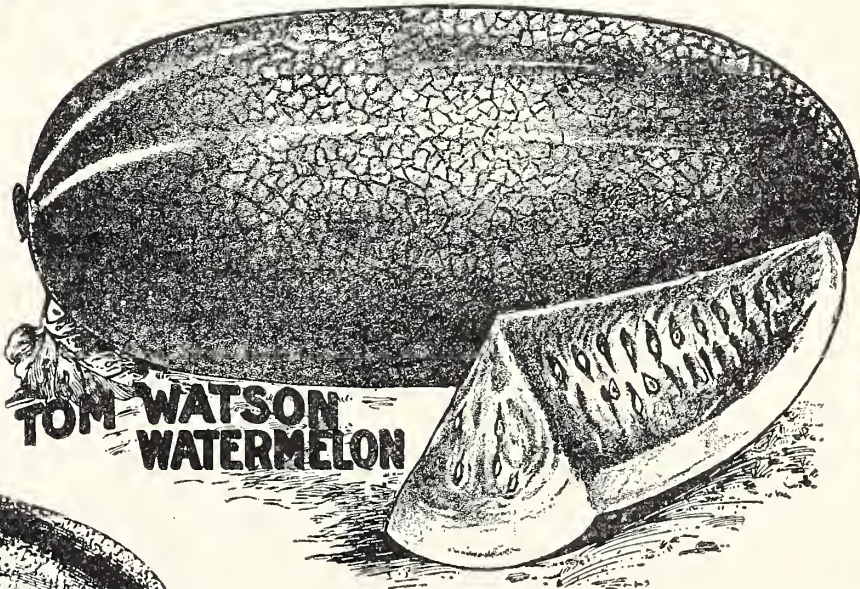

A large fruited variety, pure white flesh and thin rind. This is expensive when bought, yet can be grown and preserved by any energetic housewife who will then know it to be absolutely pure and good. It is planted like watermelon. Pkt. 5c. oz. 10c.; ¼ lb. 25c.

IMPROVED KLECKLEY SWEETS

Tom Watson

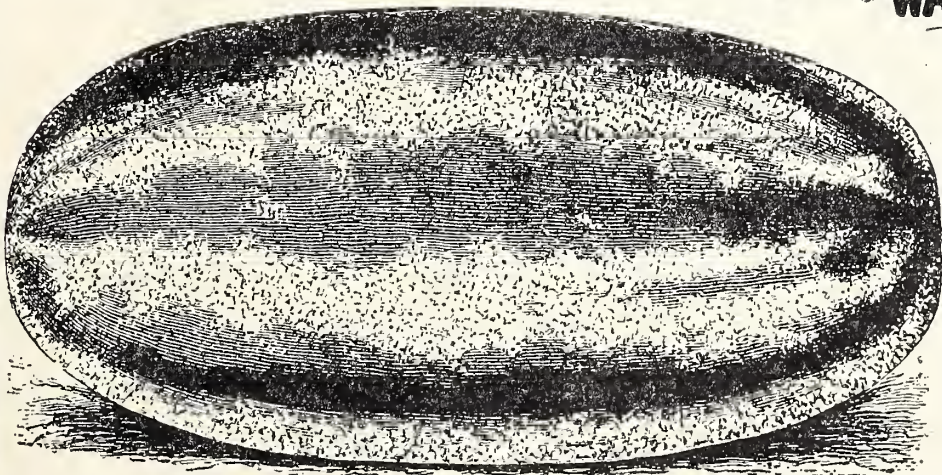

Best Quality! Best Shape! Best Shipper! Best Size and Best Appearance! The Tom Watson is an extra large melon of attractive appearance, uniform in shape and quality. The luscious flesh is "sweet as honey", melting and of superb flavor. The average melon weighs from 35 to 40 pounds and measures about 20 inches in length and 12 inches in diameter. It is very prolific, producing in greatest abundance the delicious fruits. The dark green rind is tough but thin and easily withstands shipping to far distant markets. The heart is large, with no sign of core. Pkt. 5c.; oz. 10c.; ¼ lb. 30c.

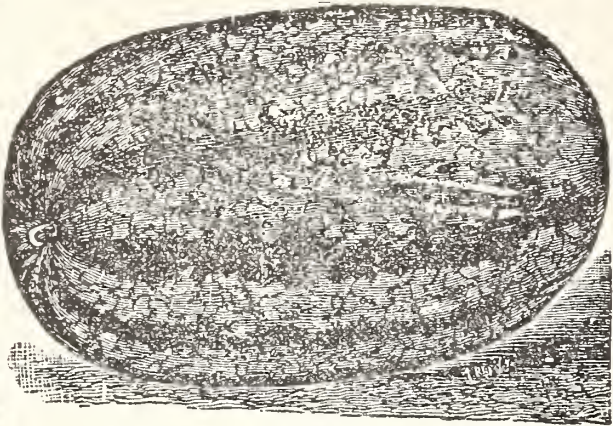

TOM WATSON WATERMELON

Jung's Improved Peerless

We offer a highly improved strain of this popular melon you will find it to be earlier and of much better quality than the seed usually offered. The melons are oblong and often attain a weight of 25 lbs., rind is light green with darker green markings. Flesh is brilliant red, deliciously sweet and melting. Its handsome appearance makes it a rapid seller and for the home garden it is hard to beat. Our strain will ripen very early, you will make no mistake by planting it. Pkt. 7c.; oz. 15c.; ¼ lb. 35c.; lb. \$1.25.

JUNG'S IMPROVED PEERLESS

DIXIE

Jung's Pkts. are "Oversize"

SOUTHPORT RED GLOBE

THREE TRUE GLOBE ONIONS

The Southport Globe Onions have increased wonderfully in public favor during the past few years and they well deserve their popularity. In almost all markets they invariably bring top prices. They are not only of handsome appearance, remarkable solidity and good keepers, but also fully equal in yield to the best strains of any variety.

Southport Red Globe

A handsome onion of immense size, averaging from 9 to 10 inches in circumference, solid, heavy and of perfect globe shape. The skin is a glossy, deep purplish red color; the flesh is close grained, sparkling white, cooking tender and mild. It is hardy, a splendid keeper and a big yielder, averaging under good culture from 800 to 1000 bushels per acre. Our strain of this seed is unsurpassed, the bulbs being selected for largest size, solidity, brilliant rich color and typical globe shape with small necks, thus insuring thorough and regular ripening and curing. You will make no mistake in giving this onion a trial. Pkt. 8c.; oz. 30c.; 1/4 lb. 80c.; lb. \$2.75.

WATER MELON-Dixie

A Watermelon of highest quality and value. The size is large, specimens of 50 pounds being not infrequent. Flesh is scarlet, very fine and extra firm. The variety is the most prolific known, often producing six to eight melons on a single vine. The vines root at the joints and thus become more drought resisting and vigorous. Pkt. 5c.; oz. 10c.; 1/4 lb. 20c.

King Winter Melon

By planting this variety you can have watermelon for your Christmas dinner as they are remarkable keepers. The melons are round, have a thin hard rind and are very solid; they are from 8 to 12 inches in diameter and sell well at all seasons. Flesh is bright red and very sweet. Vines are very vigorous growers, very productive and will ripen quite early. Pkt. 10c.; oz. 25c.; 1/4 lb. 50c.

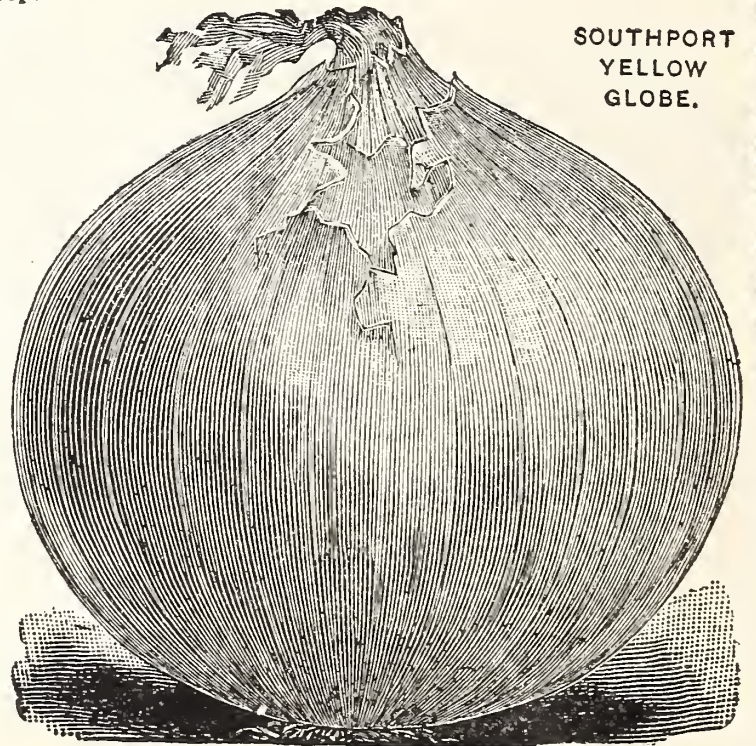

KING WINTER MELON

Jung's Seeds Produce Results!

Frank T. Cook, Cohasset, Mass.—I planted your seed last year with good results, especially JUNG'S Telephone Peas, Evergreen Sweet Corn and Ailsa Craig onion, in fact all the seeds came up true to name and just as represented. Got about 60 lbs. JUNG'S Bonanza potatoes from 3 lbs. of seed and have told a great many people about your seeds. I find that using your NORTHERN GROWN seeds here in Massachusetts gives the best results.

JUNG'S SELECT ONION SEED

We make a specialty of HIGH GRADE ONION SEED. It is better to plant no Onions at all than to sow seed of poor quality. Our Onion seed is all grown from carefully selected true-to-type bulbs. Such seed may cost a little more but will be by far the cheapest when you compare the resulting crop.

SOUTHPORT
YELLOW
GLOBE.

Southport Yellow Globe

This is one of the most satisfactory and popular varieties raised for family use or market. It is an enormous yielder, hardy and reliable, making under normal conditions often up to 1,000 bushels per acre. The onions are models of perfection, growing uniformly deep and globular in shape, veritable globes of gold and extra large, averaging nine to ten inches in circumference. The color of the skin is an attractive golden yellow, the flesh snow white, firm and juicy. The small necks enable the onion to ripen down evenly insuring good keeping qualities. Pkt. 8c.; oz. 30c.; 1/4 lb. 75c.; lb. \$2.50.

Southport White Globe

The most beautiful onion grown, being of symmetrical globe shape with a smooth satin-like skin, forming a perfect silver ball. It grows to a large size, averaging 7 to 9 inches in circumference and is solid and heavy the flesh is purest white, close grained, mild and of delicate flavor. Owing to its large size it is later in ripening than the White Portugal or Silver-skin. As soon as ripe the bulbs should be stored in a cool, dark shed or dry cellar. It is a heavy cropper and for the family garden as well as for market it is a valuable onion. Pkt. 10c.; oz. 35c.; 1/4 lb. \$1.10.

JUNG'S SELECT ONION SEED—Continued

Ailsa Craig

The Giant Among Onions. Always Gets First Prize.

We offer a very choice strain of this popular Onion which on account of its large size is in great demand. Specimens have been grown weighing two pounds or more. It is globe shaped and has a very small neck, a sure indication of fine quality. The skin is a beautiful straw color; flesh pure white, tender and of mild delicate flavor; for eating raw it has no equal. It is a good keeper for such a large onion. If you want to grow big onions plant Ailsa Craig. Pkt. 10c.; oz. 30c.; $\frac{1}{4}$ lb. 85c.; lb. \$3.00.

AILSA CRAIG

The Best is the Cheapest

Jung's seeds cost more but they are also worth much more. Our seeds are grown either by ourselves or by growers recognized as the best and will produce a crop that will be worth much more than that grown from common or cheap seeds. It is poor economy to use seeds which have only their cheapness to commend them. It always pays big to sow the best seeds.

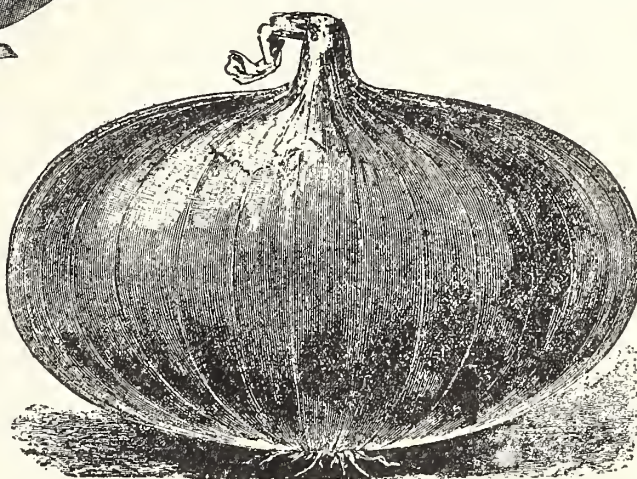

J. W. Hewitt, Cedar Grove, La.—Have tried seed from 5 different companies and find your seeds grow best, so am sending for more.

Prizetaker

The King of All Yellow Globe Onions

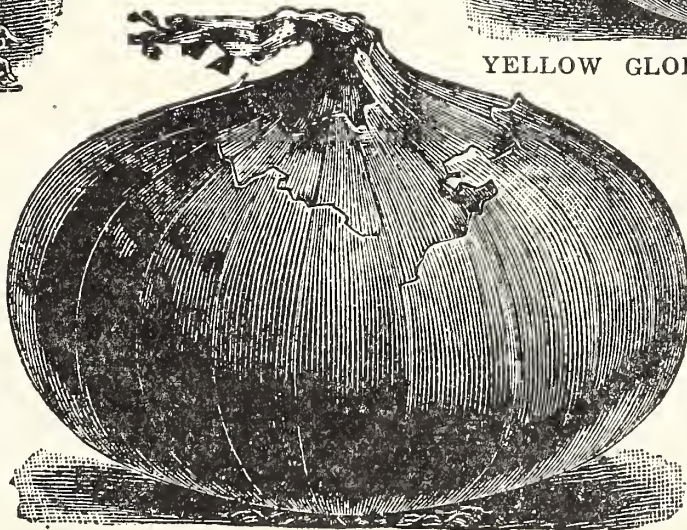

This is one of the largest Onions in cultivation. It is a large beautiful Spanish variety so often seen in the fruit stores and markets of the large cities. Bulbs are nearly globe shaped with a bright straw-colored skin growing to an immense size the first season from seed. They ripen up without stiff necks and present a very handsome appearance. The flesh is pure white, fine grained, delicious and mild in flavor; fine for fall and early winter use. Bulbs measure from 12 to 14 inches in circumference and with rich soil and under special cultivation specimens have been raised weighing five pounds each. In markets they sell rapidly at good prices. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 75c.; lb. \$2.60.

LARGE RED WETHERSFIELD

Australian Brown

Long Keeping, Fine Quality. This sort is distinct from all other Onions. Is uniform in size and shape, wonderfully hard, solid and heavy and will keep almost indefinitely. Ripens extremely early and never makes scallions. It is of medium size, round with skin of a deep amber-brown; flesh white, mild and agreeable. A sure cropper. Pkt. 5c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.; lb. \$1.75

AUSTRALIAN BROWN

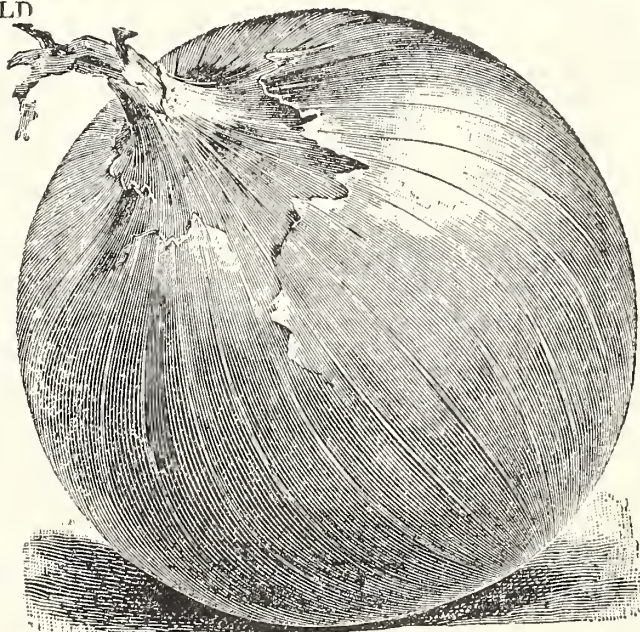

A. L. Hendrickson, Duluth, Minn.—I sure had a very fine crop from your seeds last year, won prizes in the garden contest, and a good deal of the credit goes to your fine seed.

Large Red Wethersfield

The most popular red variety. It is very productive, having yielded over 1000 bushels per acre. It is an early ripening sort but continues in growth throughout the season and consequently makes a very large onion; the bulbs are large, though somewhat flattened as shown in the illustration. The outer skin is a deep purplish red, with white flesh slightly tinged with rose. It is a fine keeper, suitable for later markets. The flavor is good and mild, admirable for boiling. The best variety for poor or dry soil. You will make no mistake by giving this variety a trial. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 60c.; lb. \$2.25.

Select Yellow Globe Danvers

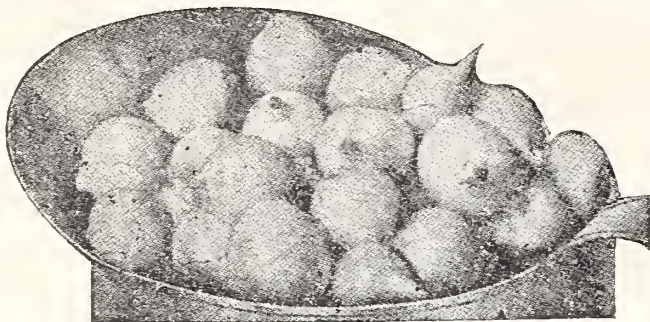

This is a standard yellow Onion and is more largely grown than any other variety. The bulbs grow to about 2 $\frac{1}{2}$ inches in diameter, are nearly globe shaped and of alight yellow color. The flesh is pure white; the bulb is extremely hard and solid and its handsome appearance has placed YELLOW GLOBE DANVERS among the leading varieties for the home and market garden. It forms a bulb very early in the season so that it may be used almost all summer and ripens crisp and solid in the fall. It is a very heavy cropper. Our strain of this variety is unsurpassed. Pkt. 8c.; oz. 25c.; $\frac{1}{4}$ lb. 70c.; lb. \$2.40.

YELLOW GLOBE DANVERS

Silverskin

A leading white, flat onion. The bulbs attain a good size, ripen evenly and the color is a beautiful silvery white when cured. Its shape is flat but symmetrical. For a white variety it is not only early but also a good keeper. For slicing and boiling it is one of the best, the flesh being mild and tender. It is largely grown for pickling, being sown three or four times as thick as usual and is also extensively sown for sets. For the family garden it is one of the best. Pkt. 10c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.20; lb. \$4.00.

JAPANESE ONION SETS

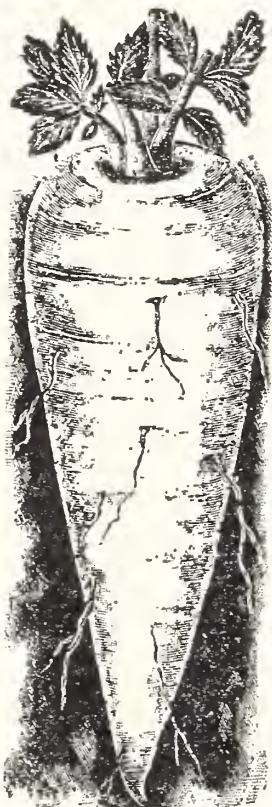

JAPANESE ONION SETS

The finest thing ever offered in Onion sets and will no doubt displace all other sets. The common sets when grown during the summer often run to seed, these sets instead of running to seed will mature a large handsome bulb of yellow or golden color, very solid and excellent keepers. Those who have used the sets before are now planting them entirely. We guarantee them to give satisfaction or will refund your money. Pkt. 25c.; qt. 40c.; 4 qts. \$1.35, postpaid. Not prepaid: Pk. \$1.50; bu. \$4.75.

Mrs. Agnes Hall, Moorhead, Minn.—Last year your seeds grew splendidly and want to use them again this year. Was especially pleased with the Japanese Onion sets,

BERMUDA ONION PLANTS

Most of our customers have eaten the large sweet Bermuda Onions that are shipped North from Texas during the early spring months and usually sold at high prices. You can raise these in your own garden as easily as you grow radishes by using Bermuda Onion plants. You can use them as green onions or allow them to grow to their full size; you can have onions 3 to 4 inches in diameter by July. Our plants are field grown and very hardy, they are easily set out and sure to produce onions. Try them once and you will want some every year. Put up in bundles of 200 and 500 plants; no less than 200 can be sold. Prices postpaid: 200 for 50c.; 500 for \$1.00 1000 for \$1.75; crate of 6000 for \$7.25.

PRIVATE STOCK

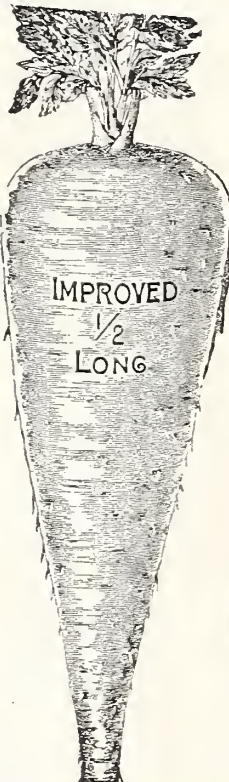

PARSNIPS

Jung's Private Stock

This is a highly improved type of the Half-Long, producing uniformly large and handsome roots of stocky form, heavy at the shoulder, well rounded, gradually tapering to the base, so that they can be easily dug and if grown in properly pulverized soil the roots will be smooth and free from side roots and wrinkles. The flesh is white, of fine texture, free from core and stringiness and especially fine flavored, cooking tender, sweet and rich. Pkt. 8c.; oz. 15c.; ¼ lb. 30c.; lb. \$1.10.

Improved Half Long

This variety is an improvement on the old Hollow Crown forming roots thicker and shorter than that variety and is also more easily gathered. The flesh is white, of fine texture, free from core and stringiness and of the finest flavor when cooked. This parsnip is one of the heaviest croppers and we recommend it both for garden and field culture. Pkt. 5c.; oz. 12c.; ¼ lb. 25c.; lb. 90c.

HERBS

ANISE. Used for cordials, garnishing and flavoring. The seeds have an aromatic taste. Pkt. 5c.

SAGE. Sow in rich ground and thin out the plants to 15 inches apart. Used for flavorings and dressings. Pkt. 5c.

DILL. This herb is used in large quantities in the making of Dill Pickles; also for flavoring vinegar. Pkt. 5c.; oz. 20c.

SWEET MAJORAM. The leaves and end shoots are esteemed for seasoning in summer and also dried for winter use. Pkt. 5c.

SUMMER SAVORY. The leaves and flowers are used extensively for flavoring, particularly in soups and dressings. Pkt. 5c.

THYME. The leaves are used for seasoning. Pkt. 5c.

PARSLEY-Moss Curled

The leaves are of an extra dark color. It is very productive and on account of its densely curled character of leaves a large quantity can be gathered in a short time. It is much used for flavoring and garnishing. Pkt. 5c.; oz. 10c.

Turnip Rooted Parsley

This variety, the roots of which resemble a small parsnip, is used in flavoring soups, stews, etc. For winter use store the roots same as turnips; as easy to grow as carrots. Pkt. 5c.; oz. 10c.

MOSS CURLED PARSLEY

OKRA

OKRA-White Velvet

The long slender pods of Okra are very delicious when sliced and cooked in soups. While this is its chief use it can be boiled and served like other vegetables. The pods should be gathered while young as they are then very tender. Pkt. 5c.; oz. 10c.

This is a highly concentrated and well balanced fertilizer for pot or house plants, roses, ferns and also for outdoor flowers and shrubs. It increases the foliage and improves the color and size of blossoms. Odorless and harmless. PLANT PEP is sure to bring forth healthy plants and lots of flowers. 2 oz. pkt. makes 5 gal. 15c.; 8 oz. can makes 20 gal. 50c.

Mrs. Wm. Fuchs, Mohall, N. D.—This is the third year sending for your seeds; the Japanese Onion sets were the best we ever had, also the Golden Acre Cabbage; had the first cabbage on the market. We couldn't get along without JUNG'S seeds anymore.

Mrs. Arthur Cook, Wright Wyo.—Those were wonderful seeds we had from you last year, never had a better garden and the onion sets were great.

GARDEN PEAS

Our PEAS are northern grown and free from bugs. They are the earliest, hardiest and most productive. They were grown from the finest selected stock, are bright, handsome, of perfect growth, were critically rogued and carefully hand-picked. We advise our friends and customers to send their orders early so they may be filled before our stocks are exhausted.

F. J. Perrine, Bellevue, Mich.—Had very good results from your seeds last year and was about the only one in my locality who had peas, but ours from your Honey Sweet did well.

Little Marvel

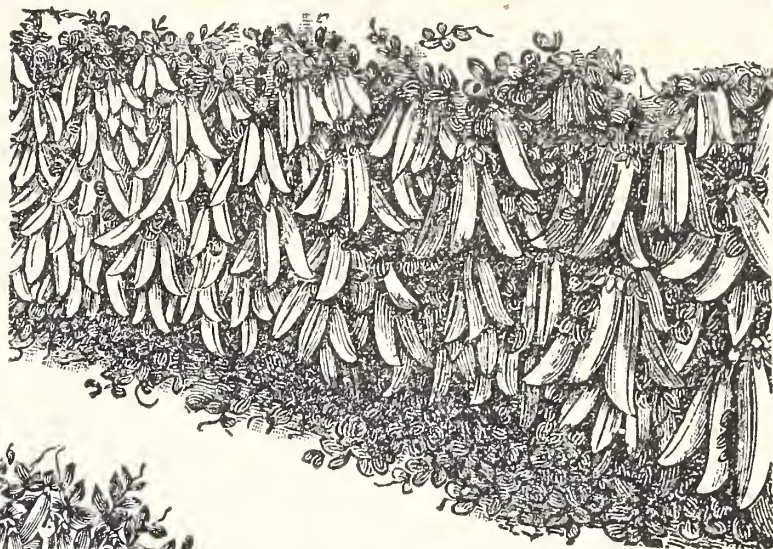

A New Extra Early Dwarf Pea

The vines are of dwarf even growth, averaging fifteen inches in height and are heavily set with fine pods, frequently borne in pairs. The pods average about four inches in length, are square at the bottom and well filled with six to seven large, deep green peas. The pods are ready for the table as early as the American Wonder while the peas are larger and the vines produce a heavier crop. The peas retain their attractive dark green color and superb flavor when served at the table. You will be delighted with the choice flavor of Little Marvel. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

LITTLE MARVEL

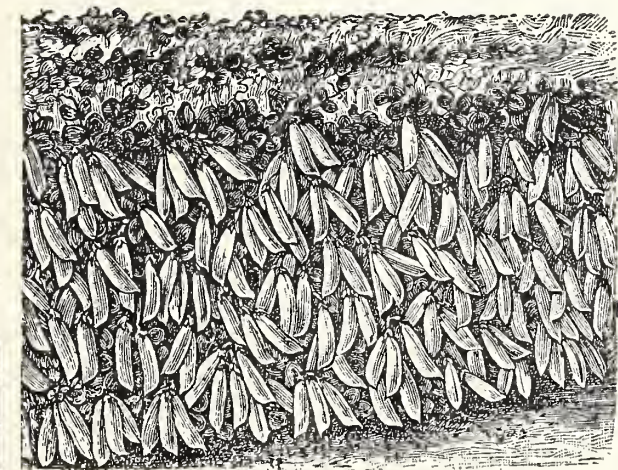

Mrs. D. J. Sterner, Montoursville, Pa.—We have used your seeds for 5 years and find they are the best we can get, they are sure to grow.

EARLY EXCELSIOR

Early Excelsior

The leader of the early dwarf wrinkled Peas. It grows to a height of about twelve inches; of compact growth, being similar to Nott's Excelsior in this respect but superior to it in the following particulars: First: The vines are more dense and sturdy. Second: The peas and pods are decidedly larger measuring from $3\frac{1}{2}$ to 4 inches in length and contain from 6 to 8 large peas of delicious quality and is a much surer cropper. It is also very early; the past three seasons it was ready for use in 45 days after sowing. One of the most valuable EARLY PEAS surpassing in earliness, yield and quality. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

BLUE BANTAM

Little Gem

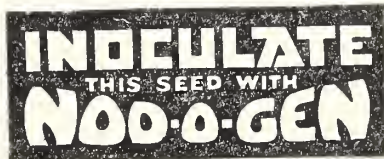

One of the most popular extra early dwarf peas. The demand for Little Gem increases every year which is a sure indication that it is giving satisfaction. The vines grow 14 to 16 inches tall and require no brush and are literally covered with pods. Pods contain from 6 to 8 peas of fine quality. A great favorite for home and market gardens. You will not be disappointed if you plant our "Gems". Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 30c.; qt. 60c.

LITTLE GEM

Blue Bantam

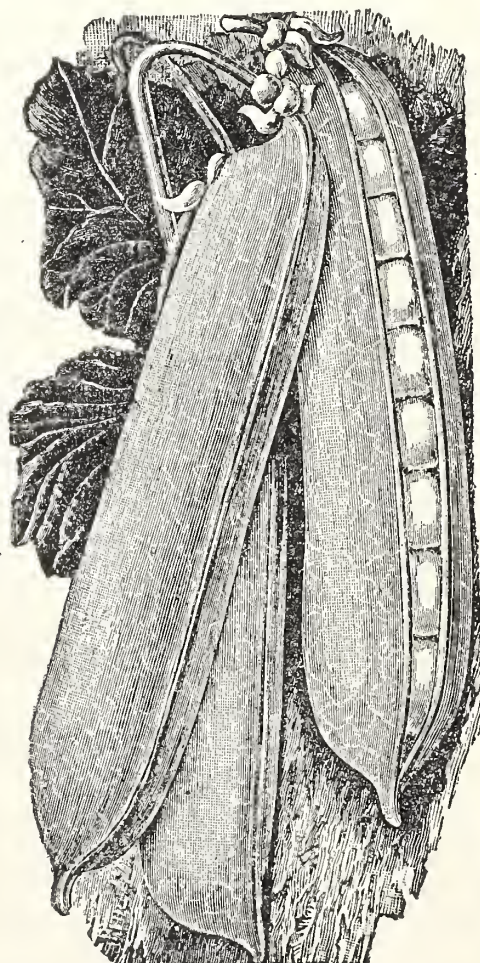

A splendid new pea of sturdy, dwarf growth, one of the best of the large podded early dwarf peas. The vines grow 14 to 16 inches tall, are dark green in color and wonderfully productive, bearing a profusion of handsome dark green pods which measure 4 to $4\frac{1}{2}$ in. long and contain from 8 to 10 very large dark green peas of superb quality. They mature a little earlier than Gradus with pods fully as large, they require no brush or support. You will plant this variety every year after once trying them out. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 45c.; qt. 70c.

See page 1

Jung's "Honey Sweet"

One of the best main-crop Peas to be had as they are truly of the most delicious flavor actually "sweet as honey". They grow a very healthy stocky vine about 18 inches high and require no support. The pods are produced in great profusion; they are 4 to $4\frac{1}{2}$ in. long and contain from 8 to 10 peas of most luscious flavor. A very heavy bearer, never failing to produce a crop of the giant pods. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

HONEY SWEET

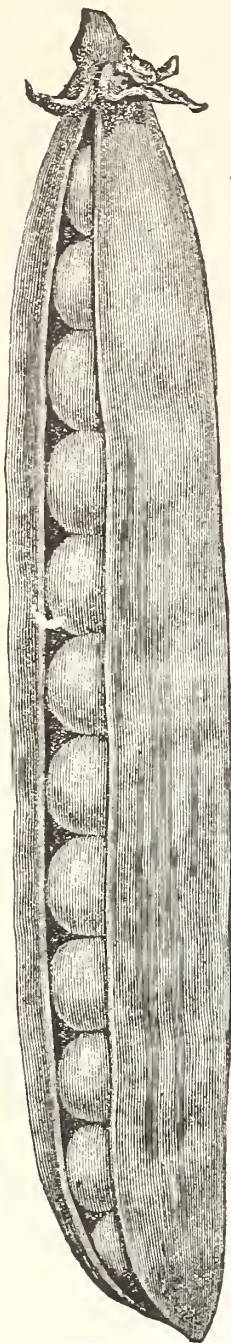

LUSCIOUS GARDEN PEAS—Continued

Jung's Dwarf Telephone

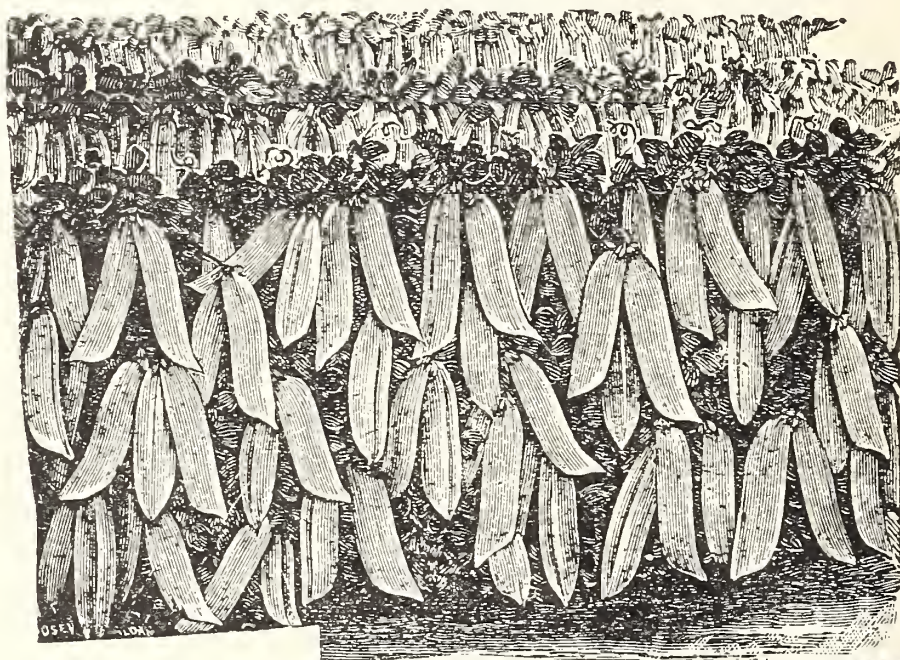

Another new pea of superlative merit. The well-known Telephone Pea has a large pod but also a long vine. This Pea has all the excellent qualities of the old Telephone but is dwarf in habit, bears stronger pods, more of them and we believe are far richer in quality. The height under ordinary culture is from 18 to 20 inches, requiring no brush. The pods are giant, often containing 10 large peas, thick, meaty and rich and of good lasting, quality for market purposes. The pea is of the largest size imaginable and of delicious flavor; when fit for the table it is deep green and presents a rich appetizing appearance. We know that this magnificent Pea will be hailed with delight by all market gardeners and city planters to whom we heartily recommend same. Pkt. 8c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

"LORD LEICESTER" The Giant Podded Pea

This is one of the largest podded varieties in cultivation and also a sure cropper. We have grown it for six years and it has never failed to produce a good crop. The plant is of branching habit, growing about five feet in height, with dark green foliage. It is of very vigorous and robust constitution which enables it to withstand drought and mildew. The pods are produced in great profusion, mostly in pairs, some measuring 6 inches in length and contain 9 to 12 peas. You will be delighted to show your friends such enormous pods of peas which in addition to large size, combine rich and succulent flavor, not surpassed by any other variety. For quality it is superb, the peas fairly melt in your mouth. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

LORD LEICESTER

BRITISH WONDER

British Wonder

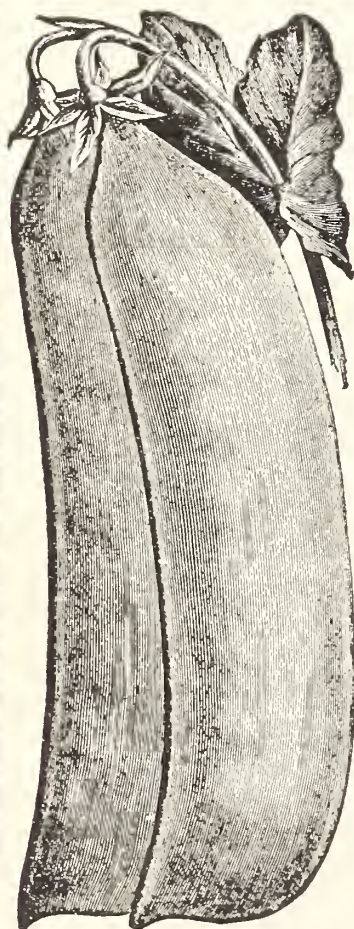

The Sweetest Pea in Cultivation. Even sweeter in flavor than either Gradus or Thomas Laxton. The growth is similar to Carter's Daisy, except the foliage is a darker green and the pods are not as sharply pointed. It is however, much more reliable and it is a **SURER CROPPER**. The vines are very stocky, 18 to 24 inches high and are well supplied with dark green foliage. Pods are produced in the greatest profusion, measuring about 4 inches in length and contain from 8 to 10 dark green peas each, which are of a most luscious flavor. Pkt. 7c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c., postpaid.

Everbearing

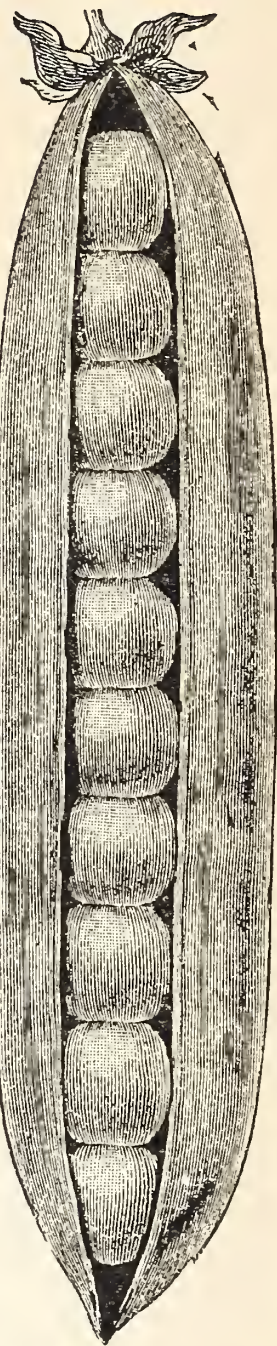

A fine second-early or main crop Pea which combines quality and yield and will continue bearing a long time if the pods are kept picked. It has a remarkable habit, sometimes forming as many as six stalks which accounts for its great yields. The pods are of good size and contain from eight to ten large peas which are of remarkable fine quality. Pkt. 7c.; $\frac{1}{2}$ pt. 20c.; pt. 35c.; qt. 60c.

Mammoth Melting Sugar-Edible Pod

This variety is far superior to all others of the edible class of garden peas, not only in size of pods but also in delicious quality. The large pods are sweet, brittle and tender and have none of the tough lining found in so many of the ordinary kinds. The pods are used the same as snap or string beans and will also make excellent pickles. The vines grow about four feet tall and are very productive. Full grown pods measure five inches long and are so tender and brittle that they snap like glass; they have no strings. The sweetness and tenderness of this edible-podded pea is unsurpassed. Pkt. 10c.; $\frac{1}{2}$ pt. 25c.; pt. 35c.; qt. 65c.

MAM. MELTING SUGAR

JUNG'S DWARF TELEPHONE

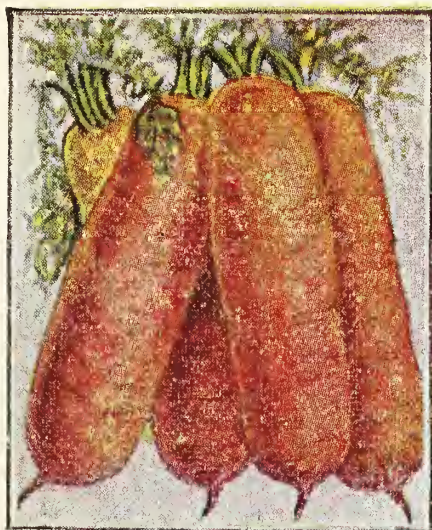

EVERBEARING

Special Offer No. 7

If you wish to have a continuous supply of sweet luscious Peas plant the following:

Little Marvel	Lord Leicester
Little Gem	Early Excelsior
Jung's Honey Sweet	
1 Pkt. of each for 30c.	
$\frac{1}{2}$ Pt. of each for \$1.00	
1 Pt. of each for \$1.60	
1 Qt. of each for \$2.95	

GOLDEN GIANT CARROT

BOUNTIFUL EVERBEARING BEANS

EXTRA EARLY EXPRESS PEAS

Garden and Flower Seed Specialties

MOLTEN FIRE--Tricolor

A wonderfully fine ornamental plant that is sure to attract attention wherever grown on account of its brilliant color. Plants grow rapidly and have bronze colored foliage until the plants attain a height of about 2 ft. when the tips of the branches open up like gigantic poinsettias taking on a bright scarlet and gold color. Pkt. 10c.; 3 pkts. 20c.

Mrs. H. W. Newton, Amherst, N. H.—The Aster seed purchased from you last spring was the finest I ever had, especially the "Betty Jung."

PEAS--Extra Early Express

A splendid extra early dwarf that will give you both quality and yield. Vines grow 12 to 15 inches tall and are heavily set with pods that contain 6 to 7 large deep green peas. You will be delighted with it. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 65c.

BUSH BEANS

Bountiful Everbearing

A very thrifty and hardy green-pod bean that is sure to yield a good crop. Comes into bearing very early and continues to bear for a long time. Pods are flat, 6 to 7 in. long, very fleshy, tender and stringless. Very popular for market as it is free from disease. Pkt. 10c.; ½ pt. 25c.; pt. 35c.; qt. 60c.

CARROT--Golden Giant

If you wish to grow some real big carrots that have quality and size then try Golden Giant. In deep mellow soil they will grow to weigh 3 to 4 lbs. and will be of the finest quality, free from core and stringiness. Will yield enormously. Pkt. 8c.; oz. 15c.; ¼ lb. 50c.; lb. \$1.75.

MOLTEN FIRE

Summer Azalea or Satin Flower

An easy growing annual that rivals the Azalea for beauty of its fine rose-like blossoms.. Seed may be sown in the garden and by June they are a mass of blossoms completely hiding the foliage. Blossoms shiny like satin, deep rose colored and remain in blossom a long time. Pkt. 7c.; 2 pkts. 10c.

Chinese Lantern Plant

A magnificent plant for the garden during summer or for pots in winter. They may be grown from seed and will fruit freely during the first season, in the fall they may be taken up, placed in pots and they will make superb plants as the bright colored "lanterns" remain on the plants a long time. Branches of the "lanterns" may also be cut and dried for winter bouquets as they retain their bright red color for a long time. Growing instructions on every packet. Pkt. 10c.; 3 pkts. 20c.

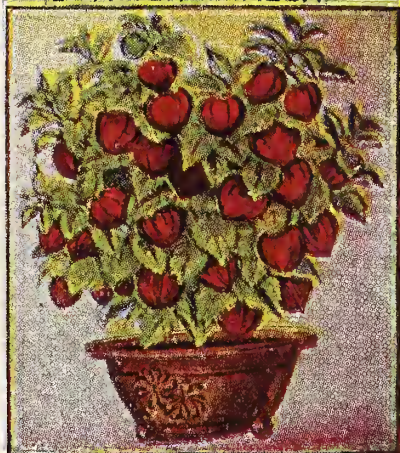

Betty Jung Asters

This new Aster outrivals anything we have seen yet in Asters and we have been growing and improving them for 17 years. The above cut is from a photograph of our daughter, Betty after whom we have named them; she is 3 feet tall and many of the flowers reached up to and above her head; it is by far the longest stemmed variety to be had.

The plants are very vigorous growers and instead of producing a large number of lateral stems the entire strength seems to go toward producing from 6 to 10 long main stems, each of which is crowned with one of the mammoth rose-pink flowers. The flowers are giant in size, very full and double and of very lasting quality; the type of flower is well shown in the illustration. White, Bright Rose, Shell-pink, Deep Purple and Mixed. Pkt. 15c.; ¼oz. 50c. Pkt. of each color for 35c.

SUMMER AZALEA

CHINESE LANTERN

BETTY JUNG ASTERS

GOLDEN PLUME CELERY

Golden Plume Celery

This is a fine new celery that we can recommend without reserve. It is fully a week earlier than Golden Self Blanching, is similar in color and flavor but is superior to it as this variety blanches more easily, is more blight-resistant. It has been especially selected for large solid hearts. Specimen stalks have been grown 2 ft. tall and $4\frac{1}{4}$ in. thick. Has been blanched in the remarkably short period of 5 days. Select Seed: Pkt. 12c.; $\frac{1}{2}$ oz. 35c.; oz. 50c.; $\frac{1}{4}$ lb. \$1.75.

CABBAGE

Disease Resistant Ballhead

This variety has proved to be very resistant to the cabbage disease known as "yellows" which destroys the crop in many sections. A splendid variety for shipping as the heads are solid as a rock, also an unusually good keeper. If you grow cabbage for shipping or want something that will keep through the winter, plant this variety. Pkt. 12c.; $\frac{1}{2}$ oz. 25c.; 1 oz. 45c.; $\frac{1}{4}$ lb. \$1.45.

SQUASH--Table Queen

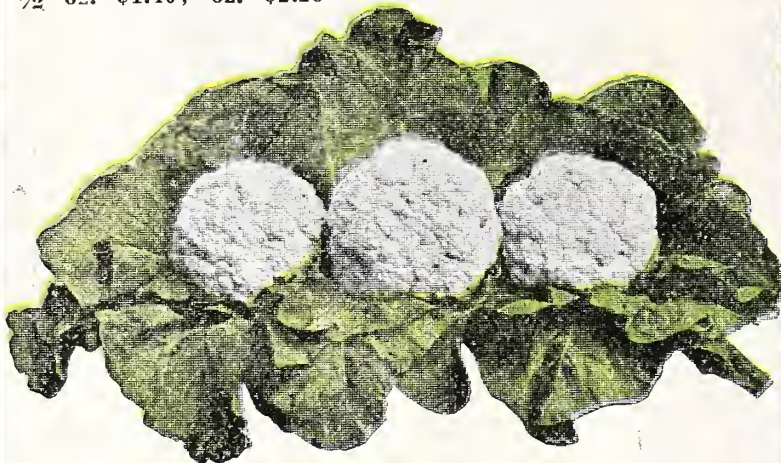

A squash that will suit the most exacting critic. Unexcelled for either baking or pies. If you want something in extra fine "eats" cut one of the squash in half, put in a lump of butter and bake, this serves one person amply. It ripens early, will keep all winter and is so productive that a few hills will produce enough for an average family. Pkt. 10c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

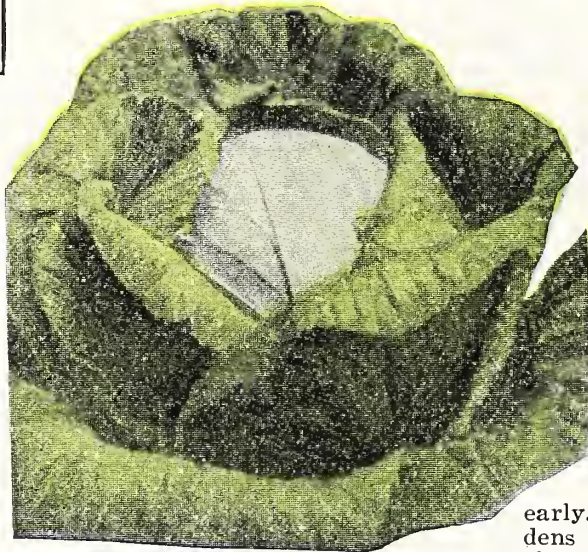

TABLE QUEEN

Jung's Pedigree Snowball Cauliflower

This we know from carefully conducted trials to be one of the finest strains of Snowball Cauliflower to be had. Our strain has been selected for extrem earliness, uniform solid heads and sureness to produce those fine white heads that always command top prices. Market gardeners who want the "very best" will not go wrong in planting our select strain. Pkt. 15c.; $\frac{1}{4}$ oz. 75c.; $\frac{1}{2}$ oz. \$1.40; oz. \$2.25

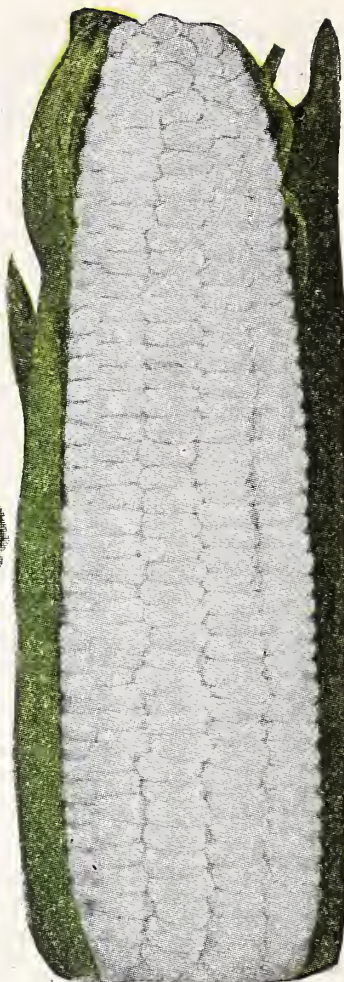

PEDIGREE SNOWBALL CAULIFLOWER

GOLDEN ACRE

DISEASE RESIST. BALLHEAD

DEL. EXTRA EARLY

SWEET CORN

Delicious Extra Early

After trying out many varieties we know this to be the most delicious and lusciously sweet corn of them all. As its name denotes it is both delicious and early. A splendid variety for small or city gardens as the stalks are dwarf and can be grown closer than most other kinds. Try it once and you will want it every year. Pkt. 12c.; $\frac{1}{2}$ pt. 25c.; pt. 40c.; qt. 70c.

CABBAGE--Golden Acre

A wonderfully fine, extra early, round headed cabbage being ready for cutting ahead of Jersey Wakefield. The heads are of good size, very round, solid and every one just alike. Plants grow very compact and may be set close together. Plant this cabbage for market and it will prove to be your "golden acre" as your crop will be ready to cut while prices are high. Pkt. 12c.; $\frac{1}{2}$ oz. 30c.; 1 oz. 50c.; $\frac{1}{4}$ lb. \$1.50.

CUCUMBER--Earliest of All

By planting this variety you can have cucumbers ready to use when most others are only in blossom. Not only is it extra early but it also produces fruits of fine quality and is very productive. Excellent for slicing or pickling and will continue in bearing a long time if fruits are kept picked. Pkt. 8c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.

EARLIEST OF ALL

Hardy Northern Grown Berry Plants

GUARANTEE—We guarantee all plants to reach you in good condition and will replace free of charge any damaged plants but complaints must be filed within 10 days after receipt of plants.

Perfected Mastadon

(See Front Cover)

The greatest Strawberry ever introduced. Will produce just as large a crop of berries in the summer and fall as ordinary varieties do in June. It produces large deep rooted plants that carry immense loads of the giant sized luscious berries. By planting this variety this spring you can have a large crop of fine berries this fall and unlike most other Everbearers they will give you just as large a crop next spring as any spring bearing variety. We have the genuine true stock but advise early orders. Guaranteed to give satisfaction. 25 for \$1.50; 50 for \$2.75; 100 for \$5.25, postpaid.

Champion Everbearing

The standard "Everbearing" variety that always gives satisfaction. It is very productive, berries are medium sized, deep rich red and of excellent quality and flavor. Will commence bearing three months after the plants are set out and will continue to bear until severe frosts in the fall. Guaranteed to give satisfaction. 25 for 90c; 50 for \$1.50; 100 for \$2.50, postpaid.

Jung's Wonderbearing

A strawberry that will delight all growers who want a variety that combines fine quality and great productiveness. These plants are very vigorous growers and seem to succeed almost anywhere; they grow upright and carry the fruit well from the soil; it is medium early in ripening. The berries are of large size, some specimens 2 inches in diameter, of extra fine quality and handsome appearance. We offer strong plants of our own growing; 25 for 60c.; 50 for 90c.; 100 for \$1.35.

Jung's \$2.00 Berry Collection

It costs almost as much to pack a few plants as a large order and so that you may benefit by this saving we are making a special offering of select plants at a greatly reduced price. If bought from tree agents this assortment would cost you at least \$3.50. This collection will be sent all charges prepaid for \$2 and consists of the following:

- 25 GIBSON STRAWBERRIES
- 6 VICTORY GIANT RASPBERRIES
- 6 CUMBERLAND BLACK RASPBERRIES
- 3 ST. REGIS EVERBEARING RASPBERRIES
- 25 CHAMPION EVERBEARING STRAWBERRIES

Complete instructions on "Growing Berries" will be sent free with each collection.

JUNG'S WONDERBEARING—top
GIBSON—below

Gibson

This is considered to be one of the best main crop varieties. In the big strawberry sections more Gibsons are planted than any other, it out-yields and out-sells all other berries on the market. The plants are extra strong growers and bear for a long time thus making a heavy yield. The berries are very large, of a beautiful red color and finest quality. We know you will not be disappointed with Gibson. We have some wonderful extra strong plants. Price 25 for 50c.; 50 for 80c.; 100 for \$1.25; 1000 for \$8.50.

Jung's Special STRAWBERRY OFFER

If you want the best to be had in Strawberries plant the following:

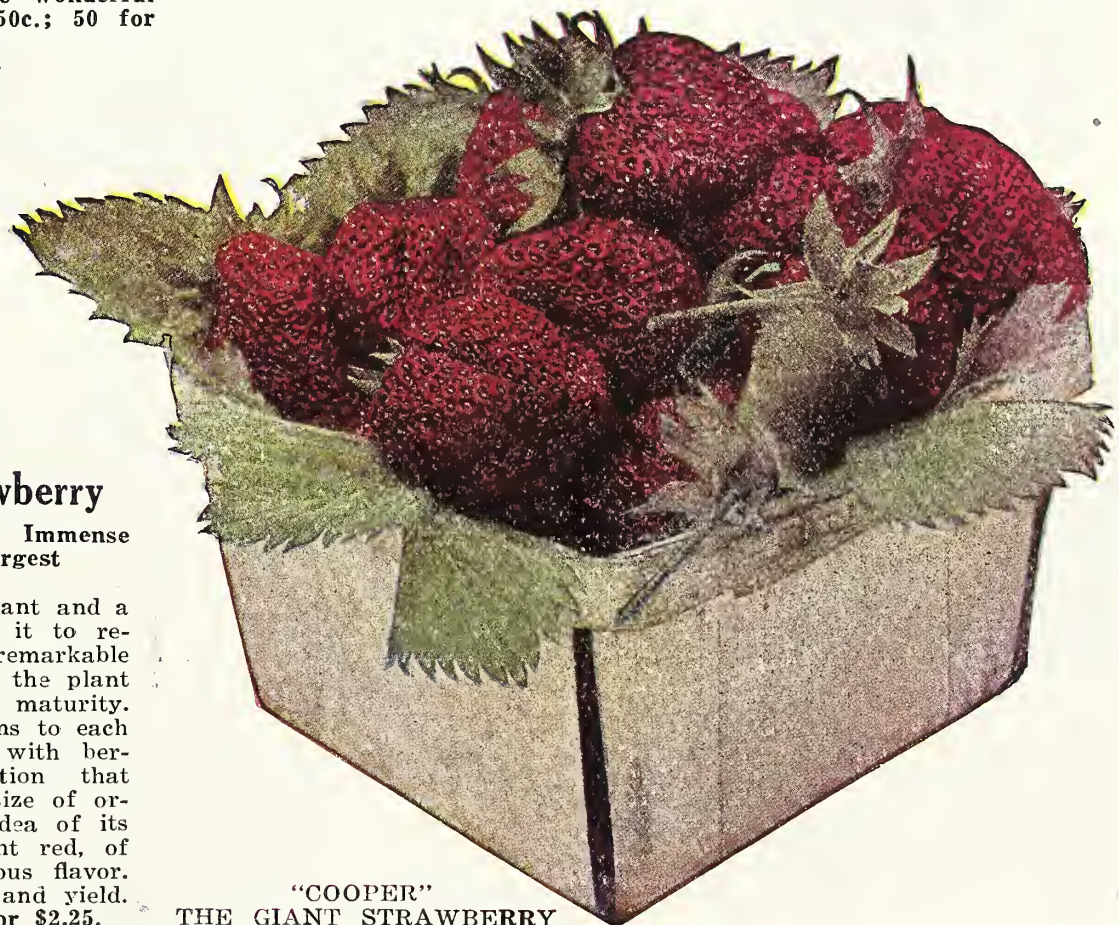

Mastadon Everbearing
"Cooper" The Giant
Jung's Wonderbearing
Gibson

"Cooper" The Giant Strawberry

The Wonder Among Strawberries. Immense Yields. Finest Quality. The Largest Berries of All

The Cooper makes an extra large plant and a wonderful root growth thus enabling it to resist drought. It is one of the most remarkable yielders as the remarkable strength of the plant gives it power to carry every berry to maturity. There are a good number of fruit stems to each plant and these are literally loaded with berries. When you take into consideration that Cooper berries are 2 to 3 times the size of ordinary varieties you can have some idea of its enormous yield. The berries are bright red, of the best quality and the most delicious flavor. Cooper is unexcelled for size, quality and yield. Price 25 for 75c.; 50 for \$1.25; 100 for \$2.25.

"COOPER"
THE GIANT STRAWBERRY

JAPANESE BARBERRY

Japanese Barberry

By far the most desirable and useful of all shrubs. Of neat, dwarf graceful appearance and handsome at all times of the year, excellent for hedges, borders for larger shrubs or grown in single specimens. Attractive deep green all summer followed by striking red berries in the fall which remain on the bushes all winter. This variety is recommended by the U. S. Government. Strong well branched plants, each 25c.; 3 for 65c.; 12 for \$2.25. Extra large plants each 35c.; 3 for \$1.00; 12 for \$3.00; 25 for \$5.50 not prepaid.

WIEGELA

HYDRANGEA

HYDRANGEA--Paniculata Grandiflora

This is a grand plant, very showy and attractive, lasting in bloom for months. It is very hardy, enduring the severest winters without protection. Easily transplanted and never fails to bloom the first year planted. The immense blossoms appear in July when few other shrubs are in blossom and remain in flower until destroyed by frost. The flowers are pure white, changing to pink and are borne in immense clusters. Each 35c.; 3 for \$1.00, doz. \$3.85

WIEGELA--Rosea

A very desirable and easily grown shrub that is gaining in popularity every year. The rose colored trumpet shaped flowers appear in wonderful abundance during June and July; forms neat plants 5 to 6 feet high. Each 30c.; 3 for 75c.; doz. \$3.00.

Hardy Northern Grown Ornamental Shrubs and Vines

In planting shrubs the tops should be severely pruned back, unless this is done perfectly good shrubs will often fail to grow. If desired we will properly trim the shrubs when we send them out, if wanted trimmed please state this on your order.

We offer a list of the most popular and highly desirable ornamental shrubs and vines. They are of our own growing and are very hardy. They are all strong 2 and 3 year old field grown plants and should not be compared to small 1 year plants that are often offered at low prices. We guarantee them to reach you in good condition.

NOTE—We send out plants and shrubs as early in the spring as we can dig them, usually April 1 to 10th. This may seem late to customers living in the south but as the plants are in a dormant state they are sure to grow.

AMOOR PRIVET

Mrs. M. W. Bowman, Spencer, W. Va.
—I find your shrubs and seeds the nicest of any I have ever bought.

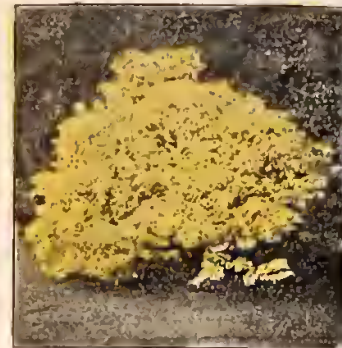

Mrs. W. C. Shanly, Binghamton, N. Y.—I can recommend your shrubs very highly as I received them very promptly and in fine shape.

Persian Lilac

One of the finest lilac grown. It grows 3 to 6 ft. tall and does not spread all over your lawn like the common kinds. Flower heads are very large and borne in great profusion. Very graceful. Each 60c.; 3 for \$1.50.

PERSIAN LILAC

GOLDEN LEAVED SPIREA

Golden Leaved Spirea

The foliage of this shrub is a bright golden yellow and in June the branches are covered with double white flowers. This is one of the finest golden-leaved shrub and excellent for planting among other shrubs as the contrast of yellow and green is very conspicuous and pleasing. Each 25c.; 3 for 65c.; 12 for \$2.35.

P. A. Ackerman, Arlington, S. D.—The Wistaria I got from you last spring is now about 12 ft. tall, also the Lawn Grass is doing fine.

SPIREA VAN HOUTTEI

Spirea Van Houttei or Bridal Wreath

One of the best known and most useful shrubs as it succeeds everywhere. Fine for setting singly or among other shrubs, very largely used in all landscape work. It forms a round and graceful bush with drooping or arched branches which in June are completely covered with snow-white blossoms. Will fit in wherever graceful effect is desired and always gives satisfaction. Extra strong plants each 25c.; 3 for 65c.; 6 for \$1.25; 12 for \$2.25.

Philadelphus or Mock Orange

A tall, vigorous and hardy shrub. It grows very rapidly and in May and June the bushes are covered with large white flowers very much like orange blossoms, very fragrant and fine for cuttings or bouquets. This is a valuable shrub for backgrounds, grouping or specimen plants. They not only make a grand display at flowering time but they continue to please with their attractive foliage. Strong bushy plants; each 30c.; 3 for 75c.; doz. \$3.00.

WISTARIA--Chinese Purple

A rapid growing vine unsurpassed for beauty, excellent for pergolas, porches or trellises as it has a tightly clinging habit. It is very hardy and lives to a great age, doing as well in the city under unfavorable conditions as in the country. They are especially ornamental in the early summer when the vines are covered with the large drooping blossoms. Strong 2 yr. old plants; each 35c.; 3 for \$1.00; 12 for \$3.50.

PHILADELPHUS --MOCK ORANGE

DUETZIA

Amoor River Privet

This is the well known hardy Privet and the only one suited for planting in the North. Very largely used for hedges and ornamental plantings as it can be pruned to suit your fancy, the more you prune it back the bushier it will grow. Leaves are bright, glossy green and not subject to blight. 3 for 40c.; 10 for \$1.00; 100 for \$9.50.

DUETZIA

Pride of Rochester

The most popular and also the most vigorous variety. Excellent to grow as a specimen as it will grow 5 to 6 feet tall in good soil. It has large double white flowers which are produced in great profusion along the stems. A very beautiful and useful shrub. Each 30c.; 3 for 75c.; doz. \$3.00.

Snowberry

A valuable and desirable shrub with pink flowers which are followed by large white wax-like berries which hang on the plant through fall and most of the winter. Grows 3 to 4 feet high, very showy and succeeds almost anywhere. Of special value for planting in shady places where few other shrubs will grow. Strong bushy plants each 25c.; 3 for 70c.; 12 for \$2.40.

Mrs. Frank Hillman, Greenwich, N.Y.
—The shrubs we ordered from you last year came through fine and we are very much pleased with the shape and size; have proved to be the best shrubs we have.

The Fragrant Cinnamon Vine

Cinnamon Vines are the most desirable, easiest grown climbers in the world. No words can describe their delicious fragrance. Perfectly hardy, thriving in all soils, in sun or shade, wet or dry, no insects, blight or disease of any kind will ever trouble them. Large tubers will quickly climb 30 feet or more and surround your windows and cover your porches, walks, etc., with a mass of vines, covered with pretty heart-shaped leaves, making them perfect Bowers of Beauty. They have a charm unknown to all climbers. The tops die down in the fall but grow again very rapidly in the spring, often growing 10 or more inches in a day. Plant a half-dozen under that sunny window. Extra strong tubers, each 10c.; 3 for 25c.; doz. 90c.

LAWN GRASS

Jung's Fairfield Special Mixture

ALWAYS GROWS, ALWAYS THRIVES, HARDY DEEP VELVETY GREEN, SURE TO PLEASE

Our mixture combines the very best varieties of grasses suitable for the purpose of making a lawn beautiful in appearance, durable and lasting, which will stand the frosts of winter and the hot sun of summer, showing a deep, rich green at all seasons. The seed used is PURE AND HEAVY and is especially cleaned. This mixture weighs from 25 to 27 pounds per bushel, is of strong vitality and makes a quick, healthy growth. One pound of our seed weighs as much as two quarts of other seedsmen's brands. It contains the right quantity of White Clover but no Timothy or other cheaper grass seeds. Nothing better to be had. Lb. 45c.; 5 lbs. \$2.00, postpaid. Not prepaid; Lb. 40c.; 5 lbs. \$1.75; 25 lbs. \$7.50.

WISTARIA

Shady Spot Lawn Grass

This is a mixture carefully prepared for sowing under large trees and other heavily shaded places where ordinary grass will not thrive. Lb. 60c.; 5 lb. \$2.75, postpaid.

Fancy Wisconsin White Clover

For some lawns, especially in poor clay soil, it is advisable to use White Clover liberally. For renovating old lawns it is especially valuable as it will take hold where other grasses will fail. Fancy Seed: 1/4 lb. 20c.; 1/2 lb. 35c.; 1 lb. 60c.; 5 lbs. \$2.75 postpaid.

GIANT VICTORY

Early King Raspberry

Acknowledged by most to be the most profitable Red Raspberry. In the big berry growing section of Michigan over 75 per cent are King which is the best endorsement of its superiority. The King ripens early and owing to its wonderful productiveness continues in bearing for a long time. The berries are very large, firm, bright red in color and very easily picked. They are delicious whether eaten fresh or preserved. It is the most profitable commercial variety and for home use cannot be surpassed. If you want a big supply of the finest red raspberries plant Early King. Price 6 for 40c.; 12 for 75c.; 50 for \$2.00; 100 for \$3.50.

Miss Eeva Fellenz, Waunakee, Wis.—The shrubs I got from you are just fine; please send me another half dozen Spireas.

The New Giant Victory Raspberry

This new variety is a seedling of Cuthbert and but for several seasons resembles it very much has produced twice as many berries bush for bush. It produces very large berries and has proved to be very hardy. Produces the largest berries of any red variety and also grows strong healthy bushes. 6 for 50c.; 12 for 80c.; 100 for \$4.75.

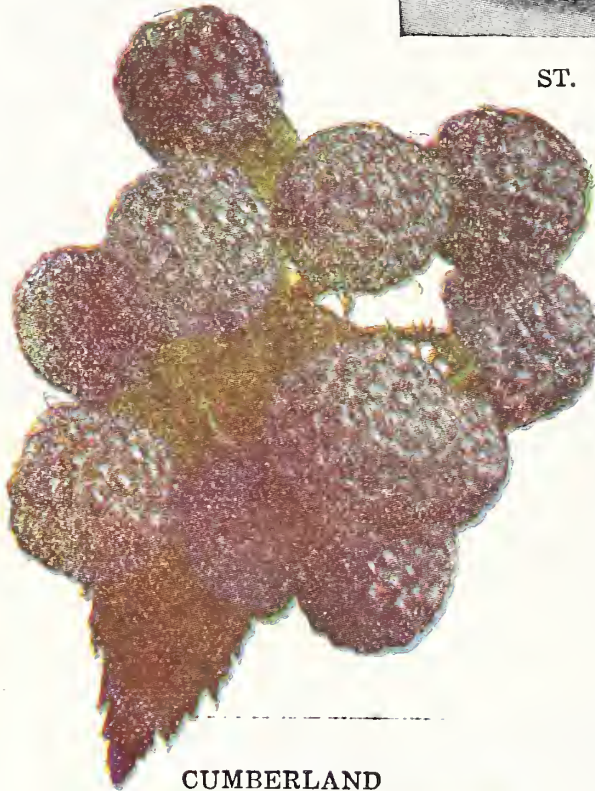

ST. REGIS EVERBEARING

St. Regis Everbearing Raspberry

This new red raspberry will give you a fine crop of fruit from June until the berries freeze in the fall. A wonderful variety as fruit commences to ripen with the earliest and continues bearing on the young canes until October. Berries are bright crimson in color, large size, flesh very firm and meaty and of fine raspberry flavor. The canes are very vigorous growers and well covered with heavy green foliage. St. Regis is a very heavy bearer in the regular berry season and besides will also give you a crop in the fall when fresh berries are always welcome. 6 for 50c.; 12 for 85c.; 50 for \$3.00; 100 for \$5.50.

A great part of growing a profitable crop of berries depends on properly setting out and caring for the crop. Unless the right care is given the best plants will not produce a satisfactory crop. To assist you in every way we have prepared a set of complete cultural instructions for small fruits and will send same free with every order for plants.

CUMBERLAND

Cumberland Black Raspberry

The largest black raspberry grown. This is offered with the full assurance that it is the most desirable variety, because of its immense size, fine quality and great productiveness. It is a wonder in size of berries and vigor of growth and is as hardy as any variety grown. Fruit is jet black and of extra fine quality. Every garden should have some of the fine berries. Black raspberries can be easily grown and make a profitable crop to grow for market. 6 for 40c.; 12 for 75c.; 50 for \$2.00; 100 for \$3.75.

The Great Concord Grape

The best known and most widely grown grape in cultivation. It is hardy and succeeds everywhere. Bunches are large and compact, fruit large and purplish black. It's easy to grow grapes and everyone should set out a few plants. Price of strong well rooted plants 3 for 40c.; 12 for \$1.50.

CONCORD GRAPE

Rhubarb or Pie Plant

A few Rhubarb plants should be in every garden. They are excellent for pies or sauce and are ready for use at a time when no other fresh fruits can be had. Price 3 for 25c.; 12 for 85c.

Mrs. A. F. Porter, Wyocena, Wis.—I have had some of your berry plants and they are the best I ever had.

RHUBARB OR PIE PLANT

WASHINGTON ASPARAGUS

Washington Asparagus

This new Asparagus has taken the country by storm as it is rust-proof and produces bigger stalks and larger crops than any other variety. This variety is the result of many years work by the U. S. Dept. of Agriculture and fortunate indeed is the gardener who will get started with it as it will surely displace all other varieties. The stalks grow to a very large size, yet they remain so crisp and tender that they may be eaten raw. We have some very choice strong roots of our growing but advise early orders. 25 for 65c.; 50 for \$1.25; 100 for \$2.00; 1000 for \$12.50.

JUNG'S SUPER GIANT GLADIOLI

GLADIOLI

There is no bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Culture instructions will be sent with each order.

GOLDEN MEASURE—A giant flowered deep golden yellow gladioli, conceded to be one of the best glads ever introduced. Flowers are large, well arranged and many open at one time. Very strong growers, on our farms many were over 5 ft. tall. Each 25c.; doz. \$2.50; 100 for \$8.50.

MARY PICKFORD—Another new "glad" that is well worthy to be classed among the best varieties. The flowers are light cream with a sulphur-yellow throat. They are produced on a long straight spike and 6 to 8 open at a time. You will be delighted with this variety. Each 20c.; doz.; \$2.00; 100 for \$7.00.

E. J. SHAYLOR—The largest flowered deep rose pink variety. Grows very tall and has many of the giant ruffled flowers open at one time. Each 15c.; doz. \$1.50; 100 for \$6.00.

WHITE GLORY—A pure glistening white variety without a blemish and should be included in every collection of the best varieties. Flowers are large, pure white and of good substance. The best white variety. Each 20c.; doz. \$2.25; 100 for \$8.00.

ROYAL PURPLE—This is one of the best of the newer introductions. Flowers are of immense size and a rich blue or purple color. A very strong grower, stalks are straight and the flowers are well placed. Each 25c.; doz. \$2.25; 100 for \$7.50.

MRS. DR. NORTON—If you want something dainty and delicate this variety is sure to please. Flowers are pure white with tips of petals suffused La France pink. A wonderful variety. Each 15c.; doz. \$1.50; 100 for \$6.50.

CHEERFUL—This we consider one of our very best glads; a bouquet of these flowers will cheer up the most gloomy room. Flowers are of immense size, well placed on long straight stems and of a bright live red color. We know you will be delighted with it. Each 20c.; doz. \$2.00; 100 for \$6.75.

GLADIOLI OFFER NO. 1

The above 7 varieties are the best to be had in Gladioli.
1 Strong Bulb of Each (7 in all) for \$1.00

GLADIOLI OFFER NO. 3

One strong bulb of each named variety, (14 in all), each wrapped separately for only \$1.40.

Jung's Super Giant Gladioli

This is without any exception the finest mixture of Gladioli, it has been put up for those who wish to have the best to be had. No matter what price you pay you cannot get anything better. It is made up of only the very best giant flowering varieties and includes all colors such as white, yellow, shell-pink, rose, fiery red, coral-pink, orange, purple and many others. Many of them will grow 4 to 5 feet tall and produce flowers 5 inches and more across. The mixture is carefully put up so that if you would order a dozen bulbs no two would be alike. These are all strong select bulbs and we will replace free of charge any that fail to blossom. If you wish a real surprise in Gladioli plant this select mixture. 6 for 55c.; 12 for \$1.00; 50 for \$3.50; 100 for \$6.75 postpaid.

GLADIOLI OFFER NO. 2

The 8 varieties listed below are all fancy large flowering "Glads" and are sure to please.

1 Strong Bulb of Each (8 in all) for 50c.

LE MARSHAL FOCH—An improved America. Immense spikes, 2 to 3 feet long, single flowers measure 5 inches across. Delicate shell-pink. Each 10c.; doz. \$1.00; 100 for \$4.50.

VELVET PRINCE—A very beautiful variety that must be seen to be appreciated. Flowers are of large size and a violet color overlaid with red. Strong grower and is very showy. Each 10c.; doz. \$1.00; 100 for \$4.75.

GOLDEN WEST—The largest and strongest growing yellow Gladioli. Flowers large, pure canary yellow. Lower petal marked with scarlet. Each spike produces 15 to 20 flowers. Each 8c.; doz.; 75c.; 100 for \$4.50.

MRS. FRANK PENDLETON—Given the highest award by the American Gladioli Society as the most beautiful variety. Delicate salmon-pink with blood red blotches on lower petals. Flowers and spikes are of giant size. Excellent for decorating. Each 10c.; doz. \$1.00; 100 for \$4.50.

MRS. FRANCES KING—Of exceptional value for cut flowers. Color is a very pleasant light scarlet. Individual blossoms are five inches in diameter and sometimes larger. Spikes produce 12 to 18 flowers and grow four feet high. Flowering is continuous. Each 7c.; doz. 60c.; 100 for \$3.75.

PANAMA—The best deep pink or rose colored variety and attracts attention wherever shown. Spikes are long with flowers large and well arranged. Each 7c.; doz. 75c.; 100 for \$4.25.

PRINCE OF WALES—An early flowering sort producing fine spikes and large flowers of a delicate salmon pink. Very showy on account of its beautiful color. Each 10c.; doz. 75c.; 100 for \$4.25.

VELVET KING—Deep blood red, shaded with crimson. Flowers open very wide and are of enormous size. Each 8c.; doz. 90c.; 100 for \$4.25.

Jung's Super Giant Mixed Zinnias

This is one of the finest mixtures of Zinnia seed to be had. It contains seed of all of those shown above besides many other colors. If you want glorious color around your house from early summer until frost plant some of these Zinnias. As they are produced on long stout stems they will make excellent bouquets for living up any room. Pkt. 10c.; 3 pkts. 25c.

JUNG'S SUPER GIANT ZINNIAS

Jung's Super Giant Zinnias

Our sales on the truly Giant flowered Zinnias are increasing every year. People who saw them in flower in our fields were amazed at the giant size of the flowers and brilliant colors. The plants make a strong growth and form compact bushes 2 to 3 ft. tall, the flowers are born on stiff stems well above the foliage. For a wealth of flowers plant them in rich soil, give frequent cultivations and lots of water and you will be surprised at the results. Flowers are often 5 to 6 inches across. They will be a glory to behold from early summer until frost.

CANARY BIRD—A lovely shade of primrose or lemon, very large flowers and holds its color for a long time. Pkt. 15c.

EXQUISITE—One of the most pleasing as regards form and size. Light rose with deep rose center. Pkt. 12c.

DREAM—A very attractive and desirable shade. Light lavender changing to purple. Pkt. 12c.

METEOR—A rich, deep glowing red and the darkest of all red shades. Flowers very large and produced in abundance. Pkt. 15c.

ORIOLE—Well worthy of the beautiful bird for which it was named. Immense, orange and gold bicolor flowers, but changing as the flowers grow older. Pkt. 15c.

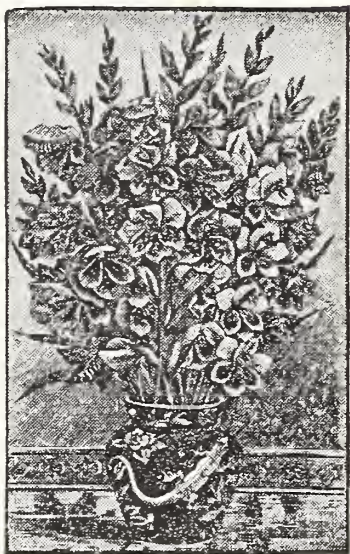

POLAR BEAR—Decidedly the best pure white Zinnia. For size, color and free blooming it stands supreme. Pkt. 15c.

SPECIAL OFFER No. 11

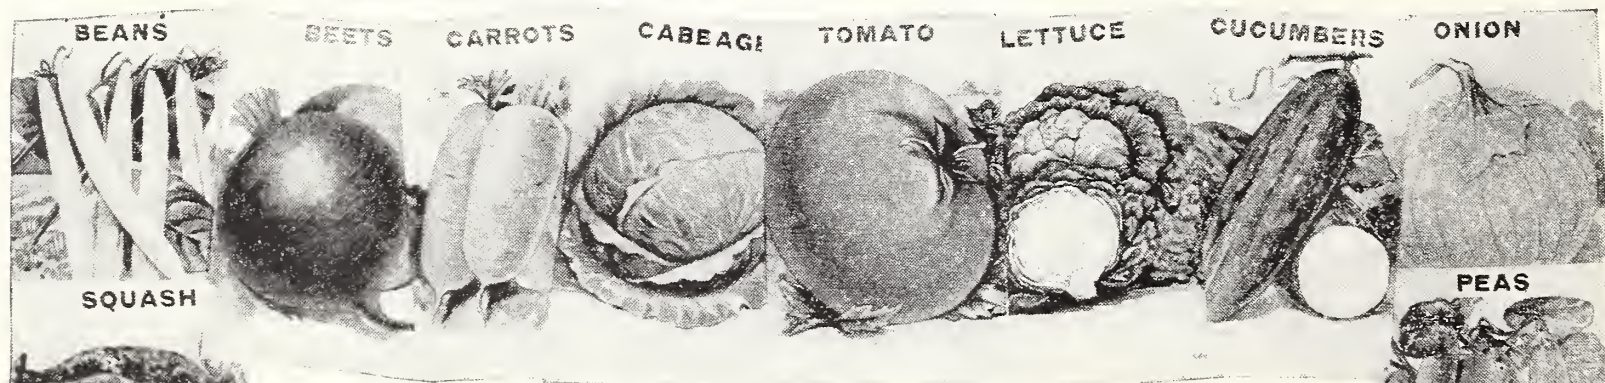

One packet of each of these six great Zinnias for 60c.

Jung's Supreme Mixed GLADIOLI

Many of our customers want a choice assortment of Gladioli at nominal expense and we have therefore made up a very choice lot of different types and colors. This is not made up of odds and ends and should not be confused with mixtures usually offered. We do not hesitate to recommend this mixture in every way. 6 for 25c.; 45c. per doz.; 50 for \$1.25.

SUPREME MIXED

Jung's Earliest Garden Collection

PEPPER

Harris Earliest

The earliest of all, being earlier than Neapolitan. Plants are very uniform in growth dwarf and compact, rarely over 18 inches tall. It is a very heavy bearer and as the plants can be set close together a very large crop can be grown on a small space. The fruits are of good size, $3\frac{1}{2}$ in long, by $2\frac{1}{2}$ in. in diameter. Flesh is thick and very mild and sweet. If you want Peppers early and lots of them plant Harris Earliest. Pkt. 12c.; $\frac{1}{2}$ oz. 50c.; oz. 85c.

HARRIS EARLIEST

World Beater

The very best extra large pepper being a cross of Chinese Giant and Ruby King, having the longer form and earliness of the latter with the size of the former. Fruits are of immense size, 4 to 5 inches long by $3\frac{1}{2}$ to 4 inches in diameter; flesh is very thick and so mild and sweet that it may be eaten like an apple. When ripe they are bright red in color and present such a fine appearance that they sell readily on all markets. Exceedingly productive and a good shipper. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.

WORLD BEATER

Golden Queen

Golden Queen is the Best of all Yellow Peppers. It is always large and sometimes remarkably so, specimens reaching six to ten inches in length and four to five inches are not uncommon. A single plant sometimes carries Twenty Large Peppers at the same time. The flavor is mild and pleasant and it may be eaten raw. It always commands the highest price on account of its large size and fine appearance. It is unexcelled for stuffing. Pkt. 8c.; $\frac{1}{2}$ oz. 25c.; oz. 50c.

Long Red Cayenne

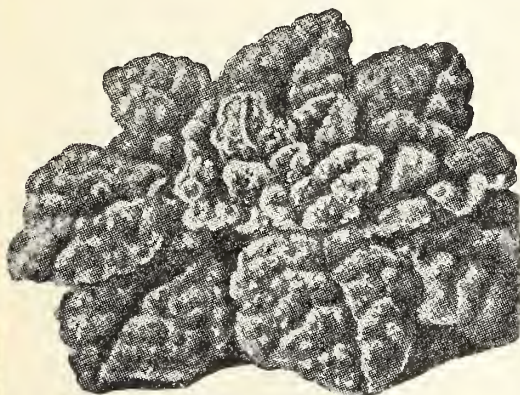

This is the pepper so popular for seasoning and pickling. The peppers are long and slim, bright red when ripe and have a hot pungent flavor. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.

EARLY GIANT

Early Giant

By far the largest early Pepper grown. The fruits will average as large as Ruby Giant but are ready to pick much sooner than that variety, the shape is very much like Chinese Giant. Plants grow rather dwarf and compact and are much more productive than most of the large fruited peppers, many plants bearing 12 of the immense peppers at one time. It ripens right after Harris Earliest, which is the earliest pepper grown, fruits average 5 inches long by $3\frac{1}{2}$ inches in diameter, of a deep glossy green color turning to bright crimson when matured. The flesh is thick, sweet and of pleasant flavor. Probably one of the most profitable varieties to grow for market. Seed crop very short, in pkts. only. Pkt. 15c.

KING OF DENMARK

SPINACH

King of Denmark

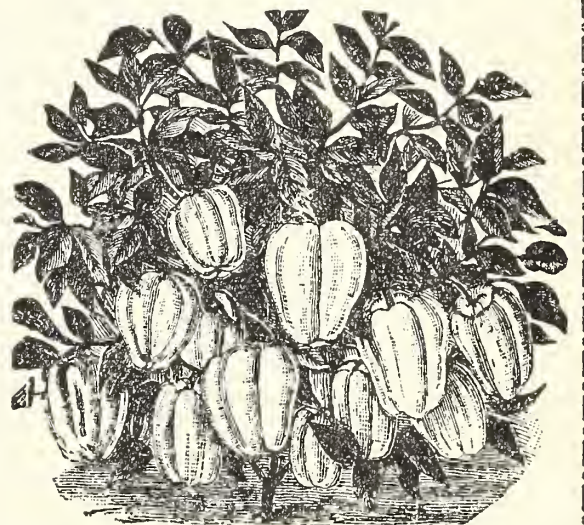

A remarkable new Spinach that is far superior to all of the older kinds. Its great advantage is that it will stand 2 weeks longer before running to seed than any other variety. It also grows larger and will outyield all other varieties. The leaves are large, deep green and crumpled in appearance, it is ready to use as early as any other kind. For productiveness and quality it is unexcelled. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 25c.; lb. 75c.

Victoria

This is a handsome variety, the leaves being of an exceedingly dark green color and has very long standing qualities. The foliage is heavy, the wide dark green leaves are wrinkled like a savoy cabbage and are of the finest quality. It produces nearly twice the bulk of crop as the ordinary sort and will remain in prime condition for a very long time. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 20c.; lb. 50c.

VICTORIA

GOLDEN QUEEN

Pleasure in Gardening!

THE GREATEST JOY IN GARDENING consists in being able to go right out into your garden and pick the choicest the season affords, fresh, crisp, with all the good qualities nature puts into vegetables. Garden making is not difficult if you follow the simple instructions which we send free with every order of 25c or more.

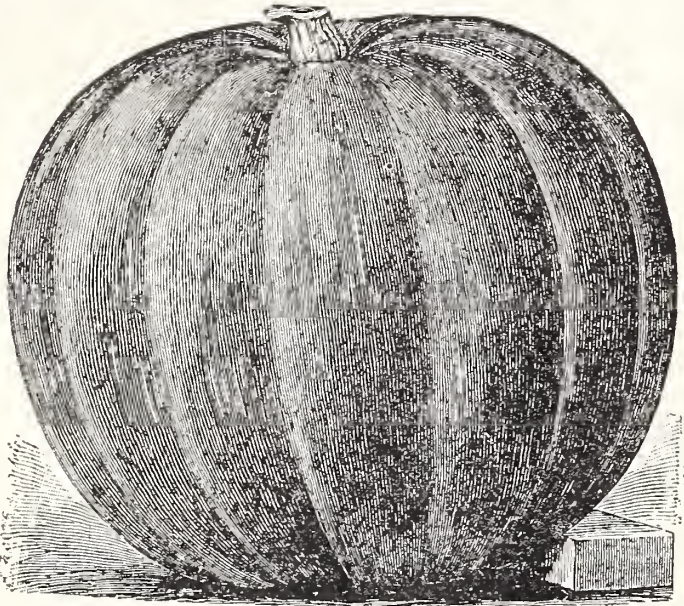

F. A. Denton, McCook, Nebr.—I sure have had great success with JUNG'S seeds, have used them 8 years and going to try this 9th year.

PUMPKINS

True Mammoth

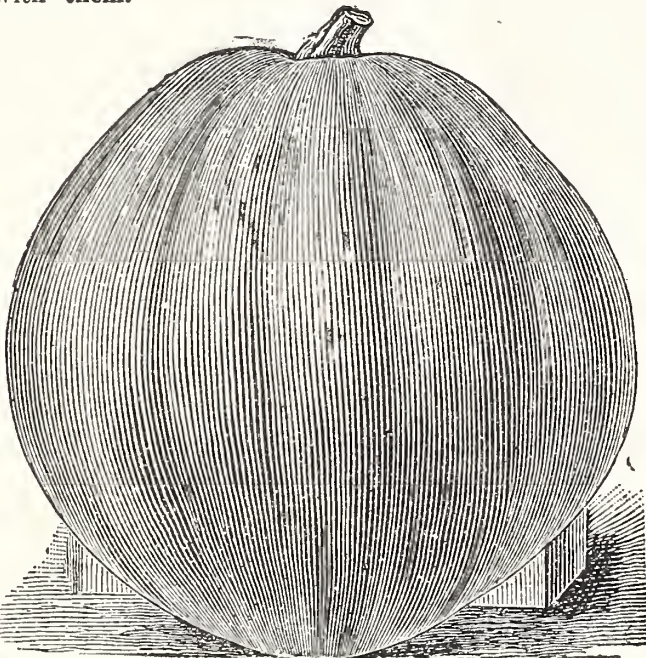

The Largest Pumpkin in Cultivation

This is a true Mammoth Pumpkin. Fruits grow to enormous size; specimens have been grown weighing 100 pounds and over. The skin is a light yellow russet color; flesh very thick, bright yellow, fine grained, sweet and tender and of excellent quality for pies. If you wish to see just how large a pumpkin you can raise try this variety. Pkt. 7c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

TRUE MAMMOTH

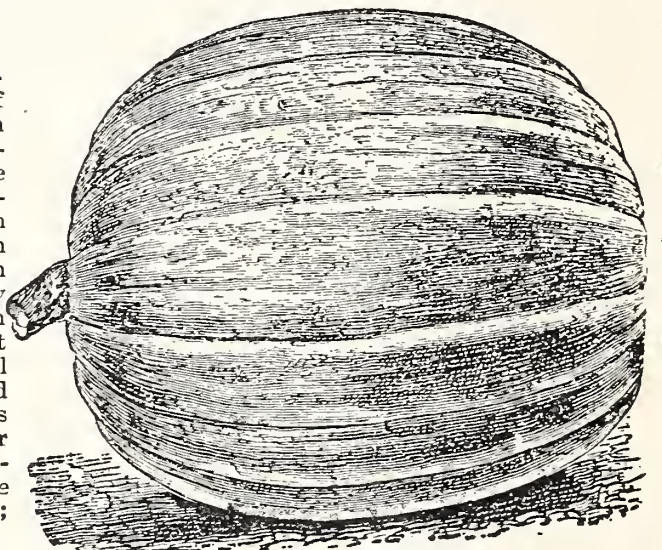

E. O. Swayze, Gillett, Pa.—Wish to say that in using your seeds for the past 7 years am more than pleased with them.

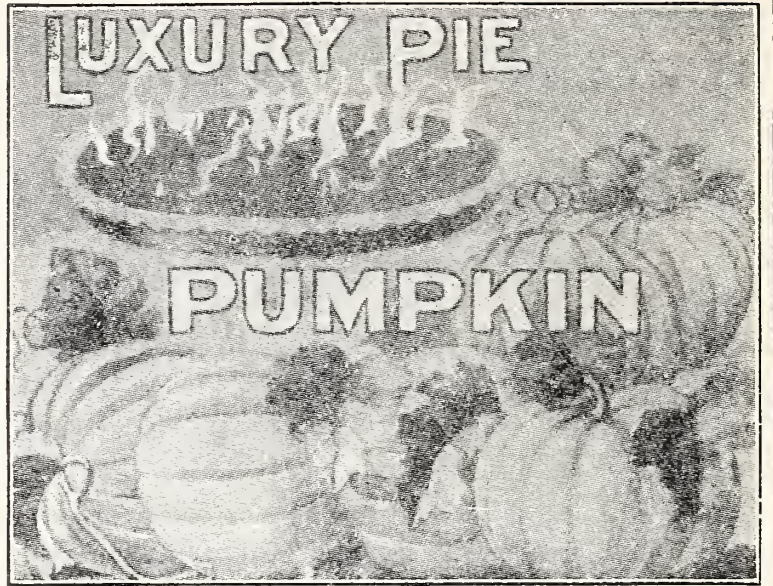

QUAKER PIE

Big Tom

Also known as Connecticut Field. Vines are of strong, vigorous growth and wonderfully productive. Fruits will average 15 to 20 inches in diameter, round or oval in form. The skin is smooth and hard, of a reddish orange color, slightly ribbed with thick, rich orange yellow flesh. It is the hardest of all pumpkins and is good for pies. This variety is grown extensively for stock feeding and is generally planted with the corn. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

BIG TOM

Luxury Pie

This is the very best Pumpkin that has ever come to our attention. It is enormously productive, medium in size being about ten inches in diameter, almost globe shaped and ripens early. The skin is finely netted and in color a beautiful golden russet, which is a sign of finest quality. The flesh is very thick, sweet and sugary and deep golden in color. An excellent keeper for winter use. If you want some delicious pies for Thanksgiving day plant LUXURY PIE. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

Quaker Pie

A most prolific variety. The fruits are broad, pear-shaped or slightly oval in form. The flesh is very thick and fine grained; of a beautiful golden yellow color; in texture and flavor peculiarly adapted for pie making purposes. It is very prolific and keeps well for winter use. It is sweet and delicate in flavor. Skin is a rich cream buff giving it a handsome appearance. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.

Our Shrubs and Seeds Grow

Susie Lackas, Eau Claire, Wis.—The Bridal Wreath I had from you last year were just fine, am ordering more shrubs.

Altha Conn, Uhrichsville, Ohio.—Received the shrubbery from you last week, it came thru in fine shape.

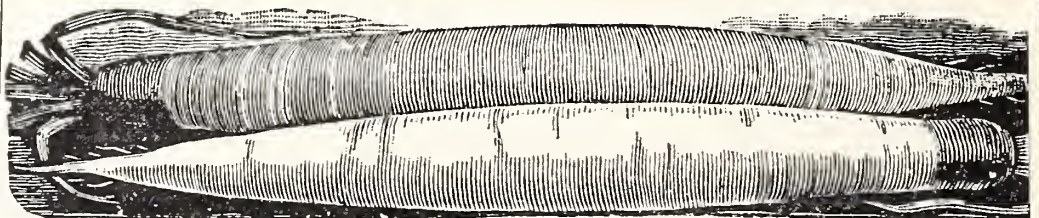

Wm. F. Timmermeier, St. Louis, Mo.—The Gladioli bulbs from you last year were just lovely, every one going past spoke of them.

Minnette Warren, Medina, Ohio.—My shrubs came and look just fine.

Mrs. Matt. Kwitckak, Holdingford, Minn.—Used your seeds last year with wonderful results.

Mrs. M. W. Bowman, Spencer, Va.—Find your seeds and shrubs to be the nicest I have ever bought.

Jessie Pursell, Farmingdale Ill.—Your shrubs arrived in fine condition and they were extra fine.

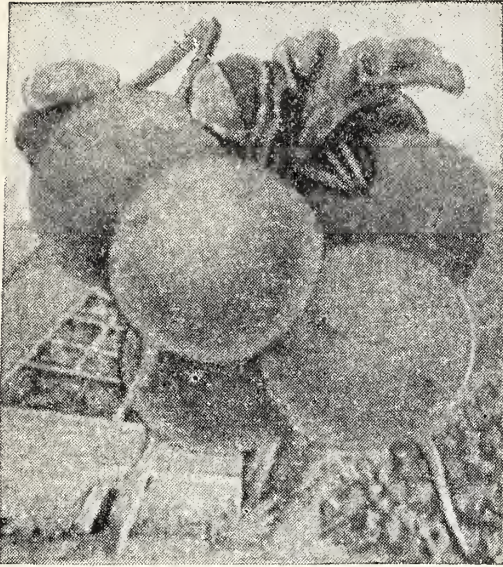

SALSIFY

SALSIFY

Mammoth Sandwich Island

One of the most delicious vegetables and also one of the most nutritious. The flavor is very sweet and highly esteemed whether boiled with butter or other suitable sauces, or sliced and fried or used in soup. The new variety is superseding the old type, as it produces roots nearly double the size and weight and of equally good quality. Seed sown in the spring produces large fine roots that may remain in the ground or may be dug and stored in sand or earth in November thus keeping plump and sweet to be used as desired during the winter. Mild and delicious in flavor. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 40c.; lb. \$1.50.

JUNG'S RAPID RED

Jung's Rapid Red

This we find to be the quickest maturing of all, Radishes having been grown in the short period of 18 days from the sowing of the seed, fit for the table. However, its earliness is not its only good feature as it is also of elegant shape, finest quality and a rich red color. Taken in all it cannot be excelled for both the garden and forcing under glass. Its attractive color and small tops make it especially desirable for forcing. The flesh is pure white, very crisp and tender. If you want to be the first on the market with Radishes that will command fancy prices then plant "JUNG'S RAPID RED" Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.00.

Extra Early White Delicious

A splendid new olive-shaped radish, pure white in color. Very early as it has produced radishes fit for pulling in 18 days after sowing the seed. It has a small top, is solid and crisp, of fine flavor, in fact, a first-class radish in every respect. Size and shape are well known in illustration. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

Earliest Scarlet Globe

A fine bright red Radish of quick growth. It is especially fine for bunching for early market from plantings in the open ground, being ready for market in from 18 to 20 days. It is solid in character and very uniform in size and shape. The tops are very small, thereby making it the best of all for forcing under glass. The flesh is purest white, firm and crisp in texture and of mild flavor. The roots are entirely free from the hollow center or pithy fibre so often found in Radish. The shape is well shown in the illustration. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 80c.

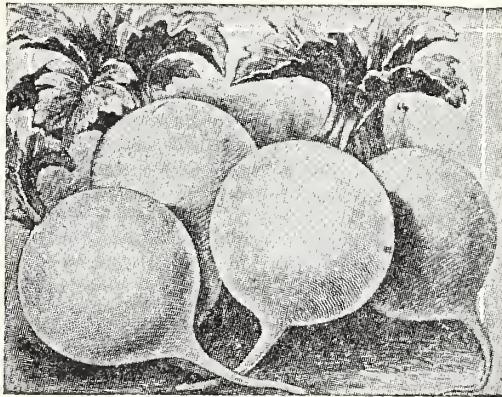

EARLIEST SCARLET GLOBE

RADISHES

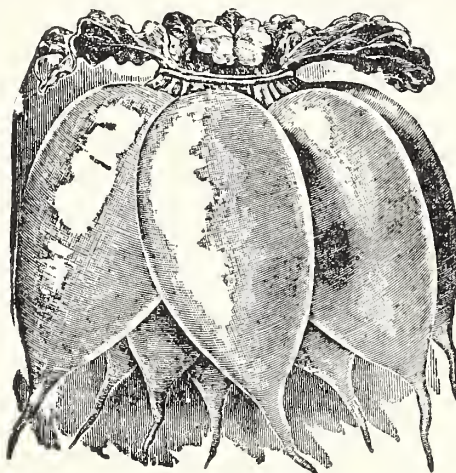

We take much pride in our select stocks of Radish seed. It is grown from carefully selected roots and will produce Radishes of mild flavor and with less leaves than the seed usually offered.

Early Hailstone

The earliest and quickest growing WHITE RADISH in cultivation. It is ready for use from 15 to 18 days after sowing. The radishes are regular shaped, measuring one inch in diameter and about half an inch in depth. Flesh is solid, crisp and of mild flavor. The foliage is unusually small. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.25.

EARLY HAILSTONE

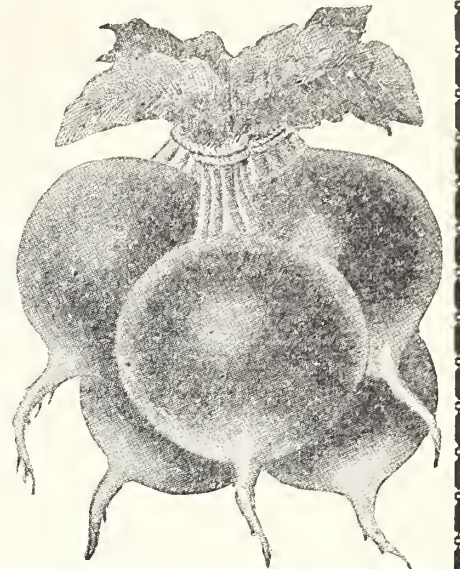

EX. EARLY WHITE DELICIOUS

FRENCH BREAKFAST

Crimson Giant Globe

This new variety is suitable for both forcing and growing outdoors. It is a fine shaped bright red Radish, growing quickly to large size (see illustration). The Radish is a deep globe in shape; it measures 2 inches in depth and $1\frac{1}{2}$ inches in diameter. Skin is thin and tender and of a deep crimson color. The flesh is pure white, crisp and of mild flavor. The roots are entirely free from hollow centers and pithy fibre. It is sure to become a leading variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

PERFECTION EXTRA EARLY

Perfection Extra Early

The most attractive white-tipped Radish. This variety is bound to become the most popular of the white-tipped varieties as it combines handsome appearance quality and extreme earliness. The white tips extend nearly half way up the roots and the brilliant color of the top shows up in strong contrast. For quality it is unexcelled as it is very crisp, tender and sweet. One of the best varieties to grow for market as well as for the home garden. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

Special Offer No. 8

To have a continuous supply of the finest Radishes plant the following:

Early Hailstone Jung's Rapid Red
Perfection Ex. Early White Icicle

Crimson Giant Globe

1 Pkt. of each for 25c.

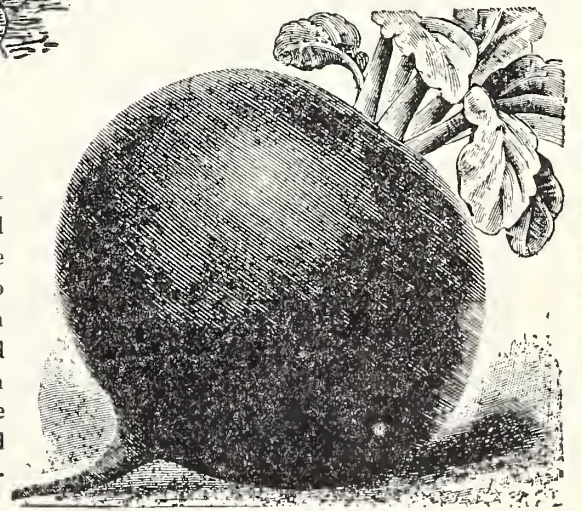

1 Oz. of each for 55c.

Mrs. C. L. McMahon, Wilton Jct., Iowa.—Have used your seeds for several years and believe none can beat them.

Mrs. J. A. Garrett, Clayton, Wis.—Like all your seeds fine, can hardly say which is best, but that Icicle Radish is wonderful.

French Breakfast

An early medium sized radish, olive shaped, very crisp and tender of a beautiful bright scarlet color tipped with white. It grows about 2 inches long and is decidedly stump rooted. A splendid variety for the table, for its excellent quality and the beautiful color are unexcelled. It is a quick growing and exceedingly popular variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 75c.

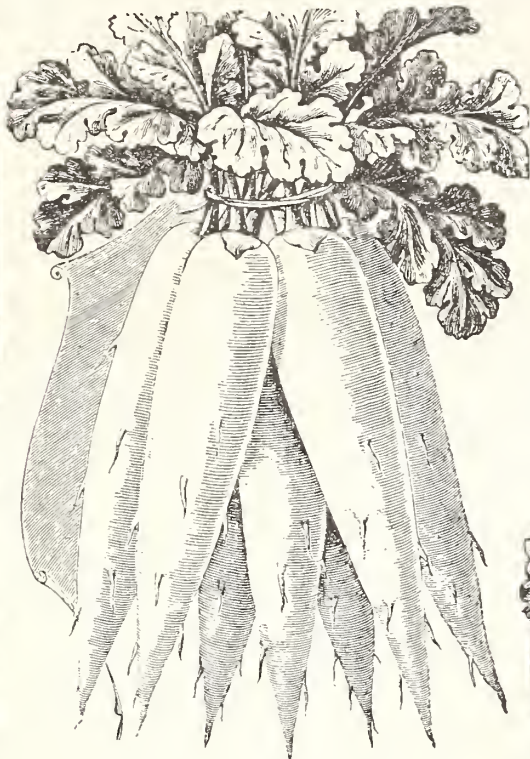

CRIMSON GIANT GLOBE

RADISHES—Continued

Select Early White Icicle

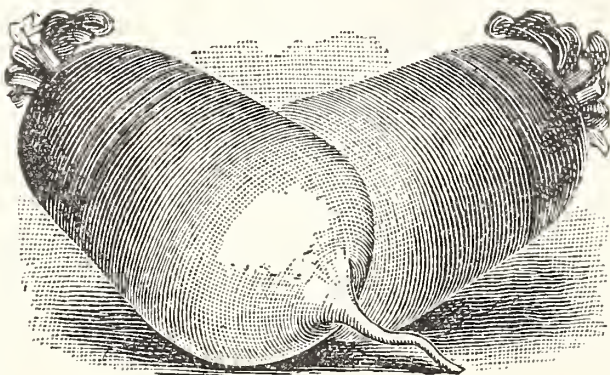

Long, slender, crisp, tender, mild and of purest white. Unexcelled as a money maker. An entirely distinct variety from Europe and derives its name from the almost transparent whiteness of the roots. It produces slender, pure white Radishes very early in the season, much earlier and finer in quality than any other long white variety. The shape is well shown in the illustration. The leaves are short and few, making it an excellent variety for forcing. It is of the best flavor and very brittle and crisp. The roots grow about 4 inches long and are ready for use in about 25 days after sowing. It is a very desirable variety for the home garden and market gardeners will find it a moneymaker. Pkt. 7c.; oz. 12c.; $\frac{1}{4}$ lb. 25c.; lb. 85c.

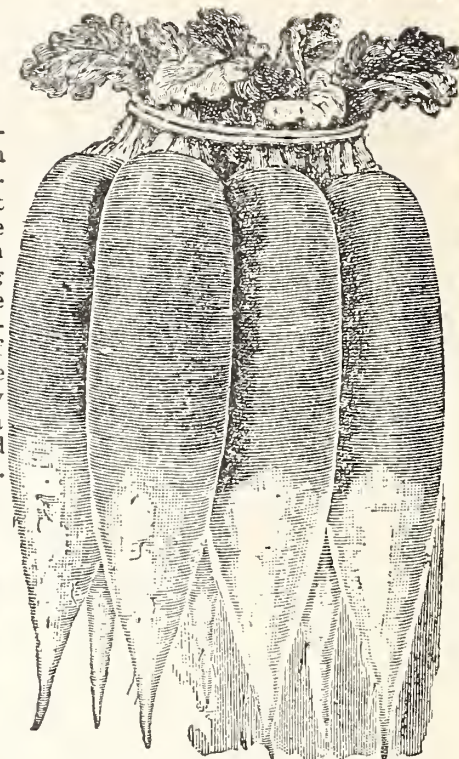

SELECT WHITE ICICLE

Chinese Rose Winter Radish

This is a large and fine shaped Radish, growing partly above the ground. It is of a half long shape with a blunt point; rose colored skin, flesh pure white, solid as an apple. It has not the strong flavor of the Black Spanish and keeps equally as well. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 90c.

CHINA ROSE WINTER

WOOD'S EARLY FRAME

Wood's Early Frame

This is one of the earliest long varieties. It is of a beautiful scarlet color, shading to white towards the tip. It is always juicy, tender, delicious and free from pith and sharpness so often found in long Radishes. Very much used for growing under glass. You will be delighted with this variety. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.

SQUASH

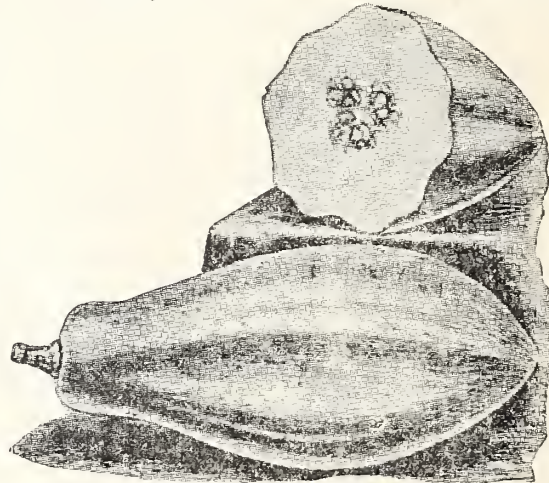

Mammoth Summer Crookneck

This magnificent strain is equally as early as the common small-fruited varieties. It is of a bright yellow color and from 18 inches to 2 feet long. Fruits are solid, heavy and freely produced on healthy, vigorous plants of compact bush habit. The flesh has a creamy yellow color, is dry and of the most agreeable flavor. A most profitable variety to grow for market as it grows rapidly and is of superior quality. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.

The Great Banana Squash

RIPENS EARLY. ENORMOUSLY PRODUCTIVE, FINEST QUALITY
GOOD KEEPER

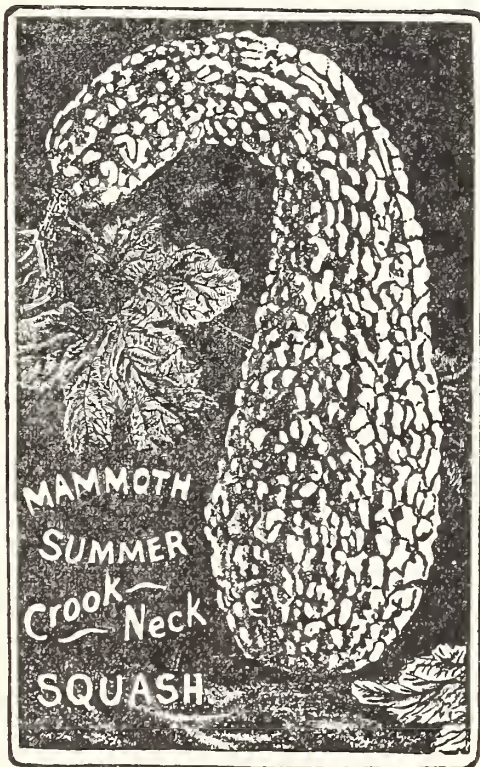

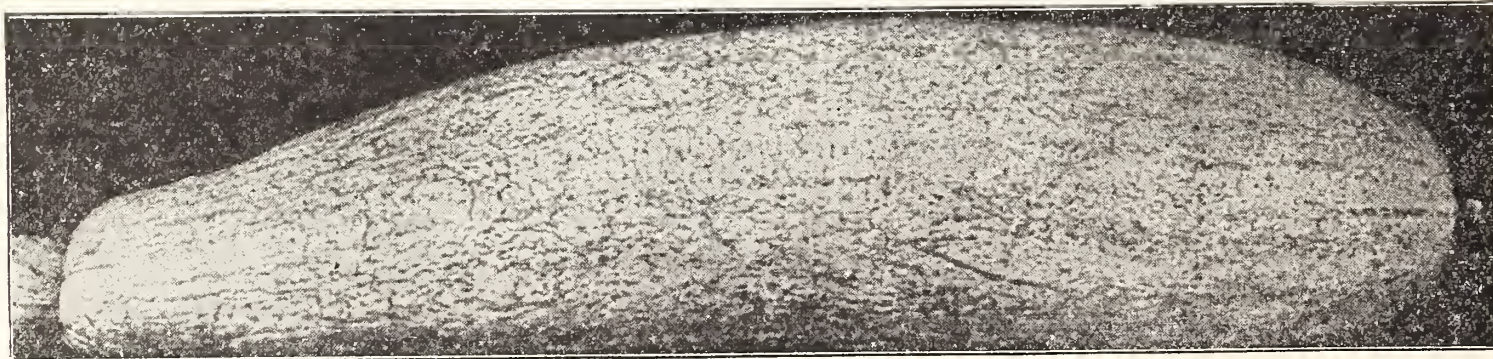

This squash is better shown in the illustration than we can describe it. It keeps equal to Hubbard, is even better quality, more prolific and earlier in ripening. The color is grayish green, shell soft so that it can be cut with a knife. It grows from 18 to 30 inches long and 6 to 8 inches in diameter. It is very prolific and a shy seeder which accounts for the high price of seed. Flesh is of deep orange color, entirely free from fibre or stringiness. Cooks up perfectly smooth and of the most delicious flavor. Pkt. 8c.; oz. 20c.; $\frac{1}{4}$ lb. 50c.

BUSH FORDHOOK

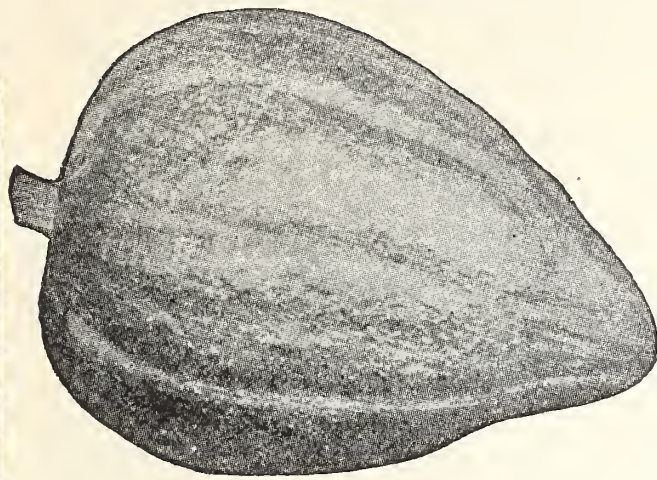

Bush Fordhook

The most desirable Squash for either summer, or winter use. It is of a true bush type and can be grown much closer than the running sorts. The vines are of strong, vigorous growth and wonderfully productive. The fruits are pear-shaped, 7 to 9 inches long, slightly ridged, a smooth, thin yellow skin. Flesh is very thick, and of a light straw yellow color. For frying, baking or making pies they are unsurpassed. Stored in a dry place it is early and has proved to be one of the hardest and most dependable squash for all localities. Pkt. 5c.; oz. 15c.; $\frac{1}{4}$ lb. 35c.; lb. \$1.35.

MAMMOTH
SUMMER
Crook Neck
SQUASH

BANANA SQUASH

Mrs. Nina Pettee, Belfast, Me.—I like your seeds and the way you use your customers better each year.

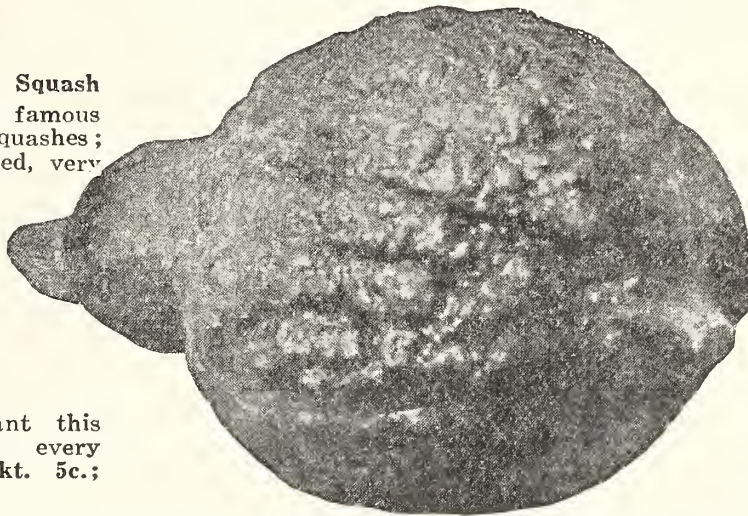

NEW DELICIOUS

Improved Hubbard

Famous American Standard Winter Squash

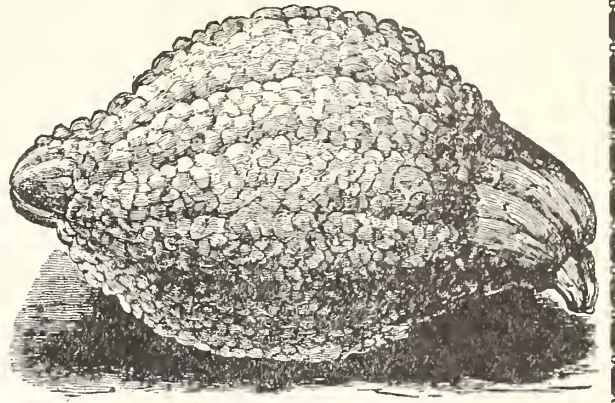

This is a superior selection of this famous variety and one of the best winter Squashes; flesh bright orange yellow; fine grained, very dry, sweet and rich flavored; keeps perfectly thruout the winter; boils or bakes exceedingly dry and is esteemed by many to be as good baked as a sweet potato. Our stock is most carefully selected with regard to quality of the flesh and color and wartiness of the shell but the latter peculiarities are largely determined by the soils in which the Squashes are raised. Our customers can plant this variety in perfect confidence that every fruit will be a pure Hubbard. Pkt. 5c.; $\frac{1}{4}$ lb 35c.; lb. \$1.00.

IMPROVED HUBBARD

SQUASH—Continued New Delicious

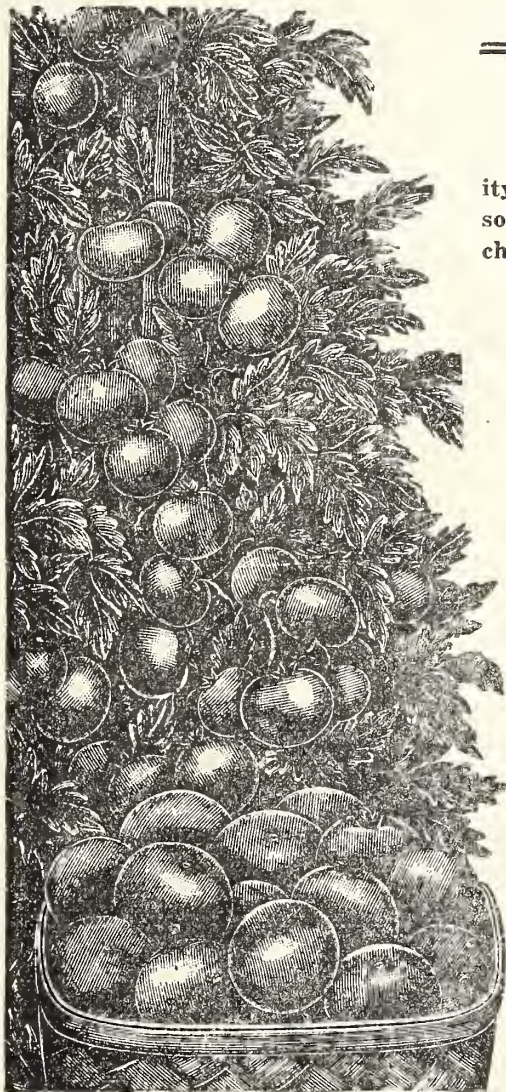

For table quality there is no other Squash that can be compared with Delicious in sweetness and richness of flavor. Excellent for Fall as well as for Winter use, keeping until late in the Spring. Fruits are of medium size usually weighing from 5 to 10 pounds. The rind is dark green mottled in lighter shades. The flesh dark orange, very fine grained and thick. Pkt. 5c.; oz. 12c.; $\frac{1}{4}$ lb. 35c.;

GOLDEN HUBBARD SQUASH.

Golden Hubbard

An elegant Winter Squash. Flesh a deep golden yellow, much richer in color than Hubbard; fine grained, cooks very dry and is of excellent flavor. In keeping quality it has no superior. Its productiveness, combined with its sweet rich flavor attractive color and shape, are bound to make it a popular fall and winter variety. Golden Hubbard is a sport from the well known old Hubbard which it closely resembles in every respect except in color, which is a bright golden orange. Pkt. 8c.; oz. 12c.; $\frac{1}{4}$ lb. 30c.

JUNG'S FAIRFIELD FIRST

Special Offer No. 9

One pkt. of each of the following splendid Tomatoes for only 30c.
JUNG'S FAIRFIELD FIRST
JOHN BAER
GIANT EVERBEARING
HUNDREDFOLD
GOLDEN DWARF CHAMPION

Jung's Northern Grown Tomato Seed

We take special pride in our tomato seed and are sure that it is unexcelled for quality. It is northern grown and will produce a crop that will ripen earlier, produce solid fruit and healthier plants than seed grown further south. It is folly to use cheap tomato seed for it only takes a few ounces to plant an acre.

Jung's Fairfield First

This variety has been carefully bred for extreme earliness, productiveness and smoothness of fruit. Fruits are of good size, smooth and borne in clusters. It is a very heavy cropper. Although one of the first to ripen the vines continue to bear until frost; the size and smoothness of the fruits is maintained until the end of the season. The color is an intense velvety scarlet; fruits are all globe shaped, making it a splendid variety for slicing. The fruits are remarkably solid and firm; flesh is thick and heavy, of fine flavor and contains but few seeds. Vines are strong and healthy growers. Pkt. 7c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

Hundredfold

A remarkably fine tomato that will be sure to surprise you for quality, yield and fine smooth fruit; it commences to ripen very early and will keep on bearing until frost. Fruits will average of good size and are borne in clusters, often 12 to 15 in a bunch. Color bright red, fruits are always smooth, very solid and of the finest flavor, as it is globe shaped it is splendid for slicing. As it is so productive a dozen plants will supply enough fruit for an ordinary family. Choicest seed of our own growing. Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 40c.; $\frac{1}{4}$ lb. \$1.25.

HUNDREDFOLD

E. W. Harris, West Seboois, Maine.—Very much pleased with your seeds last year, they all came fine especially the Sweet Corn and Early Tomatoes.

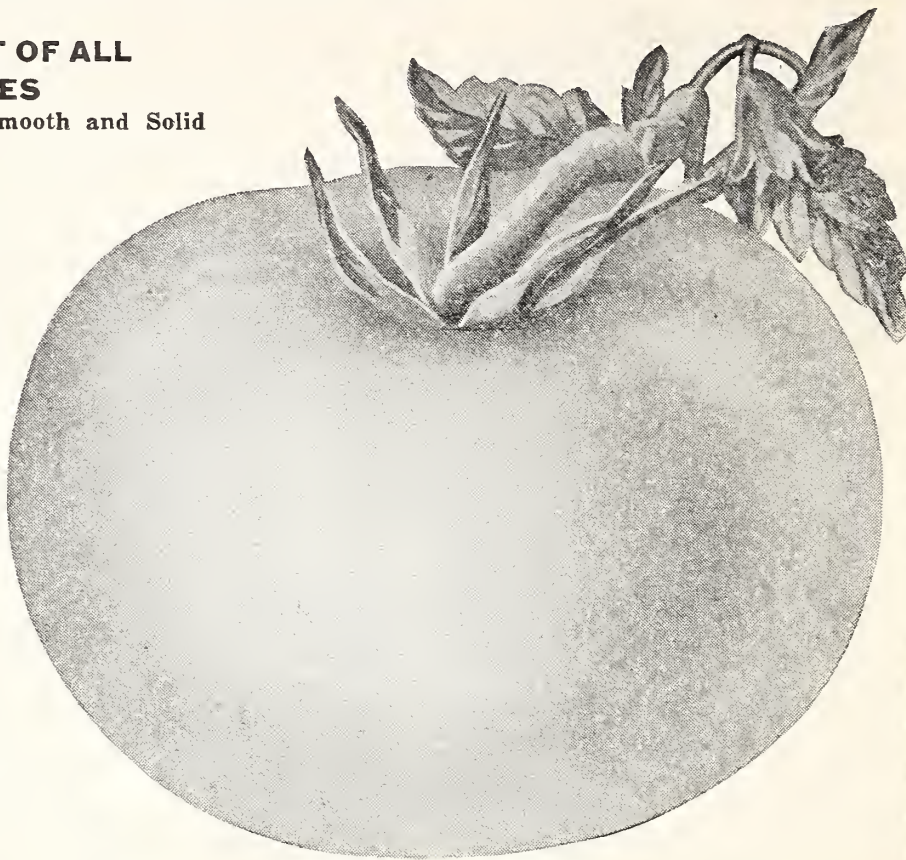

Jung's Wayahead THE EARLIEST OF ALL TOMATOES

First to produce Ripe Tomatoes. Good Sized Fruit, Smooth and Solid
Bright Red Color. Fine Quality.

As its name indicates it is way ahead when it comes to early ripening of fruit, even ahead of our famous John Baer and Earliana. We know this is a strong claim to make but it is an actual fact and we know that after you give it a trial you will be more than satisfied. It is of heavy-leaf type, a sure indication of hardiness and vigor, as it is free from disease. The fruits are of good size, bright scarlet color, almost round, very smooth and remarkably handsome in appearance. The flesh is solid and of the finest flavor. Although it is the first to ripen vines continue bearing for a very long time. Every tomato grower knows that the first tomatoes always bring a big price and we are confident that this variety will more than please every one who plants it. Pkt. 15c.; 2 pkts. 25c.; 1/2 oz. 60c.; oz. \$1.00.

Mrs. John L. Armes, Tip Top, Va.—The seeds we had from you last year were the best I ever planted; I think the Wayahead Tomato has the right name, they ripened 2 weeks earlier than any other kind I ever had.

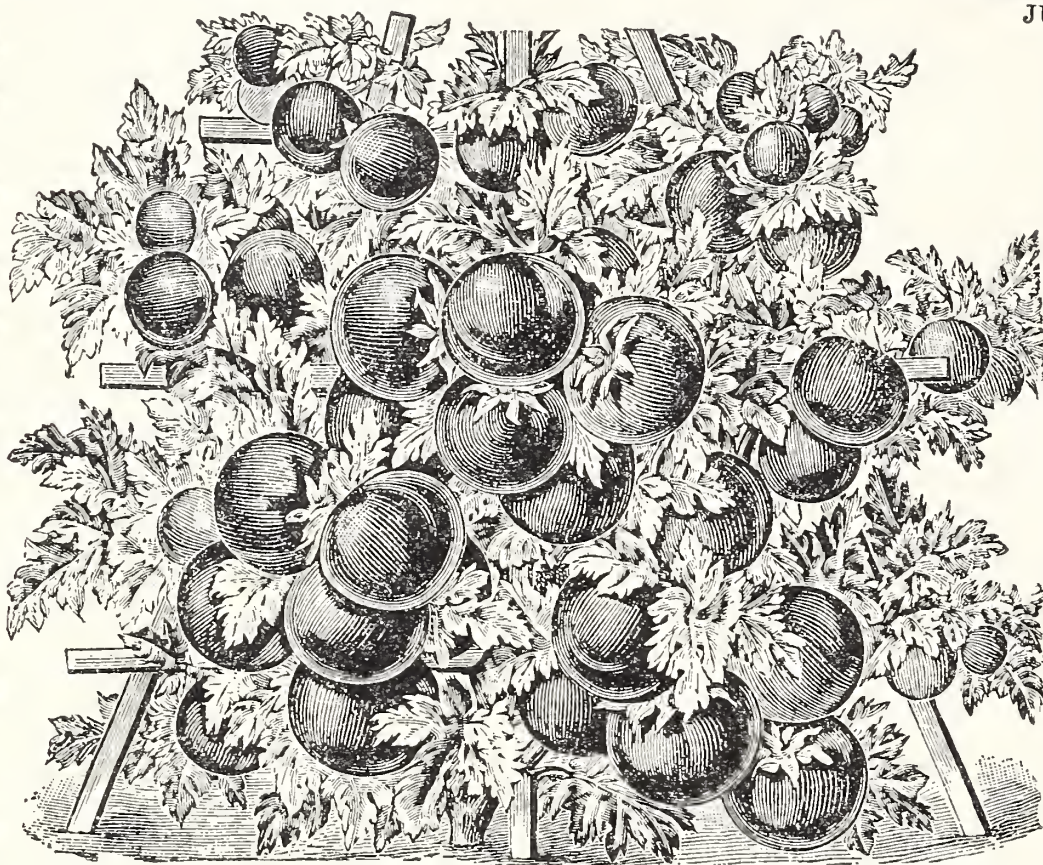

Mrs. G. W. Monks, Gowen, Okla.—Want to tell you how well I like your Wayahead Tomato, besides being early they continued bearing until frost and we had a severe dry summer. I feel they are Gems, had ripe Tomatoes the 15th of June.

JUNG'S WAYAHEAD

Mrs. Nellie Lyons, Morris, Ill.—Had wonderful Tomatoes from your Wayahead seed last year, I had ripe ones on the 4th of July and some weighed a pound to 1 1/2 pounds, so am sending right back for more.

George McMichael, Fruitland, Md.—Send me JOHN BAER Tomato seed, I could not get seed here but have tried your seed and I know what I am planting. JUNG'S seeds are highly recommended by me; Once tried always used.

JOHN BAER

Jung's Private Stock "JOHN BAER"

We are offering seed of our own growing which for earliness, freedom from all disease, great productiveness and solidity of fruits, is unexcelled.

Here are a few reasons why you should plant this excellent variety:

1. It is one of the first to ripen.
2. It produces the smoothest fruits of any extra early variety.
3. It is enormously productive, bearing throughout the season.
4. The fruits ripen evenly up to the stem; no cripples, cracked, blighted or wrinkled fruit. A very good shipper, as it will not burst.
5. It is of the most brilliant red color and the flavor is deliciously sweet.
6. It produces an enormous crop, 50 to 100 fruits to each plant.
7. In shape and form exactly like the photograph.

Market gardeners, with whom earliness is a great factor will find that our northern grown seed will produce a crop that will ripen earlier produce a larger crop and more solid fruit, than seed grown further south. Plant JUNG'S JOHN BAER once and you will not be without it again. Price of our own growing. Pkt. 10c.; 1/2 oz. 40c.; oz. 75c.; lb. \$6.00, postpaid.

Wm. E. Newton, Grand Rapids, Minn.—Your Wayahead and John Baer tomatoes are the best we have found for this country. Had over 3000 tomato plants out of all kinds last year from different houses but your Wayahead was wayahead altho planted later than the rest. Yours for success.

Golden Dwarf Champion

The famous Golden Dwarf Champion owes its wide popularity to its stiff, vigorous, upright growth, with fruit and fine color and to the earliness with which it reaches maturity. Plants are bushy and compact, with heavy dark green foliage. The tomatoes are always smooth, round and solid and of a beautiful lemon color. Nothing makes a more tempting dish than red and yellow tomatoes sliced together. This variety has an unusual flavor, especially fine for preserves as it does not require as much sugar as other varieties. Pkt. 7c.; 1/2 oz. 25c.; oz. 45c.

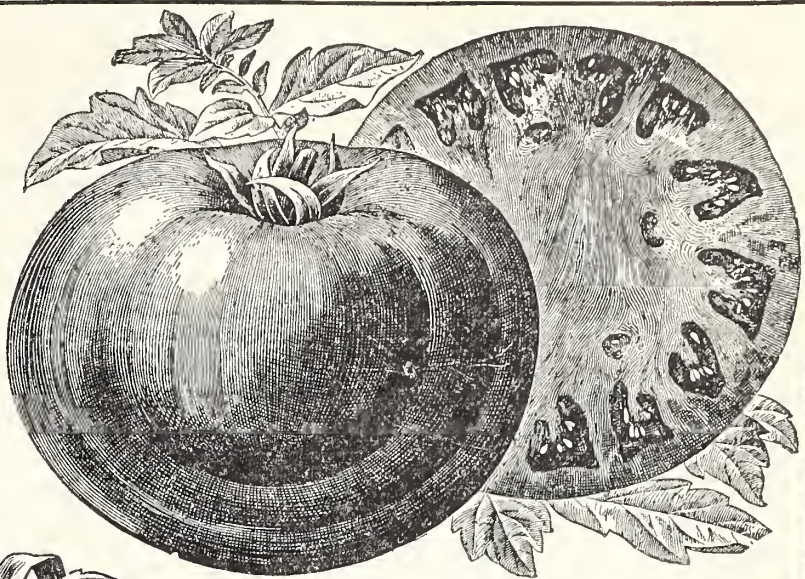

GOLDEN DWARF CHAMPION

JUNG'S SELECT TOMATOES—Continued

Giant Everbearing

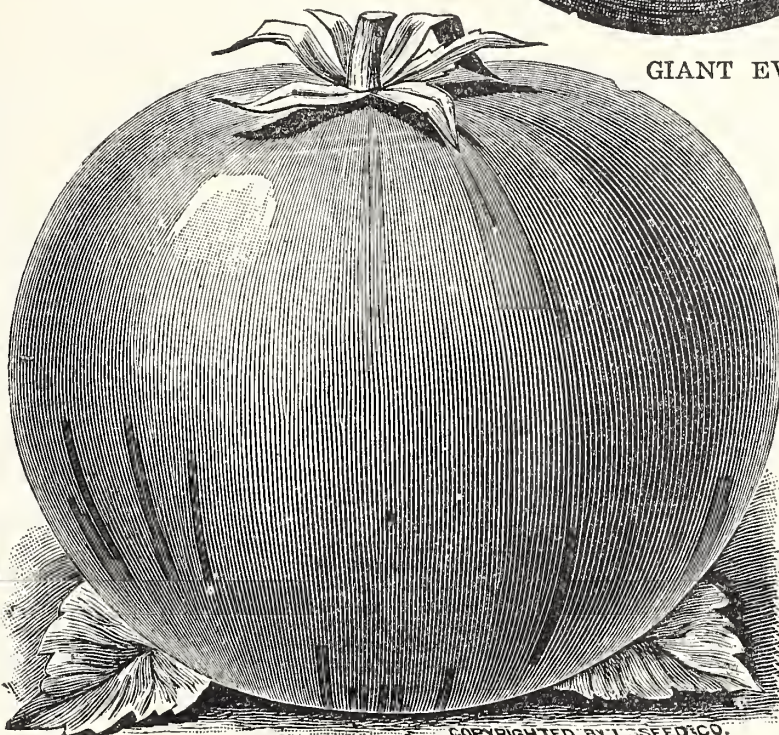

A wonderful tomato that commences to ripen early and continues to bear throughout the season, the later fruit is just as large and perfect as the first. It has been tried out in all parts of the U. S. and on different soils and always proved successful. The plants root very well from the start and makes strong sturdy vines that produce a surprisingly large number of fine tomatoes from each plant. The fruits are large, solid and smooth, free from cracks and ripen up evenly to the stem; easily prepared for market on account of its perfection. Fruits are a bright glossy red, flesh is solid, contains few seeds and is of exceptionally fine flavor. Choice seed of our own growing: Pkt. 10c.; $\frac{1}{2}$ oz. 25c.; oz. 45c.; $\frac{1}{4}$ lb. \$1.25.

GIANT EVERBEARING

Trucker's Favorite

THE FINEST LARGE FRUITED TOMATO. Very uniform in shape and size; thick, heavy and solid; one of the largest tomatoes grown. The fruits are of a purplish red or pink color, always smooth and fleshy; They hold their size to the very last picking and ripen well to the stem. The vines are not subject to blight or rust and produce enormous crops until killed by frost. Delightful in quality and flavor and unexcelled for slicing or cooking. As a dependable main crop pink Tomato Trucker's Favorite can't be beat. Pkt. 5c.; $\frac{1}{2}$ oz. 20c.; oz. 30c.; $\frac{1}{4}$ lb. 90c.

TRUCKER'S FAVORITE

Mrs. Chester Gibbs, Puyallup, Wash.—The Tomatoes from your seed last year beat them all.

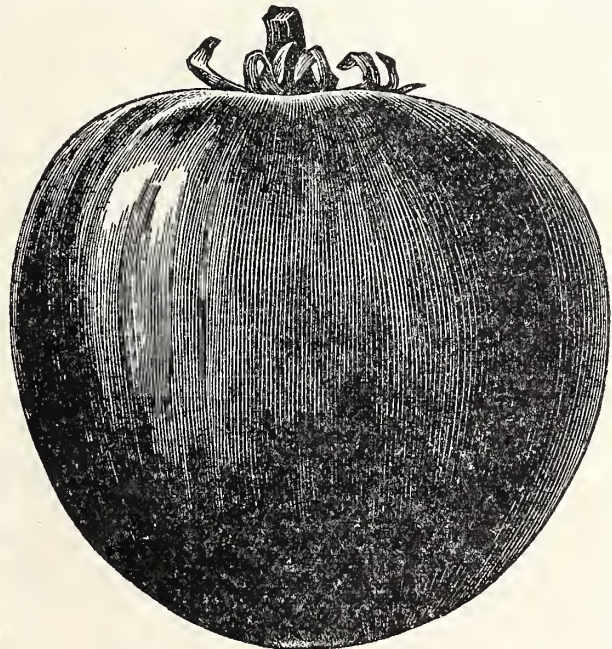

White Wonder

A wonderful tomato having creamy-white skin and flesh. The fruit is free of the usual acids and can therefore be enjoyed by persons who cannot eat red tomatoes on account of the acids they contain. The fruits are very firm and when cut open show a firm flesh. As a tomato for slicing or salads it is unsurpassed. Be the first one to grow this new tomato and surprise your neighbors. We offer you choice seed of our own growing. Pkt. 10c.; 3 pkts. 20c.

New Coreless

A LARGE MAIN CROP, GLOBE SHAPED, BRIGHT RED VARIETY. Its shape is almost round, being about the same diameter each way. The depression at the stem end has been almost eliminated, making it the profitable variety for canning. It is immensely productive, clusters of four to seven fruits are produced at six to eight inches apart along the vines. All the fruits are of remarkable size, many of them are quite large—12 to 15 ounces. A good slicing variety, the seed cells being surrounded by bright red, heavy meaty and delicious flesh. Its color is bright red and the fruits ripen all over and at the same time. Always free from green cores. Every gardener should give this new Tomato a trial. Pkt. 8c.; $\frac{1}{2}$ oz. 20c.; oz. 35c.; $\frac{1}{4}$ lb. \$1.00.

Anton Miller, Green Bay, Wis.—The seeds received from you the past two years were the best I have ever grown, bar none. I have tried seeds from most every seed house in America but found yours the best.

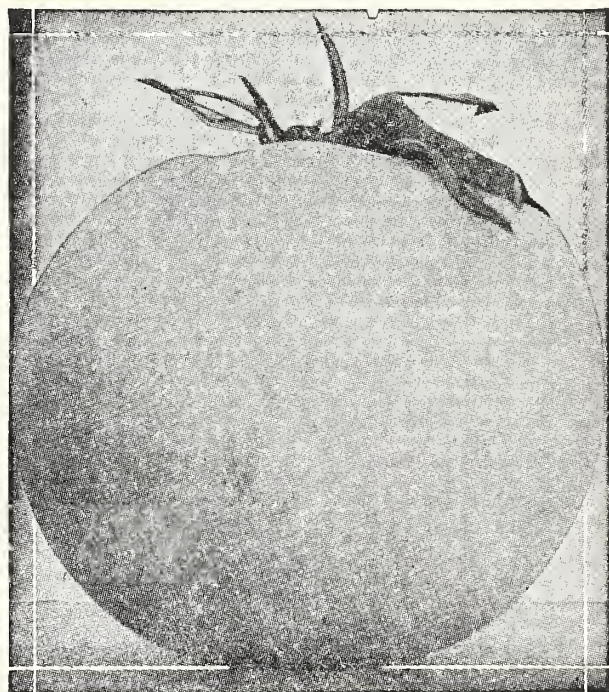

NEW CORELESS

Mrs. C. H. Russell, Issaquah, Wash. — My asters from your seed were beautiful, also Tomatoes very good.

Fancy Mixed Preserving Tomatoes

An interesting packet comprising a mixture of the different small fruited varieties such as Red and Yellow Pear, Plum, Peach and Cherry. These varieties are all of unusually sweet rich flavor and excellent for preserves. May also be dried in the sun and packed in sugar thus making an excellent substitute for figs. Pkt. 7c.; 2 pkts. 10c.

WHITE WONDER

FANCY MIXED PRESERVING

RUTA BAGAS

Perfect Model

This grand variety is a highly improved Ruta Baga and is giving satisfaction wherever grown. It is of fine quality and keeps perfectly all winter. A heavy yielder. flesh deep orange colored, sweet and fine grained, excellent for table use. It is globe shaped, yellow skin with purple top and very short neck. An excellent variety to grow for market as they present such a handsome appearance that they sell readily. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 25c.; lb. 70c.

Improved Purple Top Yellow

A hardy and productive variety, widely grown for market and stock feeding. It is of fine quality and keeps perfectly all winter and even into the following summer. Bulbs are large, smooth, round and solid with a small tap root. Flesh richly colored, fine grained and very sweet. It is justly held in high esteem for both table and stock feeding purposes. The shape is well pictured in the illustration. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 65c.

IMPROVED
PURPLE-TOP
YELLOW.

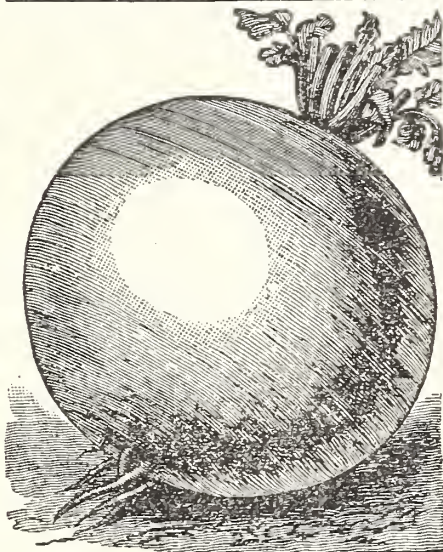

N B: Pryor, Logan, Utah.—Have used your seeds the last two years and found them O.K. I took Blue Ribbon on Sunflower Cantaloupe and Cabbage at the County Fair.

SUNFLOWER Mammoth Russian

Single heads measure twelve to twenty-two inches in diameter and contain an immense quantity of seed, which is highly valued by all farmers and poultry breeders who have tried it as an excellent and cheap food for fowls. They eat it greedily, fatten well on it and attain a bright lustrous plumage and strong healthy condition better than on almost any other food. It is the best egg producing food known. Every farmer should plant some of the seed in any waste piece of ground, any time from early spring to the middle of July. Oz. 5c.; $\frac{1}{2}$ lb. 20c.; lb. 30c.; 5 lb. \$1.00.

JUNG'S PKTS. ARE LARGE SIZE
AND LIBERALLY FILLED

TURNIPS

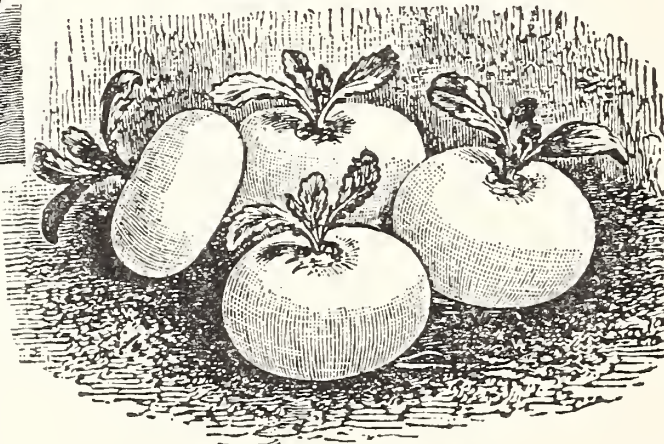

GOLDEN BALL

Golden Ball

Of the yellow or golden fleshed turnips this is the best variety. Roots grow quickly to good size, are smooth and very fine in appearance. Flesh is a rich yellow color, tender and mild in flavor; in fact we consider it the best turnip for table use. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

P. T. STRAP LEAF

EXTRA EARLY WHITE MILAN

Purple Top White Globe

This grows very quickly to large size; roots even and regular in form and of most handsome appearance. The bulbs will measure six inches and more in diameter being of perfect globe form; the upper portion is of rich, purplish red and the lower half creamy white. Flesh white, firm and crisp, of mild flavor. It is an excellent keeper and being so productive is one of the best to grow for stock feeding. The plants being of such large, strong growth should be thinned more severely than with small early sorts. This variety is very extensively used for market growing. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 65c.

Purple Top Strap Leaf

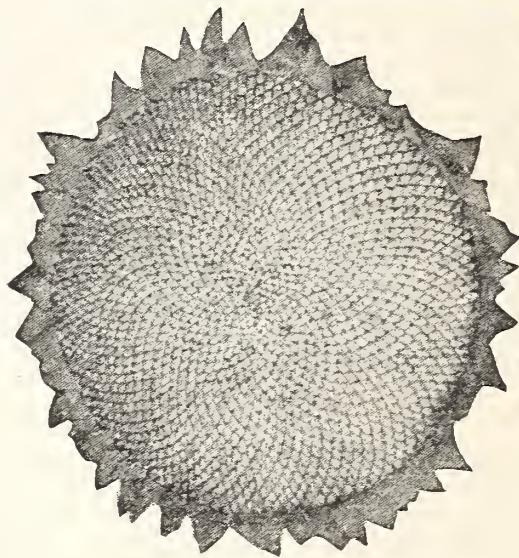

The most popular sort. A general favorite and more largely grown than any other Turnip. Rather flat and of medium size. The color is purple above the ground, white below; flesh white, fine grained and tender; leaves short, narrow and erect. A heavy cropper and an excellent keeper. Does well sown either broadcast or in drills and will form good sized bulbs in seven or eight weeks. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 20c.; lb. 60c.

PERFECT MODEL

William House, Salineville, Ohio.—The seed from you last year was just fine and it must be every seed grew.

Mrs. W. C. Shanly, Binghamton, N. Y.—I recommend your shrubs very highly, received them promptly and in fine shape.

SUNFLOWER

Extra Early White Milan

A very valuable sort largely used by market gardeners for first or extra early use. The quickest growing variety and under favorable conditions is fit for use in a few weeks after sowing. The roots are of medium size, of pure white color and very handsome appearance. Flesh is fine grained, sweet and of mild flavor. A splendid variety for both the home and market garden. Pkt. 5c.; oz. 10c.; $\frac{1}{4}$ lb. 30c.; lb. \$1.00.

PURPLE TOP WHITE GLOBE

JUNG'S SELECT FLOWER SEEDS

The same care and time used in growing our garden seeds also enters into the production of our flower seeds. They are grown from the most select stocks, carefully tested for germination, in fact you will find Jung's Flower Seeds to be equal to the best offered anywhere. With every order of 25c or more we send a booklet on growing flowers free.

Few things give as much pleasure for the money expended as a home surrounded with flowers. They do not cost much and are not difficult to grow and besides the fine appearance of your beds will also supply an endless supply of bouquets for your table all summer and fall.

Quality Flower Collection

This assortment consists of the varieties listed below which have been selected so as to give you a continuous supply of flowers for beds and bouquets. These are liberally filled packets and contain the best select seeds.

JUNG'S AMERICAN BEAUTY

Jung's American Beauty

The petals of this grand new Aster are almost identical in color to the popular American Beauty Rose, hence the name. The plants are strong growers, from 35 to 46 inches tall, well supplied with heavy foliage and is a prolific bloomer. The immense fluffy flowers are borne on stems from 18 to 24 inches long. Specimen plants carried from 8 to 12 blossoms, each measuring over 4 inches across. We offer same in White, Shell-pink, Rose, Lavender and Purple... Pkt. 10c.; 1 pkt. of each color for 40c.

Gus Homeier, Trenton, N. J.—Had greatest asters I ever raised from your seed last year, am only an amateur but the flowers I had last year would have done credit to a professional.

Mrs. L. Wedgewood, No. Milwaukee Wis.—I raised beautiful asters from your seed and won prizes on BETTY JUNG, JUNG'S RUFFLED GIANTS and JUNG'S FANCY MIXED.

Mrs. Mose Crumrine, Greenville, Ohio.—I think every seed I planted last year of your Aster seeds grew and had just beautiful flowers and so large in size.

JUNG'S SUPERB ASTERS

UNEXCELLED FOR SIZE AND BEAUTY OF FLOWERS

Asters are our great specialty in the flower seed line and the degree of perfection to which we have brought the strains we are offering is unsurpassed. No other flower can approach the Aster in beauty, color, form or profusion of bloom. They are very hardy, easily grown and may be had in bloom from early summer until hard frosts. We are ASTER SPECIALISTS and our seed of these grand flowers is absolutely unexcelled.

Jung's Ruffled Giants

Everyone is sure to admire these beautiful giant flowered Asters. The immense flowers are 5 to 6 in. across and rival Chrysanthemums for bouquets as they are borne on long stems and will last 10 days to 2 weeks if given fresh water. White, Lilac, Rosy Red, Cream, Lavender, Purple and Mixed. Pkt. 12c.; 1 Pkt. of each color for 50c.

RUFFLED GIANTS

THE NEWEST ASTER

Yellow Chrysanthemum

The rarest and newest Aster being a delicate canary yellow, a new color that will be welcomed by every Aster lover. The flowers are of good size, remarkably full and double with centers well covered. The plants are of the branching type, vigorous growers and many will produce from 15 to 24 fancy flowers on long stems suitable for fancy cut flowers. Flowers are produced so numerous that a plant looks like a gold dome. A truly superb Aster. Pkt. 10c.; 3 pkts. 25c.

**A GREAT ASTER BARGAIN
SEE INSIDE BACK COVER**

YELLOW CHRYSANTHEMUM

**THE MOST SHOWY ASTER
Jung's Scarlet Gem**

The most attractive of all Asters being a brilliant red. The flowers are large and full and are borne on a tall robust plant. Most effective for either beds or bouquets as their bright color makes them showy no matter where they may be placed. We know all of our customers will be delighted with it. Pkt. 8c.; ¼ oz. 35c.

Mrs. Wm. Barrons, Wilmet. Mich.—I could not refuse you an order for seed after such a beautiful garden of asters as I grew from your seed. Tomato matured so fast and the quality was great.

INTERNATIONAL MIXED

**Jung's International Mixed
ASTERS**

This splendid mixture contains every color known in Asters and includes early, medium and late varieties, thus giving you flowers throughout the season. It is not grown in mixture but carefully made up from the different kinds so as to get the right proportion of each color. If you want a fine lot of Asters at a low price sow this fine mixture. Pkt. 7c.; ¼ oz. 25c.; oz. \$1.00.

JUNG'S SCARLET GEM

**THE EARLIEST OF ALL ASTERS
Jung's Innocence**

Many people want Asters that come in blossom very early and we recommend these in every respect as they come fully two weeks earlier than most other sorts. The blossoms are of good size, produced on long stems and are full and double to the very centers. You will be more than pleased with these extra early Asters. White, Pink, Lavender Purple and Mixed. Pkt. 7c.; ¼ oz. 25c.; 1 pkt. of each color for 20c.

BUTTERFLY PLANT

JUNG'S 'CHRYSANTHEMUM

**THE MOST BEAUTIFUL ASTER
Jung's Chrysanthemum**

This grand Aster is in a class by itself in fact we consider it the most beautiful of all Asters. Its beautiful form is well shown in the illustration. It is of the most beautiful color known in Asters being a delicate sea-shell pink. Its flowers are truly gigantic in size and closely resemble chrysanthemums, hence name. Well grown flowers measure five inches across and being borne on long stiff stems makes it invaluable for bouquets and cut flowers. Pkt. 8c.; ¼ oz. 35c.

JUNG'S INNOCENCE

W. A. Taylor, Rockland. Mass.—The collection of seed sent for last year were more than satisfactory, the everlasting flowers and Asters were beautiful and gave much pleasure all summer.

Lucy Rutledge, Cromwell, Ala.—Had good luck with all the garden and flower seed from you but the BETTY JUNG asters surpassed all others in beauty.

BUTTERFLY PLANT**GIANT FLOWERED MIXED**

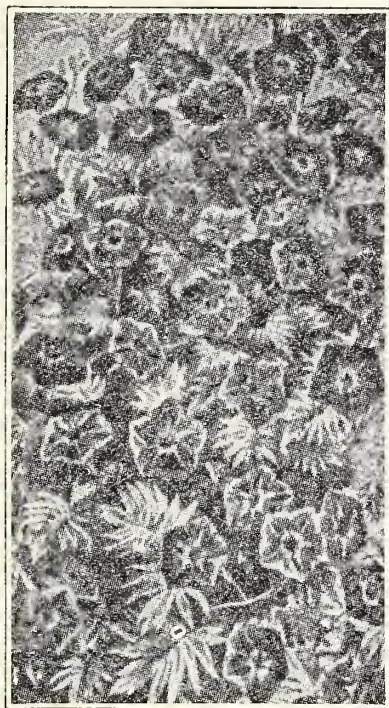

Wonderful showy plants having leaves like a fern and blossoms like an orchid. The plants grow 1½ to 2 ft. tall and are literally covered with the exquisite butterfly like blossoms of almost every known shade and color. These flowers are of lasting substance and a plant in bloom makes a truly beautiful sight. They are easy to grow in the garden and will also make beautiful pot plants for winter flowering. Pkt. 15c.; 2 pkts. 25c.

BABY GOLDEN GLOW

CHINESE WOOLFLOWER

Most Magnificent Garden Annual Ever Introduced. The plants average 2 feet in height, branching freely, each shoot bearing a beautiful ball of wool in pink, yellow and scarlet. It flowers early and profusely and the heads of bloom, mixed with fresh green foliage makes the plant look like an immense bouquet set in the ground. They continue to grow with a richness of color all summer and fall until severe frosts destroy them. A rare novelty. Fresh cut flowers when dried are very much used for winter decoration. Pkt. 10c.; 3 pkts. 20c.

CARDINAL CLIMBER

Booklet on Growing Flowers sent free with orders of 25c or more.

COCKSCOMB

BALSAM-Defiance Mixed

A favorite quick growing annual. The plants form symmetrical, well-branched erect bushes about two feet high. The branches are well covered with beautiful double flowers. The colors include white, rose, scarlet, crimson, purple, lilac and violet. This variety is distinctly Camelia flowered. Our strain of these is unsurpassed for size of blooms, doubleness and beauty of flowers. Pkt. 7c.; 2 pkts. 10c.

BABY GOLDEN GLOW

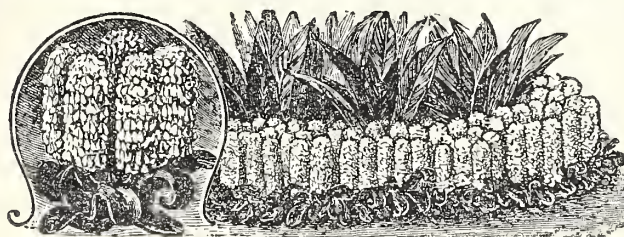

A most charming annual growing about 15 to 18 inches high, bearing score of bright yellow flowers. Seeds should be started indoors; the plants will begin to bloom almost as soon as set in the open ground, affording an almost unlimited supply of cut flowers. One of the best bedders. Likened to Golden Glow on account of color, shape and profusion. Pkt. 5c.; 3 pkts. 10c.

CHINESE WOOLFLOWER

CARDINAL CLIMBER

One of the most beautiful climbing annuals we know of and should be grown by every lover of vines or climbers. The foliage is like a palm leaf, rich glossy green with fringed edges against which the brilliant scarlet flowers, about one inch across show off beautifully. In a warm sunny location and rich soil it grows 20 feet in height. It is of rapid growth, free from insects and a beautiful vine for porches or trellis. Pkt. 10c.; 3 pkts. 20c.

CANDYTUFT

CANNAS-Crozy's Hybrids

Very showy bedding plants with their tropical foliage and immense flowers borne on stalks three to seven feet high in all brilliant colors. Cannas are easily grown from seed. For best results pierce the seed and soak in warm water, then sow in a warm place or hotbed. Seeds started in March or April produce a brilliant bed by July. Pkt. 8c.; 3 pkts. 20c.

COCKSCOMB-Giant Prize Mixed

Wonderfully showy annuals producing crimson and yellow flowers or combs of immense size. Very easy to grow. Cut when partially open and dry in shady place and they make excellent winter bouquets. Pkt. 10c.; 3 pkts. 20c.

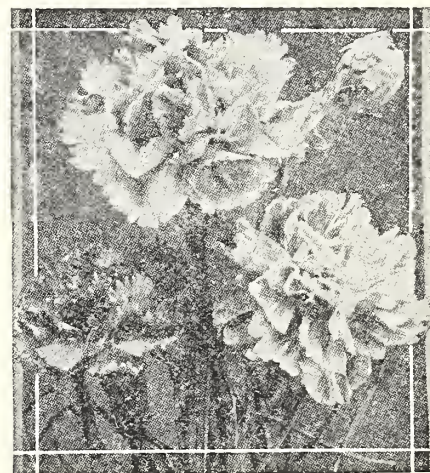

BALSAM

CARNATIONS

GIANT MARGUERITE MIXED

These lovely fragrant Carnations produce fine double flowers. The flowers of this wonderful strain often measure three inches across and have a variety of colors including white, blush, deep pink, salmon, scarlet, maroon and many variegated flowers. Most of them have lovely fringed petals. One great merit of these Carnations is that they begin to flower in about 13 weeks time from seed sown in the spring. Pkt. 10c.; 3 pkts. 20c.

CARNATION

CANDYTUFT-Little Prince

This is a dainty and distinct Candytuft, the plant growing only about six inches high and bears immense spikes of snow-white flowers in great abundance, remaining in perfection longer than any other annual strain. Pkt. 7c.; 2 pkts. 10c.

Jung's Flower Seeds will Grow

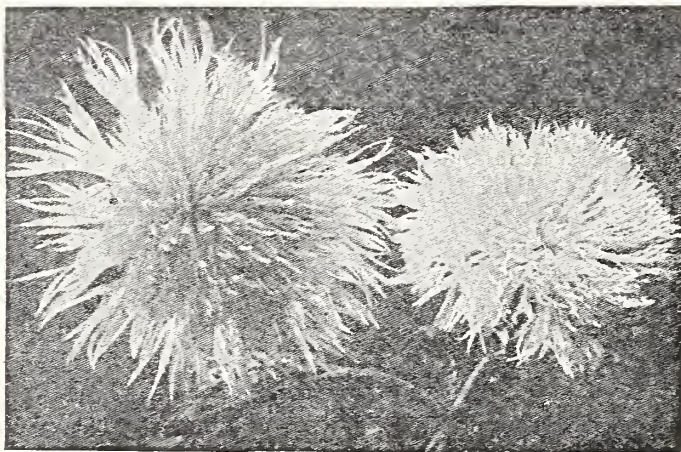

AFRICAN DAISY

Plants, of very neat branching habit, grow about twelve to fifteen inches high and are exceedingly profuse in flowering. A bed in full bloom is a magnificent sight. Seed may be started under glass or sown in the open ground.

New colors in all shades from pure white to deep orange. Many are beautifully rayed or zoned. Certainly a great acquisition and a magnificent new garden favorite. Pkt. 7c.; 2 pkts. 10c.

SHASTA DAISY

This Giant Daisy is a production of Mr. Luther Burbank. It is a perfectly hardy perennial bearing sturdy lasting flowers averaging 4 inches in diameter on long, stiff stems. The petals or rays are pure white. Blossoms all season. Pkt. 7c.; 2 pkts. 10c.

CENTAUREA

CENTAUREA-Giant Imperial Mixed

Well known flowers and are among the most attractive and graceful annuals. Our seed will produce very large double flowers of graceful form and delicious fragrance. Having long stems they are very desirable for cut flowers and will last for a long time when placed in water. Our seed includes all colors. Pkt. 7c.; 2 pkts. 10c.

DIANTHUS

DIANTHUS-Fairfield Finest Mixed

These hardy annuals may be ranked among the fairest gems of our flowers as few can equal them in beauty or profusion of blooms. They are of the richest and most varied colors. The plants spread rapidly and make ornamental masses of growth. They may be sown in the open ground when danger from frost is over and in a few weeks they are masses of bloom continuing so until frost. Our mixture include the best single and double sorts. Pkt. 5c.; 3 pkts. 10c.

FIREBALL

One of the finest varieties to be had. Flowers are a deep scarlet color, nearly 2 inches across and being produced on long stems are excellent for bouquets. Plants grow 12 to 15 inches high, fine bedder. Pkt. 7c.; 3 pkts. 15c.

COSMOS-Giant Early Flowering Mixed

Grace and brilliancy are the characteristics of this pretty annual. The beautiful flowers, with their deep broad petals rise from a cloud of fine feathery foliage. They are of compact, bushy growth about four feet high with flowers fully as large as the old variety. Flowers are of various shades, ranging from pure white to purplish crimson. Pkt. 5c.; 3 pkts. 10c.

AFRICAN DAISY

BLUE LACE FLOWER

BLUE LACE FLOWER

A beautiful and interesting annual which seems to have been lost sight of in the last few years. It blooms most profusely from July till November, plants grow about 18 inches high and have as many as 50 flowers open at one time, color an exquisite pale lavender. Pkt. 8c.; 2 pkts. 15c.

COSMOS

SHASTA DAISY

CANTERBURY BELLS

This beautiful old fashioned popular flower is easily grown in any garden. They are free bloomers, producing bell shaped flowers of many colors very freely. Pkt. 5c.; 3 pkts. 10c.

CALIFORNIA POPPIES

Very handsome, quick growing annuals with fine cut foliage and bright poppy-like blossoms. Nothing can excel it for brightness and it blooms continually from June to October. Colors orange, yellow, crimson and maroon. Very easy to grow. Pkt. 5c.; 3 pkts. 10c.

CALIFORNIA POPPIES

DAHLIAS-Jung's Fancy Mixed

The Dahlia still holds its place as "king" of all outdoor autumn flowers and they may be grown to the greatest perfection from seed, blooming the first summer. As easy to grow from the seed as the most common plant. Anyone can have a magnificent display of these regal beauties at very small cost. Continue to bloom profusely until severe frosts when the bulbs can be taken up and stored until spring. A superb mixture of the finest double varieties of largest size and finest colors. Pkt. 10c.; 3 pkts. 20c.

HOLLYHOCKS-Everblooming Annual Mixed

This old but favorite flower may now be had in flower the first season. The diversity of form and color of our selection will afford you many surprises. Some plants will produce dense, double flowers, others will be semi-double while some are single with double centers. The flowers are unusually large, some measuring 5 inches across. In colors there is also a great variety, some richly brilliant, others dainty and elegant, ranging from black, maroon, crimson, rose, pink to white. Pkt. 7c.; 2 pkts. 10c.

LARKSPUR- Giant Annual Mixed

Well known annuals of great beauty and noted for the richness of their colors—particularly the blue. Our mixture includes white, pink, rose, light and dark blue and violet. Our strain is a vast improvement over the old varieties, more of the flowers being double and all of them of larger size. They bloom very freely and produce large spikes of long keeping flowers. Sow seed early in the spring and they will commence to bloom in July. Pkt. 7c.; 2 pkts. 10c.

Dahlias from Seed

HOLLYHOCKS

EVERLASTING FLOWERS

EVERLASTING FLOWERS

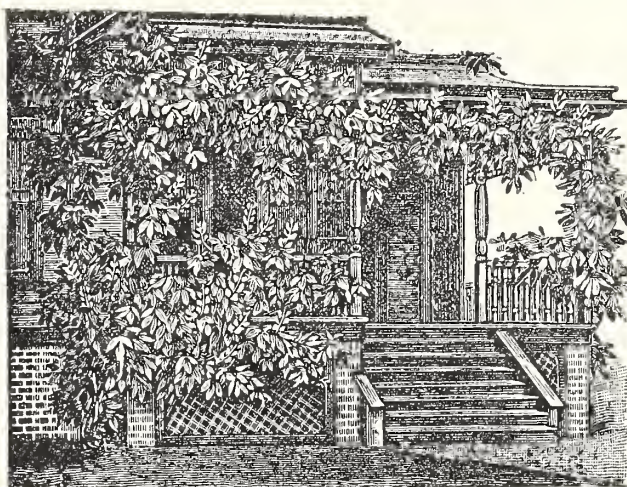

These everlasting flowers should be grown in every flower garden and for this reason we have placed them in this list. The plants grow about 2 feet high and produce the beautiful flowers like a half-open rose in great profusion. They make a very pretty bed and if picked will last all winter, excellent for Christmas and New Year decorations. Our seed includes all colors. Easy to grow. Pkt. 7c.; 2 pkts. 10c.

FOUR O'CLOCK

FOUR O'CLOCK-Finest Mixed

No flower makes a prettier border than the old-fashioned Four O'Clock. Plant grows to a height of two feet and blooms in early morning and evening that rival the choicest garden flowers. It is one of the most brilliant and showy plants that can be grown with little or no trouble. Pkt. 7c.; 2 pkts. 10c.

JAPANESE KUDZU VINE

JAPANESE KUDZU VINE

One of the fastest climbers having beautiful flowers like a wistaria but larger in size and with better clusters. The foliage is very luxuriant and where quick shade is wanted this plant will prove of great value as it seems to thrive everywhere. It is perfectly hardy and will increase in size and beauty year after year. Pkt. 10c.; 3 pkts. 20c.

LARKSPUR

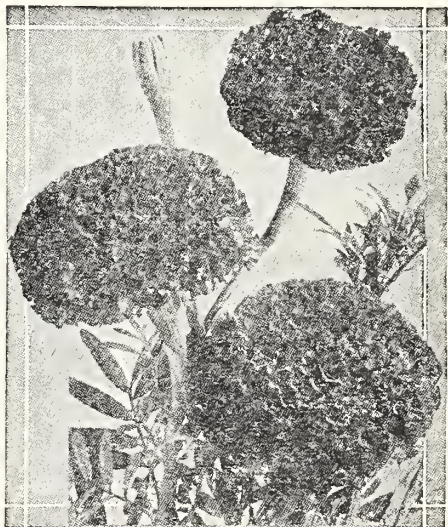

GAILLARDIA

GAILLARDIA-Finest Mixed

One of the most showy annuals and greatly admired for their fine form and rich blending of colors in orange, brown, bronze, maroon and crimson. Many of the flowers are 4 inches across and being produced on long stems are excellent for bouquets. They blossom from July until frost. Easy to grow. Pkt. 5c.; 3 pkts. 10c.

MARIGOLD-Lemon Ball

This extremely showy annual has become a great favorite everywhere on account of its easy culture and most beautiful flowers. The hardy plants of neat branching habit grow from 15 to 20 inches high and are exceedingly profuse in flowering. The extra large, round double flowers are of a clear canary yellow. The petals are heavily rolled and are crowded together so as to appear lacinated. Pkt. 7c.; 2 pkts. 10c.

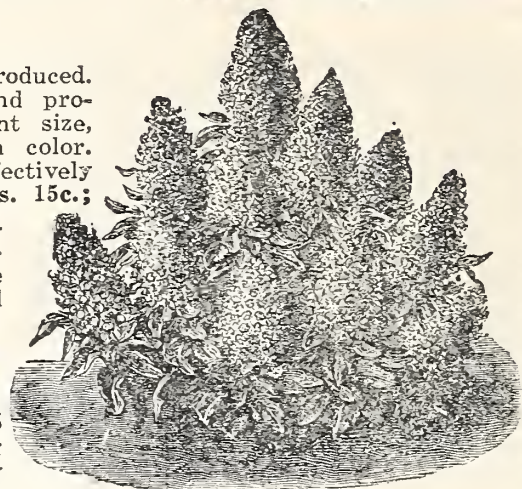

MARIGOLD

MIGNONETTE-Bismark

One of the grandest mignonettes ever introduced. It is remarkable for size, color, fragrance and profusion of blooms. Flower spikes are of giant size, measuring 6 to 8 in. long and fiery red in color. Very showy as the bright flowers contrast effectively against the deep green foliage. Pkt. 8c.; 2 pkts. 15c.;

FINEST MIXED—A fine mixture, grows rapidly and produces fine spikes of blossoms during the cool weather of spring and fall. Make a second sowing in August to furnish fall flowers. Pkt. 5c.; 3 pkts. 10c.

MIGNONETTE

JAP. MORNING GLORY

MORNING GLORY-Giant Jap. Mixed

The robust vines attain a height of from 15 to 20 feet. Their charm lies in the entrancing beauty and large size of the flowers; they measure from 3 to 4 inches across. Some flowers are of deep, rich velvety colors, others daintily tinted and shaded. There are reds from soft rose to crimson and garnet; daintiest blue to purple; snow-white to silver gray. They are easy to grow and quick to come into bloom. Pkt. 7c.; 2 pkts. 10c.

NASTURTIUMS

DWARF BRILLIANT BEAUTIES MIXED

The plants are of vigorous growth, erect habit and beautiful rounded form. They are of quick growth, begin to bloom early in the summer and continue to flower until killed by frost. So greatly diversified are the colorings that it seems almost impossible to find two plants bearing flowers alike. The flowers are not only wonderfully brilliant but also of large size. Pkt. 5c.; oz. 20c.

JUNG'S GIANT CLIMBING

This mixture is absolutely unsurpassed. Nothing can excel the wealth, richness and variety of these Nasturtiums for trellis, window boxes or brush planting, nor surpass them in freedom and profusion of bloom. On good soil they grow 8 ft. tall. Our mixture includes a wonderful diversity of colors, some are solid while others are beautifully mottled and striped. Pkt. 5c.; oz. 20c.

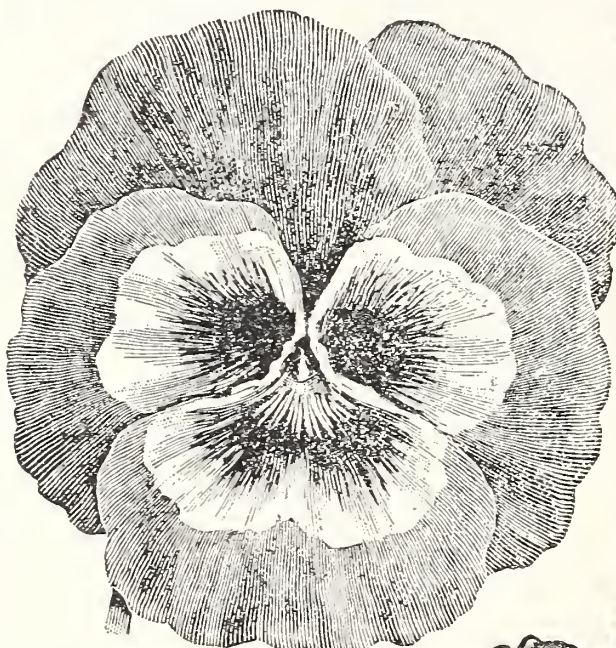

GT. CLIMBING NASTURTIUMS

BRILLIANT BEAUTIES

Jung's Giant Fancy Mixed PANSIES

This "Fancy Mixture" contains seeds of the largest, richest and handsomest pansies known to the horticultural world. The well formed expanded flowers are uniformly of the largest size and of fine substance; they are borne on long, stiff stems well above the heavy deep green foliage. The colors are rich and varied such as white, cream, yellow, deep orange mahogany, claret, reddish bronze, rose. All are distinctly blotched. The compact rounded plants are of sturdy habit and bear gigantic flowers profusely and continuously. Pkt. 20c.; 1/4 oz. 75c.

JUNG'S GIANT FANCY

NICOTIANA

SANDERAE HYBRIDS

These flower from early summer until late in autumn. Their beauty is beyond description, flowers being purple, dark red, snow-white, violet, salmon, pink, crimson and various other shades. It is a very easily cultivated plant, thrives in any soil, either in pots or in the open ground. The cut blooms last well, opening freely in water. All colors mixed. Pkt. 5c.; 3 pkts. 10c.

NICOTIANA SANDERAE HYBRIDS

PANSIES-Large Flowered Mixed

This is a popular large flowering type just what you want for a pretty bed. The plants make a strong growth and flower freely. This mixture comprises many beautiful varieties and we know you will be delighted with it. Pkt. 5c.; 1/8 oz. 25c.

GIANT MASTERPIECE

This giant Pansy is remarkable for having its petals waved or folded, giving it the appearance of a double flower. The truly giant-sized flowers are of the most striking character, the petals being of a rich velvety substance and heavily ruffled. The colors are mainly dark rich shades, bordered, blotched or marked in raylike veinings. The mammoth size, richness and beauty of colorings combined with the ruffled character of the petals makes the Masterpiece one of the finest Pansies ever developed. Pkt. 20c.; 3 pkts. 50c.

GIANT MASTERPIECE

Miss B. Rehberg, Tomah Wis.—Your seed and gladioli bulbs were the nicest I have ever had.

DEFIANCE PETUNIA

PETUNIA-Defiance Mixed

This strain bears grand, substantial flowers of the largest size in profusion. The flowers frequently measure five inches across the colors are indescribably rich and varied. Most of the flowers are beautifully fringed and have open throats. All are distinctly veined, especially in the throat portion and in many the throat is darker than the outer portion of the petals imparting a rich velvety effect. Some of the colors are rich and gorgeous, while others are of lovely delicate shades. Pkt. 25c.; 3 pkts. 50c.

ICELAND POPPIES

FEATHERBALL POPPIES

PETUNIAS

BRILLIANT BEAUTIES

If you wish to have a bed of flowers that will be a source of delight from early summer until late in the fall sow some of these beautiful Petunias. The plants grow bushy and compact and are excellent for beds, borders or window boxes. The plants commence to blossom when only a few inches high and are a mass of bright color until killed by heavy frosts. Our mixture is carefully made up of only live, bright colors. Very easy to grow. Pkt. 10c.; 3 pkts. 20c.; 1/8 oz. 40c.

PORTULACA

POPPIES

DOUBLE FEATHERBALL MIXED

These double fringed annual Poppies are very beautiful; they belong to the carnation-flowered type, the large flowers having the same globe-shaped formation with gracefully fringed petals. Plants are of branching, stocky growth, 15 to 18 inches high, each plant carrying several of these exquisite flowers. The great variety of fine color ranges from the most gorgeous shades down to pure white. They are of the easiest culture. Pkt. 5c.

ICELAND MIXED

Hardy perennials that bloom the first season. The fragrant, elegant satin-like flowers are produced from June until October on stems 12 inches long and are excellent for cut flowers as they last fully a week. Our seed includes the most beautiful colors. Pkt. 5c.; 3 pkts. 10c.

DWARF PHLOX

NANA COMPACTA MIXED

This splendid race of dwarf annual Phloxes cannot be overpraised for brightness and beauty. The plants are always lavishly covered with large flowers of the most brilliant hues. Nothing better for bedding purposes is listed in this catalog. They succeed everywhere and are in universal favor for summer growing flowering purposes. Bushes are dwarf and compact, six to eight inches high, forming dense masses of bloom all summer. The colors include pure white, deep and showy red rose with white eye and many other shades. Pkt. 10c.; 3 pkts. 20c.

BRILLIANT BEAUTIES

PORTULACA-Finest Mixed

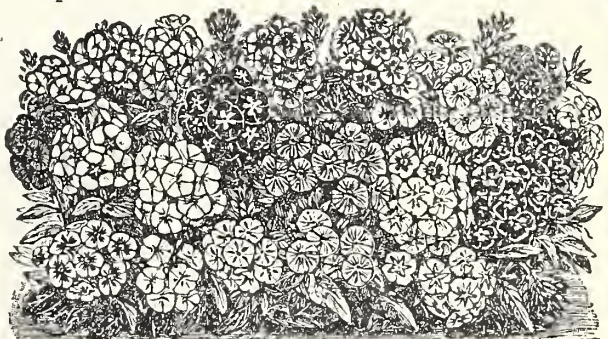

A great favorite for bedding, edging and rock work; also splendid for window boxes Will grow and bloom in hot, dry locations where almost any other plant would die. Blooms profusely from early summer until autumn. For brilliant color a bed of these easy growing flowers is a sight to behold. Our mixture includes all the finest colors. Pkt. 5c.; 3 pkts. 10c.

PHLOX DRUMMONDII

PHLOX DRUMMONDI-Grand Mixed

This superb strain is notable not only for variety and brilliancy of colors but also for the perfection and size of the flowers. Many of the single flowers are so large that they will nearly cover a 50-cent piece. The colors range from pure white to deepest red or crimson while the clear eye of some of the flowers is peculiarly marked. For a mass of splendid colors no flower will give a more satisfactory return for so little cost. No garden should be without these most beautiful of all dwarf growing annuals. Pkt. 7c.; 2 pkts. 10c.

DWARF PHLOX

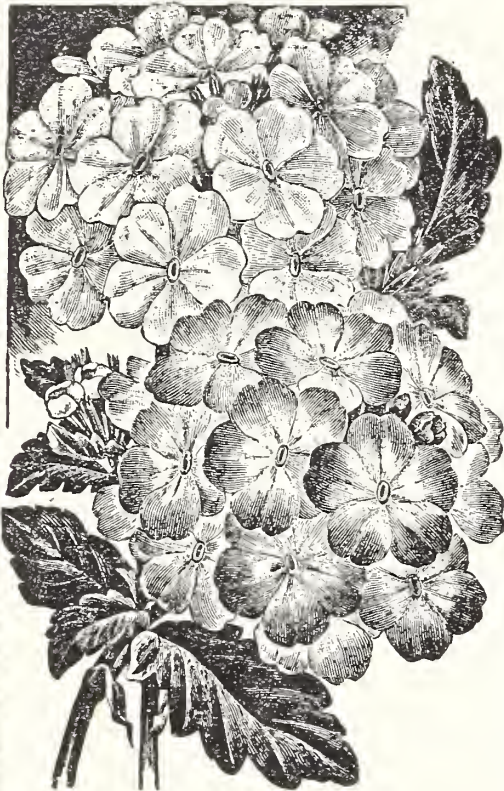

STOCKS

STOCKS

JUNG'S FANCY DOUBLE MIXED

One of the best known and most popular annuals. of easy culture and suitable for pot plants as well as the garden. The plants grow to a height of 2 feet and produce long spikes of double flowers, many of them 2 inches across. Colors include white, rose, blue, crimson and yellow. Our seed is a superb select strain. Pkt. 10c.; 3 pkts. 20c.

VERBENAS

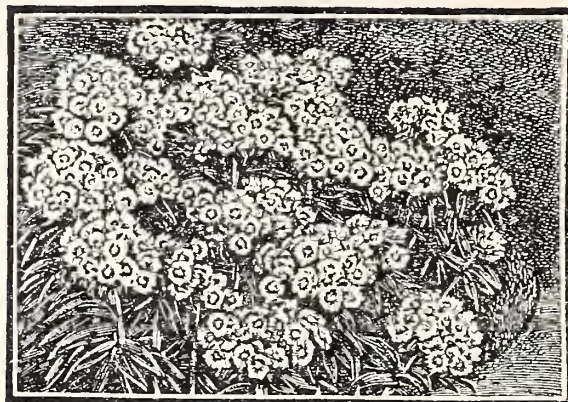

FANCY DOUBLE ZINNIAS

SWEET WILLIAM

HARDY ANNUAL MIXED

The old favorite Sweet William as all know does not flower until the second year but this new strain will begin to bloom in 50 to 60 days from seed sown in the spring and will continue to blossom all summer. The flowers or heads are of large size, very fragrant and of various colors, white, crimson, rose-pink, etc., many of which are edged with white. Splendid for beds or borders. Pkt. 5c.; 3 pkts. 10c.

SWEET WILLIAM, HARDY ANNUAL.

SALVIA BONFIRE

SNAPDRAGON

JUNG'S GIANT FLOWERING MIXED

These flowers were great favorites in old gardens but our giant flowered strain is such a great improvement that anyone would hardly recognize them as the same flower. The bushes grow about 18 inches tall and produce splendid spikes of blossoms in all shades of red, rose, salmon, yellow and white. Very easy to grow and should be in every garden. If carefully lifted and potted in the fall they will bloom in the house during the winter. Pkt. 7c.; 2 pkts. 10c.

SNAPDRAGON

VERBENAS

FAIRFIELD FAMOUS MIXED

We offer you a truly giant flowered mixture of these beautiful annuals. The trusses measure 9 to 12 inches in circumference and the individual florets on well grown plants measure one inch across. They bloom freely, are vigorous in growth and contain beautiful new colors and shades. A mass of bloom from July until heavy frosts. Pkt. 8c.; 1/8 oz. 25c.

SUNFLOWER

CHRYSANTHEMUM FLOWERED

Grows seven feet tall. Perfectly double. The color is the brightest golden yellow. The plants branch and afford fine stout stems for cutting. This gigantic Sunflower will be of great value for the hardy garden and herbaceous border. The flowers are so perfect in form that they resemble Chrysanthemum flowered Asters with long stems. This is the very best variety. Pkt. 5c.; 3 pkts. 10c.

ZINNIAS-Jung's Fancy Double Mixed

Our strain of these beautiful giant flowered annuals is unsurpassed. The flowers are of giant size, when well grown will measure 4 to 5 inches in diameter. Flowers have a wide range of color from creamy white through all shades of yellow, salmon, pink, rose and crimson. Plants grow three feet in height and form large bushes which bloom until killed by hard frosts. Pkt. 8c.; 2 pkts. 15c.

John R. Wilson, Tuscarawas, Ohio.—I have bought garden and flower seed from you for the last 12 years and have found them superior to the seed bought from any other firm.

SUNFLOWER

GLADIOLI

There is no bulb of such easy culture, embracing the great range of color with endless combinations and variety, to equal the Gladiolus. Our bulbs are of the finest quality and will give bountiful satisfaction the first season. The bloom is continuous from the end of July until frost. Culture instructions will be sent with each order.

GOLDEN MEASURE—A giant flowered deep golden yellow gladioli, conceded to be one of the best glads ever introduced. Flowers are large, well arranged and many open at one time. Very strong growers, on our farms many were over 5 ft. tall. Each 25c.; doz. \$2.50;

MARY PICKFORD—Another new "glad" that is well worthy to be classed among the best varieties. The flowers are light cream with a sulphur-yellow throat. They are produced on a long straight spike and 6 to 8 open at a time. You will be delighted with this variety. Each 20c.; doz. \$2.00; 100 for \$7.00.

E. J. SHAYLOR—The largest flowered deep rose pink variety. Grows very tall and has many of the giant ruffled flowers open at one time. Each 15c.; doz. \$1.50;

WHITE GLORY—A pure glistening white variety without a blemish and should be included in every collection of the best varieties. Flowers are large, pure white and of good substance. The best white variety. Each 20c.; doz. \$2.25; 100 for \$8.00.

ROYAL PURPLE—This is one of the best of the newer introductions. Flowers are of immense size and a rich blue or purple color. A very strong grower, stalks are straight and the flowers are well placed. Each 25c.; doz. \$2.25; 100 for \$7.50.

MRS. DR. NORTON—If you want something dainty and delicate this variety is sure to please. Flowers are pure white with tips of petals suffused with La France pink. A wonderful variety. Each 15c.; doz. \$1.50; 100 for \$6.50.

CHEERFUL—This we consider one of our very best glads; a bouquet of these flowers will cheer up the most gloomy room. Flowers are of immense size, well placed on long straight stems and of a bright live red color. We know you will be delighted with it. Each 20c.; doz. \$2.00; 100 for \$6.75.

GLADIOLI OFFER NO. 1

The above 7 varieties are the best to be had in Gladioli.
1 Strong Bulb of Each (7 in all) for \$1.00

GLADIOLI OFFER NO. 2

The 8 varieties listed below are all fancy large flowering "Glads" and are sure to please.

1 Strong Bulb of Each (8 in all) for 50c.

LE MARSHAL FOCH—An improved America. Immense spikes, 2 to 3 feet long, single flowers measure 5 inches across. Delicate shell-pink. Each 10c.; doz. \$1.00 100 for \$4.50.

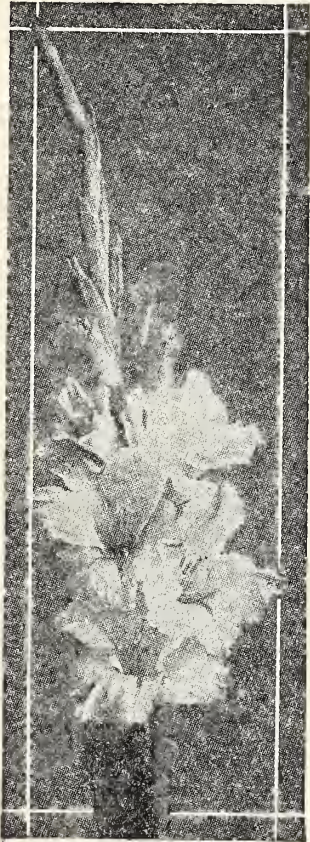

VELVET PRINCE—A very beautiful variety that must be seen to be appreciated. Flowers are of large size and a violet color overlaid with red. Strong grower and is very showy. Each 10c.; doz. \$1.00; 100 for \$4.75.

GOLDEN WEST—The largest and strongest growing yellow Gladioli. Flowers large, pure canary yellow, lower petal marked with scarlet. Each spike produces 15 to 20 flowers. Each 8c.; doz. \$1.00; 100 for \$4.50.

MRS. FRANK PENDLETON—Given the highest award by the American Gladioli Society as the most beautiful variety. Delicate salmon-pink with blood red blotches on lower petals. Flowers and spikes are of giant size. Excellent for decorating. Each 10c.; doz. \$1.00; 100 for \$4.50.

MARY PICKFORD

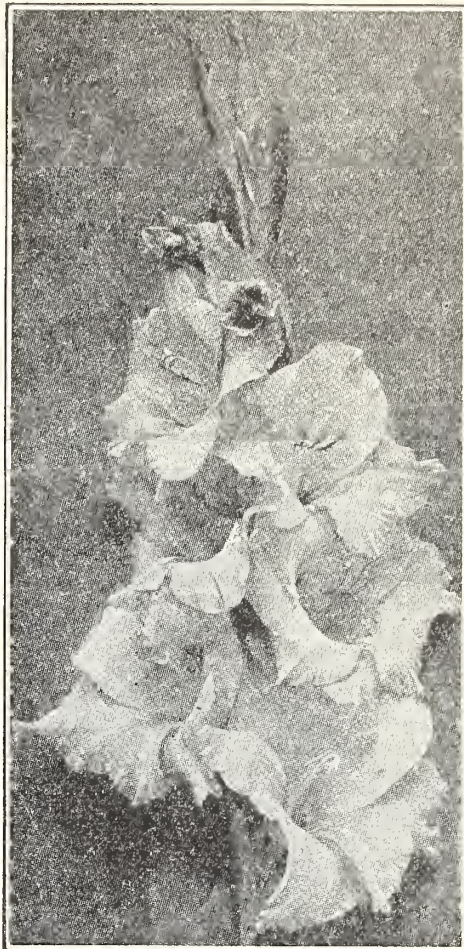

E. J. SHAYLOR

Jung's Supreme Mixed GLADIOLI

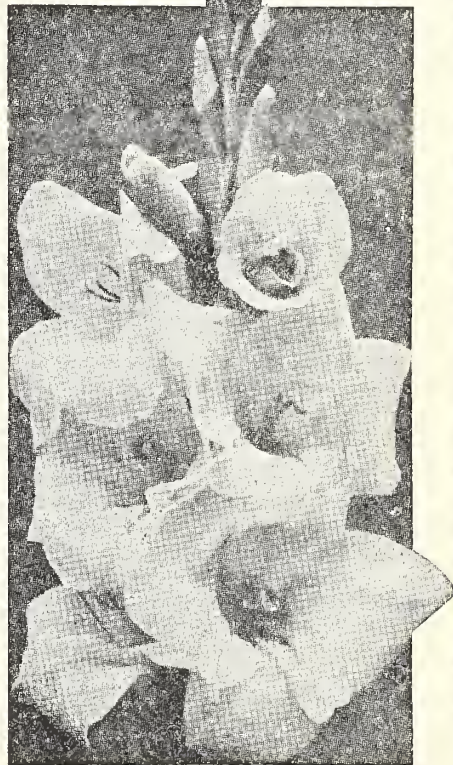

Many of our customers want a choice assortment of Gladioli at nominal expense and we have therefore made up a very choice lot of different types and colors. This is not made up of odds and ends and should not be confused with mixtures usually offered. We do not hesitate to recommend this mixture in every way. 6 for 25c.; 45c per doz.; 50 for \$1.25.

SUPREME MIXED

GOLDEN MEASURE

WHITE GLORY

MRS. FRANCES KING—Of exceptional value for cut flowers. Color is a very pleasant light scarlet. Individual blossoms are five inches in diameter and sometimes larger. Spikes produce 12 to 18 flowers and grow four feet high. Flowering is continuous. Each 7c.; doz. 60c.; 100 for \$3.75.

PANAMA—The best deep pink, or rose colored variety and attracts attention wherever shown. Spikes are long with flowers large and well arranged. Each 7c.; doz. 75c.; 100 for \$4.25.

PRINCE OF WALES—An early flowering sort producing fine spikes and large flowers of a delicate salmon pink. Very showy on account of its beautiful color. Each 10c.; doz. 75c.;

VELVET KING—Deep blood red, shaded with crimson. Flowers open very wide and are of enormous size. Each 8c.; doz. 100 for \$4.25.

Wm. F. Timmermeier, St. Louis, Mo.—The Gladioli bulbs from you last year were just lovely. every one going past spoke of them.

Mary E. North, Greenville, Mich.—The Gladioli I got of you last year were true to name and were very beautiful.

Giant Spencer Sweet Peas

These new Sweet Peas are of enormous size, which with their charming colors and waved and fluted appearance entitles them to be put in a class by themselves. Some of the flowers grown on our farm measured $2\frac{1}{2}$ inches across. The plants are vigorous in growth and should stand at least 18 inches apart.

ASTA OHN—Both standards and wings of flowers are a soft charming lavender. Flowers are beautifully waved and fluted. Pkt. 7c.; oz. 25c.

ELFRIDA PEARSON—Flowers of extra large size and a deep rich pink color; often four flowers to a stem. Pkt. 7c.; oz. 25c.

FIERY CROSS—Giant sized blossoms of fiery-red color which glisten in bright sunlight. Flowers are beautifully waved and borne three and four on long stems. Pkt. 7c.; oz. 25c.

KING WHITE—The grandest of all white Sweet Peas, remarkable for its glistening whiteness and large size. Pkt. 7c.; oz. 30c.

MRS. ROUTZAHN—A beautiful Sweet Pea, soft, salmon-pink, shading towards apricot and rose at the edges. Flowers of largest size and beautifully waved. Pkt. 7c.; oz. 25c.

KING WHITE

ROYAL PURPLE—A beautiful rich deep purple and the best in its class. Flowers of large size borne on long stems and produced in great profusion. Pkt. 7c.; oz. 25c.

WARRIOR—Beautiful rich maroon flowers of large size and true waved or fluted style. Very vigorous growers. Pkt. 7c.; oz. 25c.

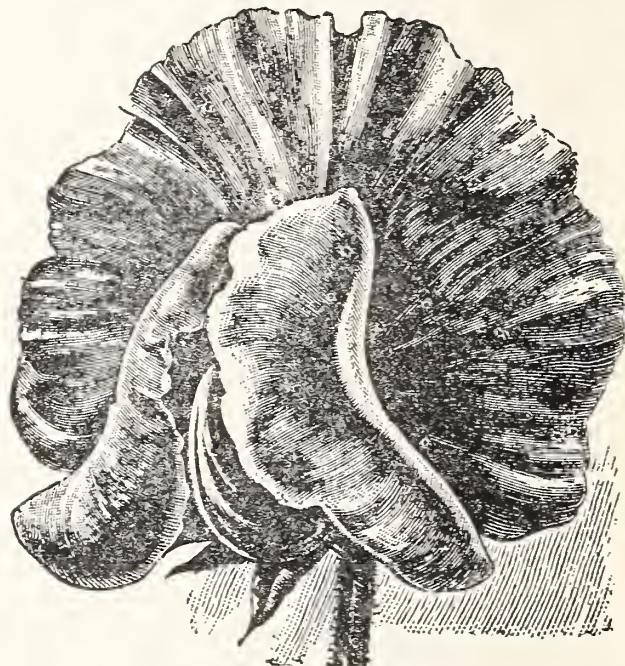

SPECIAL OFFER—1 oz. of each of above 7 Grand Sweet Peas for \$1.35.

Giant Spencers Mixed Sweet Peas

(See inside back cover)

The finest mixture of Sweet Peas to be had. It has been made with extra care from the finest large flowering Spencer varieties and in such quantities as to produce a well balanced and fine proportioned color effect. All dull and undesirable colors have been omitted making this the finest mixture it is possible to produce. If you want a fine display of Giant Sweet Peas sow this seed. Pkt. 7c.; oz. 25c.; $\frac{1}{4}$ lb. 50c.

"NOD-O-GEN" will give you more and larger Sweet Peas. See page 1.

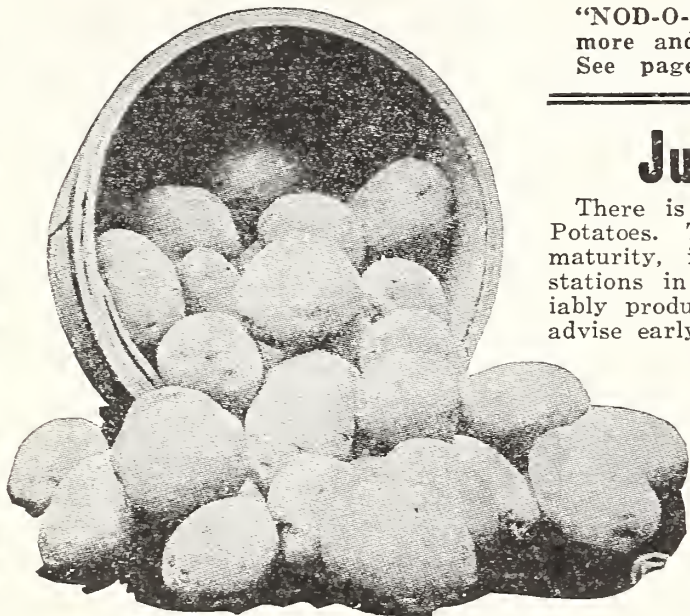

FIERY CROSS

Jung's Northern Grown Seed Potatoes

There is no longer any doubt about the superiority of Northern Grown Seed Potatoes. They are full of life and by planting our seed you are assured of early maturity, increased yield and vigorous growth. Tests conducted by experiment stations in different states have all proved that northern grown potatoes invariably produce the largest crops. Seed Potatoes are scarce and for this reason we advise early orders. Prices subject to change.

TIME OF SHIPPING SEED POTATOES

We start shipping out seed potatoes as soon as safe from frost, usually about March 25th. However we can ship sooner if you wish to take the chance of having them frozen while in transit. If the time of shipment is left to our judgment we will ship when we consider it safe and if they should then freeze have your agent mark this on your freight or express bill and we will refill the order or refund for the damage. Always state whether you wish shipment to go by freight or express. Freight takes a little longer but for shipments of 100 lbs. or more the charges are only about one-half as much as express.

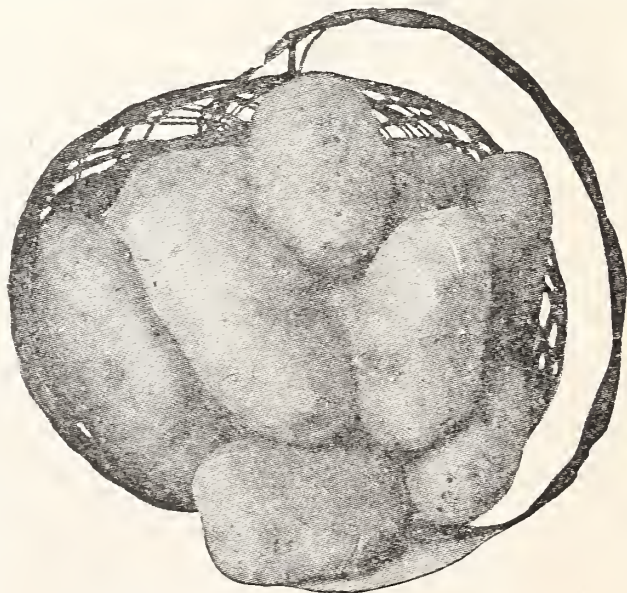

JUNG'S EXTRA EARLY WHITE

Jung's Extra Early White

It is a most excellent extra early variety, maturing good size tubers seven weeks from time of planting. It has also the remarkable characteristic of producing very few, if any small potatoes, all the tubers being of marketable size. The vines make short upright growth, so that the hills may be only a short distance apart. The flesh is pure white, with a clean smooth skin; and in quality they are excellent, always cooking dry and mealy. They are splendid keepers and taking it all in all it is a first-class sort and worth the attention of all potato growers. Not prepaid: Pk. 70c.; bu. \$2.50. Second size: Bu. \$1.90.

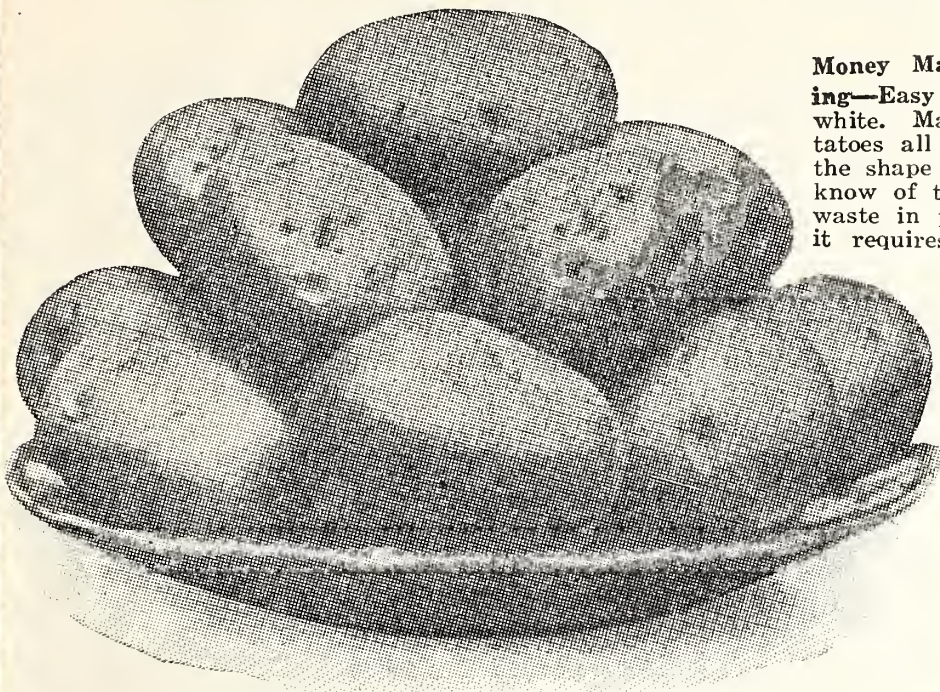

Jung's Early Newmarket

This variety has been giving a splendid account of itself again the past season, it proving to be one of the very best early varieties. This is an early variety, being ready to use as soon as EARLY OHIO and thus far has outyielded all other varieties. The vines are strong and vigorous in growth and the foliage retains its vigor and rich coloring until the plants are full grown. The tubers are of good size, a little long in shape and have a pure white skin. The cooking qualities are all that could be desired; in fact it is one of the finest varieties we have. Unlike most early sorts it is of just as good cooking quality during the winter as when first dug. Not prepaid: Pk. 75c.; bu. \$2.65. Second size, Bu. \$2.00.

JUNG'S EARLY NEWMARKET

NORTHERN GROWN SEED POTATOES-Famous for Earliness and Big Yield

RED RIVER EARLY OHIO

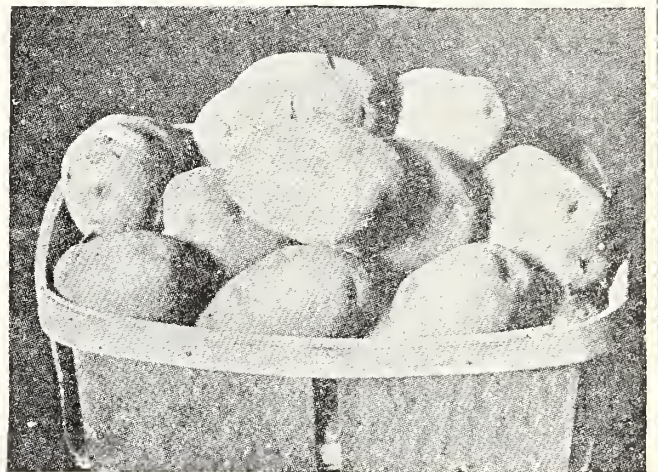

The Famous "Green Mountain"

A fine main-crop potato that is becoming very popular as it matures earlier than Rural New Yorker and is of much better quality. It makes a strong vigorous vine, foliage light green and pure white blossoms. Tubers are slightly oblong, cream or russet in color and covered with a thick netting, a sure indication of the highest cooking qualities. Green Mountain is hard to beat for an eating potato; it is also a good keeper and heavy yielder. Not prepaid: Pk. 65c.; bu. \$2.25; 10 bu. \$21.75. Second size: Bu. \$1.65.

E. F. Stroeble, Rock Island, Ill.—I purchased my seed potatoes from your company last year and I must say that I was very well pleased. I got the best yield I have ever obtained.

Red River Early Ohio

Money Makers—First Early—No Waste in Cooking or Peeling—Easy to Dig. Skin light pink or flesh color, flesh pure white. Matures about one week earlier than Early Rose. Potatoes all run good marketable size, very few small ones and the shape is so even they sell on sight on the market. Buyers know of the excellent quality and housewives find there is no waste in peeling; eyes are set close to the surface. Further, it requires less expense than most varieties to grow; vines upright, allowing easy and thorough cultivation and tubers are set in a compact clump near the surface so that digging is easy. Our Red River grown seed of this variety will increase your yield far beyond your expectations. The soil in this valley is peculiarly adapted to the best development of the Potato crop. Not only do you get an increased yield but the Potatoes are far better, cleaner and entirely free from scab, besides being pure with none of the mixture usually found in eastern grown stock. It will pay you to change your seed. Our Red River strain will mature two weeks earlier than stocks grown farther south. Not prepaid: Pk. 70c.; Bu. \$2.45; 10 bu. \$23.50. Second size: Bu. \$1.85.

GREEN MOUNTAIN

JUNG'S HARVEST KING

Jung's Special Potato Offer

In order that you may try out a number of our good potatoes at a reasonable price we have made up a collection of the following:

JUNG'S EXTRA EARLY WHITE	GREEN MOUNTAIN
JUNG'S WHITE BONANZA	JUNG'S HARVEST KING
1 Bu. of each for \$8.75	1 Peck of each for \$2.60

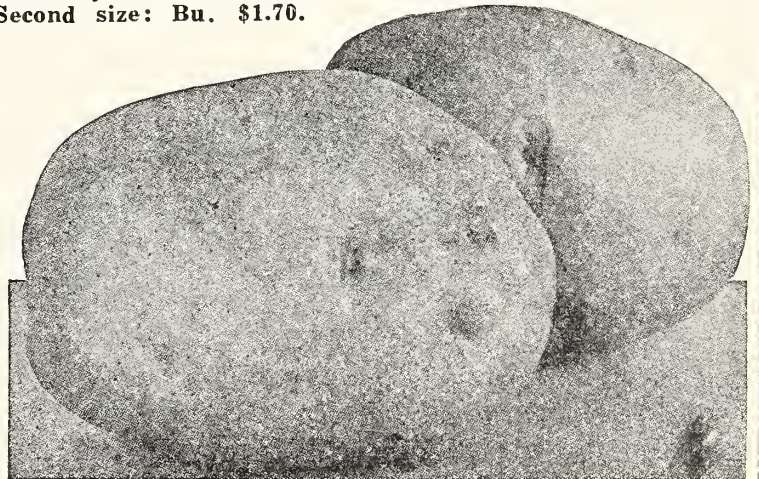

This price is for 1st size select stock

Jung's White Bonanza

A new potato that promises to surpass anything we have yet seen in potatoes. It combines finest appearance, great yield and superb cooking qualities. In appearance it somewhat resembles a Rural but is ripe and ready to dig when that variety is still green. This alone will prove it is of great value as ripe, well matured potatoes always bring top prices. The size and shape are well shown in the illustration. A remarkable thing is the uniform size of the tubers, no overgrown or small ones at all. We advise early orders. Not prepaid: Pk. 70c.; bu. \$2.35; 10 bu. \$22.00. Second size: Bu. \$1.70.

Jung's Harvest King

A Money Maker Main Crop Potato. We take great pleasure in offering our friends this grand Potato and we are sure that everyone who tries it will be more than pleased with its fine quality, vigorous growth and great productiveness. It has proved itself to be of great value on account of its tremendous yield, together with the fact that it produces but very few small potatoes. It is a magnificent sort, nice large, sound white tubers which are of excellent quality for cooking or baking. Harvest King will bring the highest price on all markets. We offer an unusually nice stock of our own growing which is clean and healthy having been treated for both scab and blight. Not prepaid: Pk. 60c.; Bu. \$2.25; 10 bu. \$21.50. Second size Bu. \$1.65.

JUNG'S WHITE BONANZA

S. Hardy, Wayne, Mich.—Was well pleased with the potatoes received from you last Spring; also the seeds.

NORTHERN GROWN POTATO EYES

Many of our customers who wish to get some of our pure bred seed potatoes but do not feel like paying the freight or express charges on a small quantity can now try them out at small expense by planting our select Potato eyes. These eyes are cut from select potatoes, they will keep for a long time and we guarantee them to reach you in good condition. In this way you can try out our potatoes at very small expense as we pay all postage charges. We can supply our select hand cut eyes as follows:

	100	200	500
Jung's Extra Early White	\$1.25	\$2.00	\$4.65
Jung's Early New Market	\$1.20	\$1.90	\$4.35
Jung's White Bonanza	\$1.25	\$2.00	\$4.50
Jung's Harvest King	\$1.00	\$1.80	\$4.25
Green Mountain	\$1.10	\$1.90	\$4.35
Red River Early Ohio	\$1.20	\$1.95	\$4.35

50 eyes of each of the above varieties for \$3.45

100 eyes of each of the above varieties for \$5.90

No. 1 Wis. White Field Peas RICHEST FOOD KNOWN FOR HOGS Excellent for hay or green feed

Field Peas should be more generally grown, as you can produce pork at a low cost by sowing a few acres of these peas. A good way to raise a bunch of excellent hogs is to sow some field peas and plant a few acres of our Smut Nose Flint Corn. When the peas are fairly ripe, turn your shoats into them which will give them a fine start and when the peas are gone let them into the corn as it will be ripe by that time. Field Peas also make excellent hay when sown with oats, also splendid when cut green and fed to milch cows. Our seed is extra fine and we offer it at a price so that any farmer can afford to sow a few acres. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. \$1.10; bu. \$3.60; 2½ bu. \$8.75.

Field Peas

INOCULATE WITH NOD-O-GEN

PLANTS
INOCULATED
WITH
NOD-O-GEN

(BELOW)
NOT
INOCULATED

For Legume Crops

The cheapest and easiest way of improving crops and soil.

The Legume crops when not inoculated rob the soil; inoculated with the right bacteria, they feed the soil, grow more vigorously and contain a higher percentage of valuable feed proteins.

Nod-O-Gen Easiest and Surest Form of Inoculation

Nod-O-Gen is a scientific pure culture of root nodule bacteria, prepared on special food jelly in bottles with patent stoppers which permit the bacteria to live and breathe and maintain their vigor. Each culture contains plenty of bacteria to inoculate the quantity of seed marked on the bottle. The cost per acre is very small.

Moreover Nod-O-Gen is easiest inoculation to use, requiring no equipment or experience. Takes only a few minutes. Complete directions on every bottle. Results are sure.

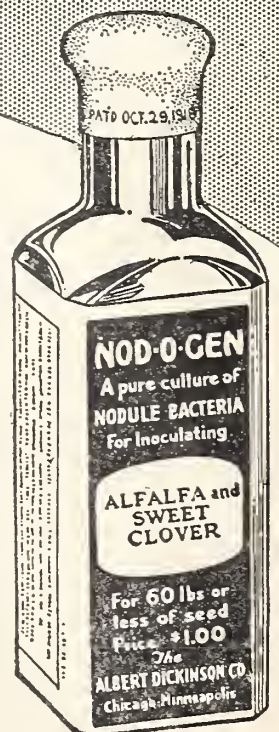

Prices for Nod-O-Gen

For Alfalfa, Sweet Clover, Red Clover and other Clovers (specify which):

Jung's Heavy Yielding Northern Grown Seed Oats

IOWAR OATS

We make a Specialty of Pedigree Seed Oats. This is not oats that is bought on the open market, given a fancy name and then sold at a good price. Our Oats is grown from the best Pedigree stock on clean land and can be relied upon to give the best satisfaction.

"Iowar"

Extra Early.

Wonderful Yields.

The past 3 years the superior qualities of early oats were very noticeable as they produced much heavier grain and larger yields than the later varieties due wholly to the fact that they ripen before severe heat or rust strikes them. The Iowar ripens as early as barley in fact can be cut and

shocked while the common oats are still green. They grow a stiff straw and are noted for their ability to stand up on rich ground, every bundle seems to be a mass of heads. Has a yield record of 80 bu. per acre. The kernels are medium sized, pure white color and have a very thin hull, this accounts for their heavy weight as they seem to be all meat. We have a very nice lot of this seed. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 45c.; bu. \$1.00 2½ bu. \$2.40; 10 bu. \$9.25; 25 bu. \$22.25. Bags free.

Jung's Bumper Crop-Wis. No. 5

A Pedigree Oats originated at the Wis. Experiment Station at the same time as Wis. Ped. No. 1 but entirely different in character. Wis. Ped. No. 5 has a very thick, white kernel, medium in length, heavy and very attractive; in fact the finest looking oats we have; big fat kernels fairly bursting with life and energy. It grows a strong rank straw and is especially adapted for heavy clay soils. Has made splendid yield records. Why sow common or scrub oats when you can buy our pure pedigree oats at such reasonable prices. You will get more than enough extra yield to pay for the seed and then have it to sow every year. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 45c.; bu. \$1.05; 2½ bu. \$2.45; 10 bu. \$9.50; 25 bu. \$22.75. Bags free.

BUMPER CROP OATS

Wisconsin Pedigree Barley

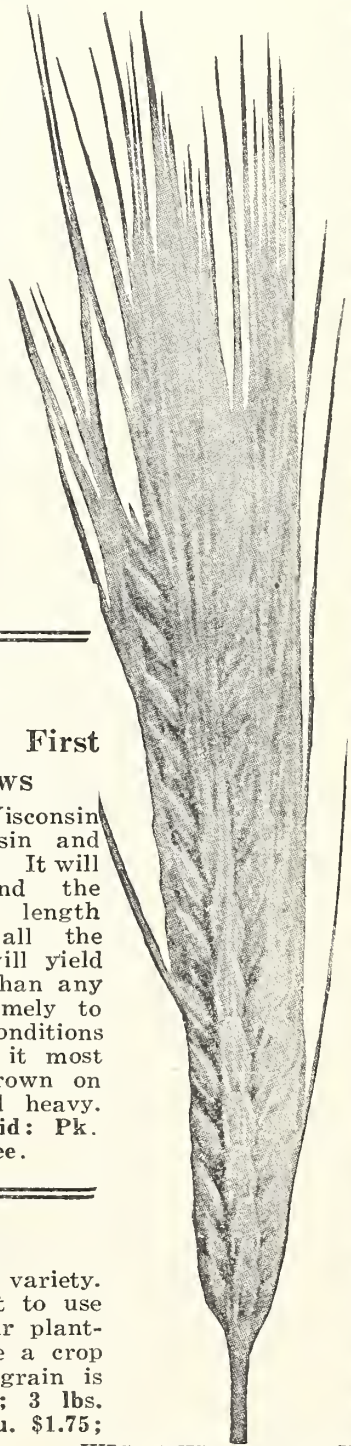

The Barley That Always Wins First Premium at All the Grain Shows

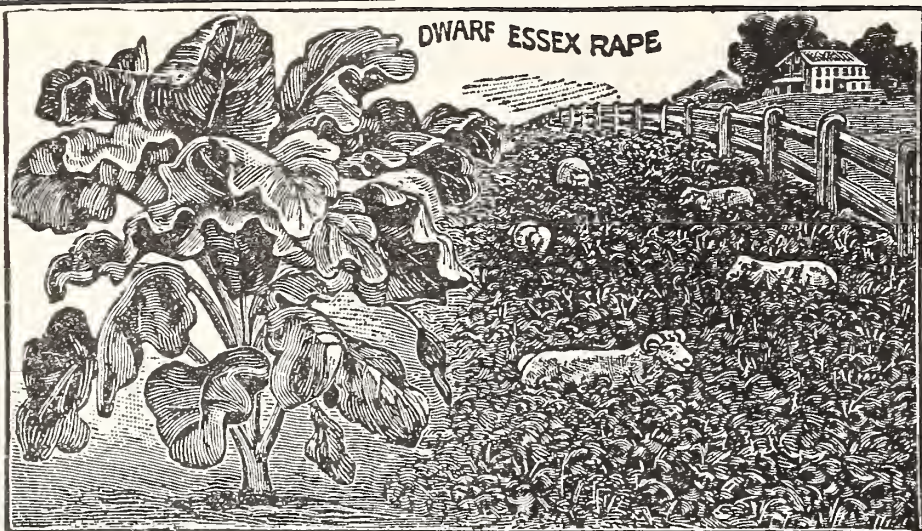

It has been thoroughly tested at the Wisconsin Experiment Station and throughout Wisconsin and proved to be superior to any other variety. It will outyield all others, has stiffest straw and the plumpest berry. The heads are of great length and a remarkable characteristic is that all the kernels are uniform in size. This barley will yield from five to fifteen bushels more per acre than any other and it will pay any farmer handsomely to sow this barley. Under normal conditions the kernels are bright and white, making it most attractive. Our seed of this barley was grown on our Fairfield Farm; it is very plump and heavy. Lb. 25c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 50c.; bu. \$1.40; 10 bu. \$13.50. Bags free.

Japanese Buckwheat

By far the best and most productive variety. Produces the most flour and is excellent to use for a crop when late seasons change your planting plans. Seed sown in July has made a crop of over 40 bushels per acre. Color of grain is a dark brown, almost black. Lb. 25c.; 3 lbs. 50c., postpaid; not prepaid: Pk. 60c.; bu. \$1.75; 2½ bu. \$4.20.

WIS. PED. BARLEY

DWARF ESSEX RAPE

Genuine Dwarf Essex Rape

The greatest of all forage plants. It is ideal for sheep pasture and is now also largely sown for cattle and hogs. It furnishes an immense amount of green feed on a small area and its nutritive value is nearly twice that of clover. Under favorable conditions it is ready for pasturing in 6 weeks from the time of sowing and furnishes excellent feed throughout the summer and fall. Dwarf Essex Rape thrives best on good soil, rich in vegetable matter. Rape should be sown in drills at the rate of three pounds to the acre, or broadcast, using four to six pounds to the acre, all through the summer months, so as to furnish a successive crop of sheep and hog feed. Some firms ask more for their Rape Seed than we do, but we handle the VERY BEST SEED which is always sure to give satisfaction. Lb. 20c.; 3 lbs. 50c., postpaid. Not prepaid: 5 lbs. 80c.; 10 lbs. \$1.50; 25 lbs. \$2.90; 100 lbs. \$9.80.

Manchu Soy Beans

Inoculate with "Nod-O-Gen"

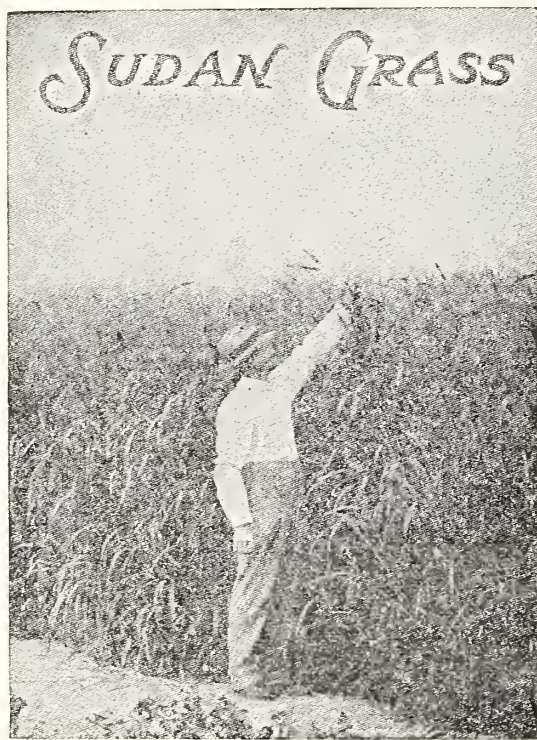

Great for Silage; Equal to Clover for Hay

Soy Beans have a double value as they are great for feed and also nitrogen gatherers, making the soil richer wherever they are grown. They can be sown broadcast for hay or sown in rows and cultivated if wanted for the beans. Soy Beans are much richer in protein than oil meal or bran and can be used to good advantage in making a balanced ration when ground with oats or barley. For ensilage they may be sown in rows or also planted with the corn as the corn binder will cut them very nicely. They are a tender plant and should be planted about the same time as corn. Probably the best all round variety as it makes a good growth about 30 inches tall and is excellent for ensilage. Lb. 25c.; 3 lbs. 50c., postpaid; not prepaid: Pk. \$1.00; bu. \$3.25. Bags free.

Soy Beans

You no doubt can buy seeds at lower prices than ours but we wish to state that we know if you want the best quality you will find our prices very reasonable. We try at all times to produce the best seeds it is possible to get and such seeds are always the cheapest in the end.

SUDAN GRASS

SUDAN GRASS

The Wonderful New Forage Plant

Sudan Grass although comparatively a new plant is becoming very popular. It is far more valuable for hay than millet or any of the sorghums as it is just as easy to grow and will produce more and better hay. It makes a heavy yield, 3 to 5 tons of cured hay per acre, usually two cuttings per season can be made, for if cut before the seed ripens it will grow again like alfalfa. The hay is of excellent quality and all kinds of stock eat it readily. An excellent crop to sow after early peas, as it can be sown as late as July 10th and still make a crop. Sow broadcast like oats, 20 to 25 lbs. per acre, any time from May 20 to July 10th. Try some, we know you will like it. Lb. 30c.; 3 lbs. 65c., postpaid. Not prepaid: 10 lbs. \$1.40; 50 lbs. \$4.85; 100 lbs. \$9.25. Bags free.

JAPANESE MILLET

Japanese Millet is one of the most remarkable forage plants we have; remarkable for its marvelous luxuriant growth, often growing six feet tall; remarkable for the immense amount of hay it produces from each acre; and remarkable for its feeding value. It is adapted to all climates, does well on low ground; makes more hay than any other Millet and requires less seed per acre. Sow in May for best results, 15 to 20 pounds per acre. If desired for hay, cut just before it heads out. Lb. 20c.; 3 lbs. 50c., postpaid. Not prepaid: Pk. 65c.; bu. \$2.00. Bags free.

GERMAN MILLET

The German Millet grows very rank, generally three to four feet high and is one of the best varieties for hay, being sweet, palatable and milk producing. The hay may seem coarse, yet it is very tender if cut at the right time, which is when in full bloom and cows, horses and other farm stock are all exceedingly fond of it. Lb. 25c.; 3 lbs. 60c., postpaid. Not prepaid: Pk. 75c.; bu. \$2.35. Bags free.

GERMAN MILLET

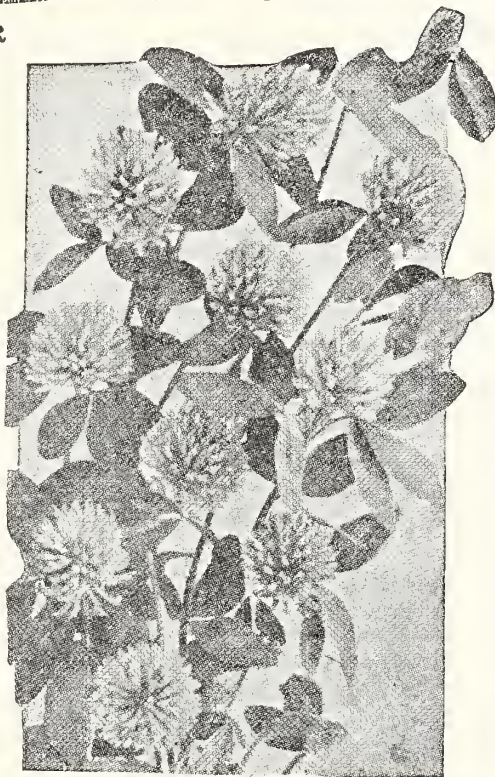

MEDIUM OR RED CLOVER

ALSIKE CLOVER

Inoculate this seed with Nod-O-Gen—page 44

The advantage of Alsike over Red Clover is its true perennial character and great hardiness. It will adapt itself to extremes of either wet or drought and will flourish on soils where red clover would not grow, it is also more leafy and does not have heavy stalks and for this reason makes a much finer hay especially when sown with Timothy. It is highly nutritious and very fragrant; excellent for bees. Also excellent for pasture as it is very hardy and seldom winter-kills. Alsike is the only clover that will thrive and not kill out on low places. Fancy Extra Clean Seed: Lb. 50c.; 3 lbs. \$1.45, postpaid. not prepaid: Pk. \$5.90; bu. \$22.75. Bags free.

ALSIKE CLOVER

Fancy Recleaned Timothy

As a crop for hay TIMOTHY is probably unsurpassed by any other grass. It is highly relished by all kinds of stock, especially horses. It yields more nutritive matter than any other grass or forage plant. It is not suited for a permanent pasture as it will run out in the course of a few years. The largest crops of hay are raised on rich land. It is not suited for light, sandy soil as well as some other grasses. The most important point in the growing of TIMOTHY is the selection of GOOD SEED. POOR SEED, besides containing weed seeds, WILL NOT ALL GROW. Extra Fancy Seed: Lb. 25c.; 3 lbs. 70c. postpaid; not prepaid: Pk. \$1.10; bu. \$3.80.

FANCY RED TOP

A suitable grass for moist, rich soils where it thrives most luxuriantly. It is a good variety to sow with Timothy or Clover for meadow or pasture and is more permanent than either of the other two. It should be fed close for if it is allowed to grow up to seed cattle dislike it. On good soil it grows about four feet high. Lb. 50c.; 3 lbs. \$1.45, postpaid; not prepaid: 10 lbs. \$3.50; 50 lbs. \$17.50; 100 lbs. \$32.00.

RED TOP

Fancy Recleaned Clover Seed

Clover is without any question the most popular and widely grown crop for hay, pasture and also for building up or enriching the soil. This season the price of the seed is very reasonable and every farmer should sow clover liberally. In sowing clover seed nothing is more important than that the seed be pure and free from foul weeds. Beware of imported clover, it may be cheaper in price but it is not suited for our climate and often contains many foul weeds. You can rely on Jung's Clover being pure and suitable to our climate. Sow clover with all your small grain, the fertility it adds to your land will more than pay the cost of the seed. Prices subject to market changes.

MEDIUM or RED CLOVER

Inoculate this seed with Nod-O-Gen—page 44

We have an unusually fine stock of Medium Clover Seed. It is bright, pure, of high germination and free from foul weeds. This is the standard Red Clover and a dependable all-around variety for farmers and stockmen. It makes two crops a year. The first is usually cut when in bloom for hay; the second crop may be cut for hay, harvested for seed or plowed under to add fertility to the soil. It pays always to buy the best grade of CLOVER SEED that can be obtained. Even though the first crop cost is more than the cheaper grade, it will be found in the long run that inferior seed is the most expensive, not only on account of less hay or seed being produced from it but from the fact that one's land is liable to become infested with weed seeds. Sow GOOD CLOVER SEED and plenty of it. Fancy American Grown Seed: Lb. 50c.; 3 lbs. \$1.45, postpaid; not prepaid: Pk. \$6.50; bu. \$25.50; 2½ bu. \$62.50.

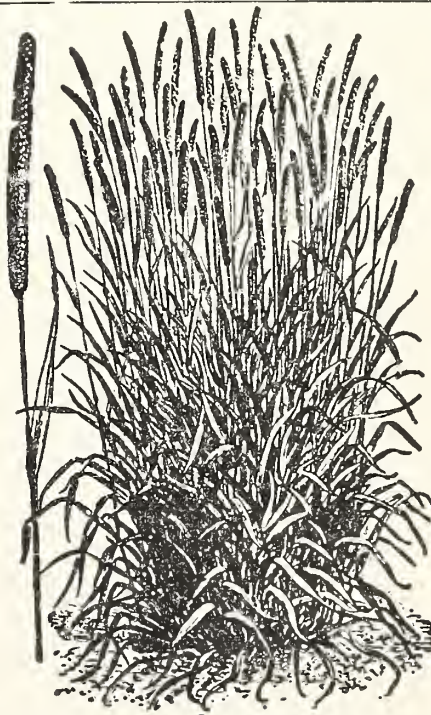

MAMMOTH CLOVER

Inoculate this seed with Nod-O-Gen—page 44

This is well known for its enormous yields and is largely used as a fertilizer to plow under green. It is very hardy and hardly ever freezes out. Also excellent for pasture as it produces so much forage. It produces very large crops of hay, 3 to 5 tons per acre. As a fertilizer to plow under green it has no equal, also excellent to sow with small grain for fall pasture, using from 4 to 6 lbs. per acre. Fancy Seed: Lb. 50c.; 3 lbs. \$1.45, postpaid; not prepaid: Pk. \$6.75; bu. \$26.00. Bags free.

All of our Clover seed is American grown. We do not handle imported clover as very much of it will not stand our severe winters.

When comparing prices please remember that we make no extra charge for bags as they are weighed in with seeds, gross for net.

TIMOTHY

A SECOND CUTTING OF ALFALFA

ALFALFA THE COMING HAY CROP FOR WISCONSIN

A clover-like leguminous plant of great importance as a hay crop; nutritious and rich in protein elements. It grows from 2 to 5 feet high and roots 8 to 12 ft. deep. It needs one season to become established; after that it yields enormous crops annually for years. Two to six cuttings per season, aggregating three to eight tons of cured hay are harvested, according to conditions and locality. It does well on all good, rich soils, except heavy clay, if it is well drained. It is a perennial plant lasting many years under good treatment. It should be grown by every farmer and dairyman. We offer only **DRY LAND SEED**. Dry Land Alfalfa is much to be preferred to seed grown under irrigation as the Dry Land Seed produces a much heavier and more vigorous plant. Insist on having **DRY LAND SEED**.

"Dry Land" Hardy Dakota No. 12

We have an unusually nice stock of this seed grown in the Black Hills region of So. Dak. This seed is very plump, bright in color and free from foul weeds. This strain is now being sold in Wis. in large quantities as it has proved to be very hardy; it is just as good and hardy as Montana seed. Lb. 40c.; 3 lbs. \$1.10, postpaid. Not prepaid: Pk. \$4.25; bu. \$15.75; 2½ bu. \$37.85. Bags free.

Canadian Super Hardy Alfalfa

This is probably one of the most hardy strains of Alfalfa, the seed we offer was grown in Ontario, Canada and should, therefore survive any Wisconsin winters. Its one great merit is the fact that it has a spreading root system instead of a long straight tap root like common varieties, this enables it to withstand heavy freezing without injury. You will find this strain to compare very favorably with the regular Grimm and it does not cost as much. We quote from the Agricultural college, Guelph, Ont., Canada. A large number of tests in past years have proved that common Alfalfa would not live long in Ontario. Variegated Alfalfas, such as Grimm and Ontario Variegated, however proved very hardy. In one experiment at the college hay has been cut 3 times a year for eleven years without re-seeding. The average yield of hay per acre was slightly over four tons each season. We offer Ontario, Canada grown seed: Lb. 45c.; 3 lbs. \$1.30 postpaid. Not prepaid: Pk. \$4.85 bu. \$18.25; 2½ bu. \$45.25. Bags free.

CANADIAN SUPER-HARDY

Certified "Blackfoot" Grimm Alfalfa

This is probably the hardest and most popular Alfalfa. It was brought to Minn. by a German farmer named Grimm in 1857 and the seed we offer can be traced back to the original stock. Grimm Alfalfa can be distinguished from other varieties by its blossoms, which are yellow, blue green, etc., instead of all purple and by its branching root system. The great hardiness of Grimm Alfalfa is no longer questioned as under farm conditions and carefully conducted trials of the University of Wisconsin it has proved to be the hardest variety known. We offer genuine "Blackfoot" No. 1 seed, of high germination and absolutely free from foul weeds. In ½ bu. \$12.25; bu. \$23.50.

BLACKFOOT GRIMM

You Should Grow Alfalfa

It contains as much protein as wheat bran.

It does not exhaust but enriches the soil.

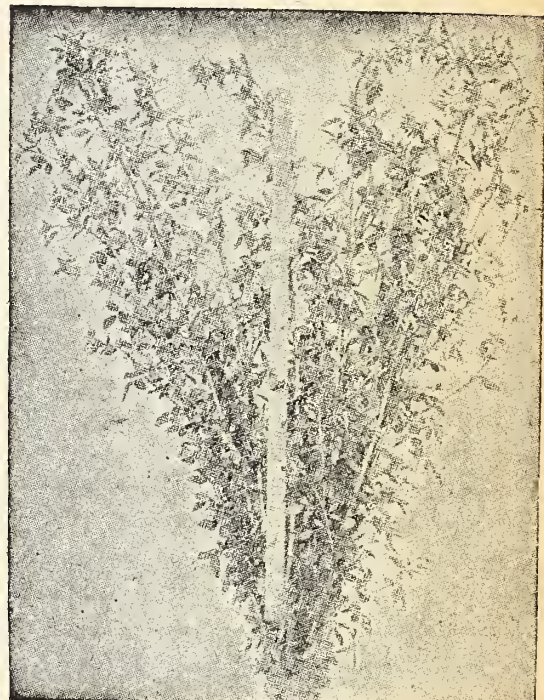

It produces from three to eight tons of hay to the acre.

One acre will pasture 20 hogs for 6 months.

Thirty-five pounds makes a full feed for fattening steers.

A lamb will winter and thrive on three pounds a day.

There is no state in the Union where ALFALFA cannot be successfully grown.

GRUNDY CO. SWEET CLOVER

SWEET CLOVER

THE GREAT SOIL BUILDER

Dwarf or Grundy County

Scarified Seed

This is a special strain of White Blossom Sweet Clover; it is earlier, more dwarf and much more leafy than the common variety. In fact it is so leafy and looks so much like alfalfa that it might be called a white blossomed alfalfa. On account of its earliness and quick growth the leafiness and fine quality of hay produced it will prove much more desirable than the common variety. We have some very nice seed that we offer at a reasonable price. Lb. 35c.; 3 lbs. 80c., postpaid. Not prepaid: Pk. \$2.75; bu. \$10.25; 2½ bu. \$24.50. Bags free.

Fancy White Blossom

Scarified Seed

Sweet Clover belongs to the family of leguminous plants and adds greatly to the fertility of the soil on which it is grown. Sweet Clover will grow and make a crop on soil where other clovers and grasses would perish and makes a very good hay for cattle, also excellent pasture for hogs being the first to start in the spring and the last to be killed by frost in the fall. It is coming into popular favor more every year as its good qualities are being recognized. As the price of the seed is very reasonable every farmer should sow some. Fancy Scarified Seed: Lb. 30c; 3 lbs. 65c., postpaid. Not prepaid: Pk. \$2.40; bu. \$9.00; 2½ bu. \$22.00. Bags free.

It Pays to Inoculate

Your Clover, Alfalfa, Soy Beans, etc., with Nod-O-Gen. See page 44.

Jung's Quality ASTER COLLECTION

Eight Packets of Jung's Superb Asters,
All Different Colors, for 45c.

We make this exceptional offer to convince you that JUNG'S ASTERS are in a class by themselves. We want every one of our customers to take advantage of this offer. The following seven grand varieties will be sent to any address postpaid for only 45c.

Jung's American Beauty—Giant Flowered Rose-pink.....	.10
Jung's Chrysanthemum Flowered—Immense Shell pink flowers	.08
Royal Lavender—Large Charming Soft Lavender Flowers....	.10
Giant Branching White—The Largest and Best Pure White..	.07
Jung's Scarlet Gem—Rich, Fiery Red, Very Showy.....	.08
Yellow Chrysanthemum—The Newest Aster, Canary Yellow..	.10
Jung's Giant Purple—Deep Purple, Extra Long Stems.....	.10
Jung's Early Innocence—Blossoms in July, all colors.....	.07

From no other seedsmen can such a grand assortment of ASTERS be had for such a small price. These packets are regular full sized and contain only the choicest seed.

With each collection we send FREE INSTRUCTIONS on how to grow the large fancy flowers.

We make a specialty of Asters and for size and perfection of flowers our strains are unexcelled. No other flower can approach the Aster for beauty, color, form or profusion of bloom. They are hardy and may be had in flower from early summer until late in the fall.

Jung's Giant Fancy Mixed Asters

This is the highest grade of mixed Asters it is possible to produce, it contains all of the colors shown above and is made up of only giant flowered varieties. Most seedsmen do not put out such a mixture as the seed costs too much but as we grow our own seed it is possible for us to do this. Many of these flowers will be 5 in. across and are borne on stems 2 to 3 ft. long. Pkt. 10c.; 3 pkts. 20c.; ¼ oz. 45c.

7 Pkts. Giant Spencer Sweet Pea Collection 25 Cts.

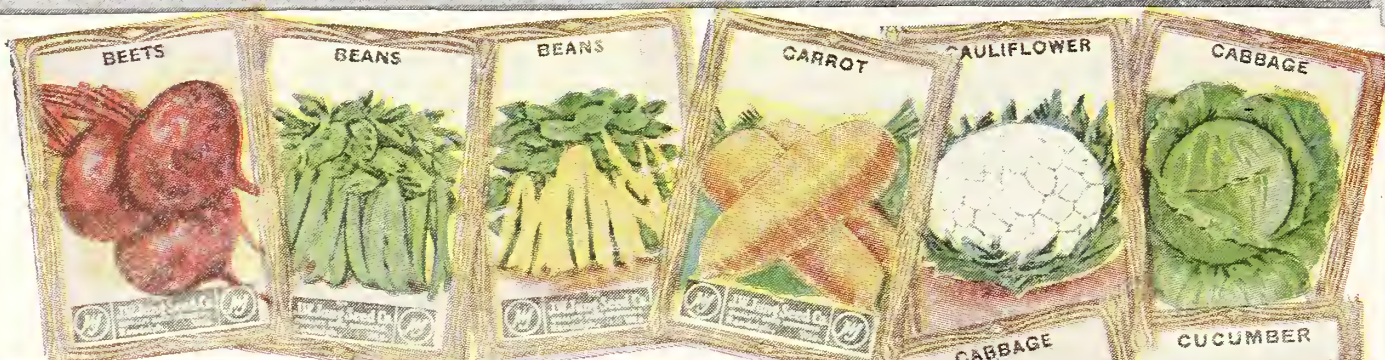

These new Sweet Peas are of enormous size, often 2 in. across and are borne on stems 10 to 15 in. long. They are very much superior to the ordinary kinds and in order that you may have them in profusion we will send you the following 7 pkts. for only 25c.:

ASTA OHN—Charming Lavender	MRS. ROUTZAHN—Salmon Pink
FIERY CROSS—Fiery Red	ROYAL PURPLE—Deep Purple
KING WHITE—Pure White	WARRIOR—Rich Maroon
ELFRIDA PEARSON—Deep Rich Pink	

Giant Spencer Mixed Sweet Peas

The finest mixture of Sweet Peas to be had, it contains all the colors shown above besides many others and is made up of only the largest flowering Spencer varieties, all dull and undesirable colors have been omitted. If you want a fine display of Giant Sweet Peas sow this mixture. Pkt. 7c.; oz. 25c.; ¼ lb. 50c.; lb. \$1.50.

"Inoculation" will give you more and larger sweet peas if applied to the seed. Per can 25c.

JUNG'S GREAT \$1.00 COLLECTION

31 Big Pkts. of Jung Quality Seeds, as listed below, for \$1.00
This collection is made up of the finest strains of seeds and each variety was selected for its unusually good qualities.
